City-owned trash collection studied

Confronted with sharply increased costs for garbage and trash collection, Granite City Council members decided Tuesday night to go along with a bidding plan suggested by Terry McMillan, superintendent of the city's sewage treatment plant, and at the same time look into the prospective costs of setting up the city's own trash collection system.

The aldermen approved a motion to call bids for trash and garbage collections on a unit cost basis instead of by a lump sum after McMillan noted that the city should be able to reduce collection expenditures by selecting low bids for each phase of the program.

McMillan told the council members that he believes the various operations of garbage and trash collections should be broken down so that operators who want to bid only on certain operations would be able to offer their best cost schedules. In other words, he said, the hauling of sludge from the treatment plant, landfill usage, pickup operations and other phases of work could be separated.

Ten separate classifications of work for bidding were suggested by McMillan.

At the same time, however, the

aldermen also agreed that it might be cheaper in the future if Granite City established its own garbage collection system.

The aldermen instructed Dave Nolan, administrative aide to Mayor Paul Schuler, to continue an investigation into comparative costs of handling

garbage and trash pickups in cities that have their own systems.

During an hour-long meeting of the council as a committee of the whole, Nolan told the aldermen he already had checked several cities on a preliminary basis and found that those cities

Lock-dam sendoff

"After years of planning and delay, one of the most important projects ever undertaken in the Midwest will finally begin tomorrow," comments Charles G. Houghton, executive director of the Bi-State Development Agency.

"The Mississippi River, for years the lifeblood of the St. Louis area, will continue to play a major role in the growth of the region, thanks to the replacement of Lock and Dam 26 south of Alton. I hope a large crowd will be on hand to witness the start of this historic event."

A formal groundbreaking ceremony signaling the start of construction on replacement Lock and Dam 26 will

begin at 2 p.m. Friday at the dam site along Illinois Route 3, two miles south of Alton. The public is being encouraged to attend. A band concert will begin at 1:15 p.m.

Representatives of the president, Congress, Missouri, Illinois and local leaders will take part in the proceedings. The program will begin with a concert by the Scott Air Force Base Band of Mid-America. Following an invocation, the U.S. Coast Guard will present the colors and there will be brief remarks by dignitaries.

At the conclusion, a signal will be (Continued on Page 3)

County crackdown on under-21 drinks

Spring has begun in the first calendar year since Illinois boosted the minimum drinking age from 19 back to 21, and a countywide crackdown has

been launched by Madison County Sheriff Emil Toffant.

"We want juveniles to realize that the drinking age is 21 and that, if they are caught, they will be arrested and charged," Major Fred Bright said this week.

Acting on numerous complaints by residents in the Chouteau Island area, county sheriff deputies made 30 arrests during the weekend, completing the last of the cases on Monday.

The sheriff's aides said 24 of those

arrested were from Missouri.

Six minors, four boys and two girls, were from Granite City. Charged with possession of alcohol, they were released to their parents on notices to appear in court on a future date.

The Missouri residents posted bonds of basically \$100 each and then were released. Charges against the Chouteau Island visitors were mainly in the categories of trespassing and illegal possession of

'Fast time' Sunday

Its that time again when Quad-Cityans will lose an hour's sleep to initiate the annual summer and fall season of daylight saving time.

Daylight time will become effective officially at 2 a.m. Sunday, but area residents may set their clocks an hour ahead when they retire Saturday night.

Daylight time will remain in effect through the summer and early fall months, providing an extra hour of daylight in the evenings. Clocks will be set back in a return to standard time the fourth Sunday in October.

POSSIBLE MICROWAVE INTERFERENCE is tested for at the rear of the Madison City Hall, one possible location for placement of a microwave antenna to be used to receive TV program transmissions for the proposed, city-owned cable TV service. At the rear of the van, watching a microwave receiver scan the area, are Jeff Cowles, in dark jacket, an engineer for Comsearch, Inc., and Mike Macek, coordinator

of the city burglar alarm and cable TV services. The receiving antenna must be located where nearby microwave transmissions will not affect the incoming TV transmissions. Comsearch tested various locations in the city to determine the best reception area. The city is planning to receive transmissions from the satellite SATCOM I. Related picture on Page 2.

Suit by Venice fireman for pay

By MICK STRANGE
of the Press-Record
Venice First Ward Alderman Phillip Daniels, who is also a volunteer fireman in Venice, has filed suit in the Third Judicial Circuit Court for monies he feels are due him.

Area weather outlook

Mostly sunny today with high in the mid to upper 60s. Increasing cloudiness tonight. Low in mid-40s. Chance of showers Friday, with high about 60. Clearing Saturday. Fair through Monday. Highs 65-70 and lows mostly in the 40s during the period.

The amount in the suit is approximately \$1,700, of which \$200 is money withheld as an alderman and \$1,500 withheld as a volunteer fireman. The city must file an answer by 1:30 p.m. Monday, April 28. Dual service as a fireman and alderman has been cited by city officials in blocking payments to him.

Daniels has asked the court for a jury trial, but the date may not be set for some time, according to City Attorney Larry Hartman.

"Shortly after my election as alderman I had a temporary change in my work schedule which caused me to

New licensing approach

By HARRY BARNES
of the Press-Record

A new city licensing bill to replace one vetoed by Mayor Paul Schuler last month was placed on first reading by the Granite City Council Tuesday night by a vote of 9 to 5.

By placing the measure on first reading instead of giving it final passage during the same session, the aldermen will have two weeks to study the bill, add input to it or make deletions.

The measure was offered to replace the earlier bill introduced in early

March and vetoed by Mayor Schuler on March 25 because of a wave of criticism from business operators and civic leaders who noted the amended licensing law resulted in multiple licenses in different business categories.

One section of the new amendment to the city's business license ordinance ran into opposition from several aldermen because of a clause that would permit the chief of police or other official designated by the mayor to investigate applicants for business licenses with the authority to grant a

license only to persons of "good character."

Alderman Charles Douglas of the (Continued on Page 11)

Soldiers battle river current here, maneuver heavily loaded sections of an improvised bridge

BOAT TESTING HERE will help in determining which of two ribbon bridge erecting crafts will be used by the U.S. Army. Two British-made boats, at far left and right, maneuver five sections of an Army ribbon bridge on the Mississippi River Wednesday morning at the southern tip of Gaberiet Island. The portion of bridge being used supports a 62-ton M-60 tank modified for the testing. The British boat model is being competitively tested and evaluated with an American boat made by the Aluminum Company of America (Alcoa).

Carolyn Ozanich president scholar

A new class of Presidential Scholars has been named at Southern Illinois University at Edwardsville, including Lydia Lane, a senior at Granite City High School South.

Acting President Earl Lazerson announced the names of 20 persons who are the 1980 winners of the four-year scholarships. The president also announced the names of six alternates, including Granite City High School North senior Donna

M. Jones, 835 N. Thorngate. Selected on the basis of their previous academic work and their special talents and abilities, the award winners will receive monetary assistance, special academic status and individualized educational opportunities.

They will automatically become members of the university's Association of Scholars, an organization of faculty members and students "devoted to scholarly activities and

enhancement of the intellectual and cultural life of the university."

The recipients may enroll at the university as early as the summer quarter, and the scholars will be welcomed to the campus at a get-acquainted luncheon with their mentors and university officials on May 19 in the University Center.

Ik-Ju-Kang, professor of physics and chairman of the Presidential Scholars Committee, said the scholars also are expected to receive special recognition at their high school commencement programs.

Finalists in the competition were selected from 42 semifinalists who visited the campus in April for interviews with the committee. Professor Kang said there was an increase in the number of applicants this

year, more than 100 being considered.

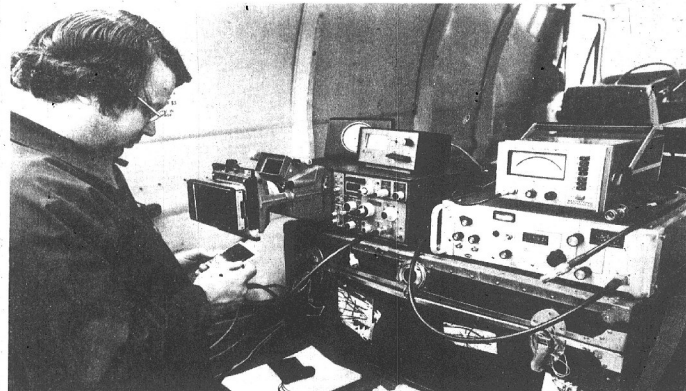

The first group of 20 Presidential Scholars was named at SIUE in 1978. A second group of 20 was selected last year, and Prof. Kang said the university is "very pleased" with the performance of the 40 scholars.

"They are doing exceedingly well," he said. The program is underwritten by contributions to the SIUE Foundation.

DRIVER ARRESTED

Roy Clements, 69, of 2915 Oregon Ave., was charged with driving while intoxicated after his auto allegedly struck the parked car of William Laub, 3278 Westchester Drive, early this week. After the collision, Clements is said to have fallen asleep at the wheel. Police alleged he was unable to speak, understand directions or stand without help.

ON-SITE TESTING. Jeff Cowles, an engineer for Comsearch Inc., Falls Church, Va., evaluates an instant photo of a preliminary scan of microwave transmissions in the area surrounding the city of Madison. Comsearch was hired by the city to determine the best location for installation of a large dish antenna which will receive TV program transmissions from the satellite SATCOM 1 to be transmitted to area

homes subscribing to the proposed city-owned cable TV service. Ground-based microwave transmissions could interfere with the reception of the TV signals. Testing is performed to determine where the least interference is experienced. A call for bids for various portions of the cable TV program is expected in early May.

Sues GC Steel

William Butler, an iron worker, has filed a lawsuit in Madison County Circuit Court against the Granite City Steel division of National Steel Corp., Andco, Inc., and Raymond Isom, Inc., claiming he was injured while working on a blast furnace early this year. He slipped on a walkway while carrying an extension handle and fell.

The suit seeks \$50,000 each from Granite City Steel, Andco, which was the contractor for the work, and Isom, who was construction supervisor for the steel company.

Trash collection

(Continued from Page 1)

operate their own pickup systems considerably cheaper than the cost of the lowest bid submitted for a new three-year contract starting with the 1980-81 year.

The city's present garbage contract which is costing \$438,000 for the 1979-80 year, expires June 30. The city must arrange for garbage pickups by that time.

However, four bids opened by the city in late March for a new three-year contract resulted in a low bid of \$798,000 for the first year with four percent increases in each of the two successive years.

The present contract held by Milam-East Division of SCA Services, also bid, but its offer was \$826,225 for the first year with 12 percent increases in each of the two following years.

Prospects for growing financial problems during the approaching 1980-81 fiscal year, including possible cutbacks in the receipt of federal revenue sharing funds and a potential deficit because of payroll increases, have caused the council to reject all of the bids received in late March.

This poses the question as to what the city can do about garbage and trash pickups after the present contract expires. Whatever the city decides, the costs must be incorporated in the new

city budget which the finance committee is now preparing.

During the meeting Tuesday night which began at 4 p.m., the council scheduled the opening of the regular council session, Nolan told the aldermen that Belleville operates its own pickup service at a total cost of \$411,000 of which about \$315,000 is for salaries for 20 men.

Alton, Nolan said, spends \$501,000 per year and spends approximately the same amount as Belleville for salaries.

Nolan estimated that Granite City could start first-year operations of its own for about \$612,000 which would include \$281,000 for salaries, \$228,000 for first-year capital outlay in the purchase of trucks and other equipment, about \$67,000 in operating expenses and \$36,000 for landfill usage.

Finance Chairman Paul R. Bowler said he thinks there are "A lot of things we could do for that million dollars, in referring to the first year cost of bidding contractors."

Nolan said he had made only a cursory check of costs by other cities and that it would take more time to make a complete analysis upon which Granite City aldermen could base their judgment of starting a city-operated pickup system.

The availability and costs of landfill

usage would be an important part of such a survey, several aldermen noted.

Nolan was instructed to make a more thorough investigation of costs to report back at the council's May 6 meeting.

The disposal of sludge from the sewage treatment plant is one of the major problems involved in a new garbage collection contract by outside operators. McMillan said there "is a lot" of sludge that has to be removed and taken to a landfill.

Hauling of sludge was started more than a year ago after the cost became too great to operate the plant's incinerators, originally designed to dispose of sludge.

McMillan noted that the cost would be even greater now as it would take about 500 gallons of fuel oil per ton to burn the sludge, and that oil now is about 90 cents a gallon and expected to increase in cost.

McMillan also told the aldermen that EPA regulations no longer permit the city to haul sludge to a ponding storage site on the plant grounds and then remove it later to a landfill. That practice had been followed to avoid using landfill services after 5 p.m. on weekdays, the involving overtime for landfill workers.

March of Dimes walkathon set Sunday, May 4

The annual March of Dimes Walkathon will be held Sunday, May 4, and will begin at 1 p.m. on the grounds of the former Granite City Army Depot, now the St. Louis Area Support Center.

Full cooperation from the support center will be extended to insure a successful event, according to support center commander, Major John W. Browne Jr.

Serving as March of Dimes chairman is Arthur Menendez, principal of Mitchell School, with John Haug and Alfred Fuller assisting.

Don Kopp, principal of Nameoki School, will coordinate registration at the walk, starting at 12:30 p.m. on May 4.

Lewis and Clark CB Club will provide safety, emergency patrol and communication for the walkathon.

The first one-hundred persons to send in completed forms and money will receive two reserved seats tickets to a Cardinal baseball game, it was noted.

The top walker will receive 10-speed bicycle. Second and third place walkers will receive two tickets to Six Flags Amusement Park. All participants will be given a pin.

More information may be obtained by calling Menendez at 877-2991 or 931-0057.

The state will not charge the city employees participating in the in-house training seminars, the agreement states.

The city council unanimously approved the agreement on the request of Alderman Pat Schuman, chairman of the city's air pollution control committee.

The state will not charge the city employees participating in the in-house training seminars, the agreement states.

The agreement is to be submitted with the city's grant application to the federal EPA.

Lock, dam

(Continued from Page 1)

The current mid-range projection of river traffic predicts a growth rate of two percent per year. This means the new lock would reach its capacity in 1989.

Plans allow for the construction of a second 1,200-foot lock in the future if a need for greater locking capacity arises.

Construction of the replacement lock and dam is a U.S. Army Corps of Engineers project. It will be one of the largest tasks ever undertaken by the Army Corps of Engineers and will be built in three phases, taking approximately ten years to complete.

The new lock is expected to be operational in about eight years. Current estimated cost of the project is \$540 million (in 1979 dollars).

Other features of the project include a visitors' center on the Illinois side and a recreational park and wildlife refuge on the Missouri side of the dam, in the vicinity of Ellis Island.

The Bern Highway (Illinois Route 3) will be closed to through traffic between Alton and Wood River from 12 noon to 3 p.m. to allow for guest and public parking. Through traffic will be diverted through East Alton.

Shuttle buses will be provided from the parking area to the ceremony site along the Wood River levee and back at the conclusion of the program.

The Bi-State Development Agency is hosting the ceremony and has worked closely with numerous local, state and federal agencies in its preparation. The agency functions as the coordinating agency for the seven port districts and also private industry comprising the Port of Metropolitan St. Louis, the largest inland port in the United States.

Bi-State's role is to coordinate activities of the port district, carry out technical, planning and engineering studies, enhance port development, expedite state and federal agency contacts relating to river development.

JEWELRY IS STOLEN

Two diamond necklaces, a cameo necklace, a man's wristwatch and a wood antique kitchen clock were stolen during a burglary at the home of Herman Delaioye, 2693 Washington Ave., early this week. Entry was gained by throwing a large rock through a window in a door. Both bedrooms were ransacked and the rear door was left open when the burglars left.

Air board, EPA pact OK'd

A new one-year working agreement between the Granite City Air Pollution Control Board and the Illinois Environmental Protection Agency, which attempts to avoid duplicate inspections of industries in and near Granite City, was passed by the City Council Tuesday night.

The agreement becomes effective May 1.

It gives the local air board the primary responsibility to initiate enforcement actions against non-major pollution sources while the IEPA retains the responsibility for actions against major sources of pollution.

However, the agreement contains the language that "Nothing in the preceding... shall be interpreted as preventing the agency which is not the primary agency from initiating an enforcement action."

The agreement also shares the responsibility for surveillance and testing of suspected air pollution sources, although the city retains the right to investigate and follow through on all complaints received by the city air pollution control department, if it desires.

The IEPA will inform the local agency of complaints received by the state agency and the state will have the right on major pollution episodes or sources to either be the primary agency for investigating or initiating action or may refer complaints to the Granite City Air Pollution Control Board. The judgment will be made by the IEPA's regional manager.

"It is understood and agreed that the inspection and investigations (by the city) are intended to complement similar activities on the part of IEPA, and no unnecessary duplication of

effort is to be avoided by consultation between the two agencies in scheduling of activities," according to the agreement.

It also specifies that the state and city "shall cooperate and coordinate their efforts in the conduct of special surveillance activities such as special investigations of serious air pollution incidents."

In the event of a serious spill of hazardous materials or an emergency threatening human lives, the two agencies will cooperate, but the IEPA will be responsible for providing on-scene assistance. City technicians and engineers will participate in state training seminars to be qualified to aid the state in visual surveillance, operating new types of equipment and responding to emergencies.

The state will not charge the city employees participating in the in-house training seminars, the agreement states.

The city council unanimously approved the agreement on the request of Alderman Pat Schuman, chairman of the city's air pollution control committee.

The state will not charge the city employees participating in the in-house training seminars, the agreement states.

The agreement is to be submitted with the city's grant application to the federal EPA.

During the fiscal year, an agreement will be worked out for the IEPA to assume full responsibility for operating and maintaining the ozone and sulphur dioxide monitors at the Y.M.C.A. The move is part of a state-wide effort to put all of the monitors under state control for more accurate

Monthly reports of the data gathered by the monitoring equipment will be sent to the IEPA and the IEPA will send periodic computer printouts to the city to confirm the validity of the data, according to the agreement.

Obituaries

Floyd Davis

Floyd A. Davis, 50, of Rural Route Six, Edwardsville, died at 2:50 p.m. Tuesday, April 22, at St. Joseph Hospital, Kirkwood, Mo.

He was born in St. Louis County, Mo., and had resided in this area for nine years.

Mr. Davis was employed as manager of Franklin Union Store in Fairview Heights.

Survivors include his wife, Mrs. Teresa (Wallhauser) Davis, a lifelong resident of Granite City; a daughter, Marie; three brothers, Clifford Davis, Otto, Mo., Harold Davis, Granite City, and Dale Davis of Edwardsville; his mother, Mrs. Violet Davis of St. Louis.

Funeral services will be held at 10:30 a.m. Friday, April 25, at Kutis Funeral Home Chapel, 10151 Gravois, Affton, Mo. Burial will be in National Cemetery, Jefferson Barracks, Mo.

Orville Deltour

Orville Deltour, 71, of Granite City, a lifelong resident of the area, died at 12 a.m. today, April 24, at Colonial Haven Nursing Home, where he had been a patient for two days. He had been ill for nine months.

Mr. Deltour had worked as a building inspector for the City of Granite City for eight years prior to his retirement in 1972.

He was a member of Nameoki United Methodist Church and Masonic Lodge 855. He also was a Navy veteran of World War II.

Survivors include his wife, Mrs. Harriet (Moore) Deltour; one son, Roger Deltour, Granite City; a brother, Merle Deltour, Indianapolis, Ind.; four grandchildren and one great-grandchild.

There will be graveside services at 9:45 a.m. Friday, April 25, at Sunset Hill Cemetery, Edwardsville Township. Bob Thomas Memorial Mortuary, 2205 Pontoon Road is in charge of arrangements. There will be no visitation.

Lucy Grizzle

Mrs. Lucy Catherine (Coffman) Grizzle, 86, of Colonial Haven Nursing Home, died at 12 noon Monday, April 21, at St. Elizabeth Medical Center.

She had been ill for 10 years and was hospitalized for two weeks.

A native of Carrollton, Ill., Mrs. Grizzle had resided in Kane, Ill., prior to moving to Granite City 57 years ago.

Mrs. Grizzle was of the Baptist faith. Survivors include two daughters, Mrs. Lester (Lucy) Ambuhl, Chesterfield, Mo., and Mrs. Ralph (Elsie Helen) Stegelmeyer, Granite City; one son, John D. Grizzle, Alton; a brother, Lawrence Coffman, Edwardsville; seven grandchildren and eight great-grandchildren.

Funeral services were conducted at 1 p.m. Wednesday, April 23, in Bob Thomas Memorial Mortuary Chapel, 2205 Pontoon Road, with the Rev. W. L. Shovers officiating. Burial was in Valley View Cemetery, Edwardsville.

Opal Halbrook

Mrs. Opal (Watkins) Halbrook, 70, of 2401 E. 25th St., Ill for two years, died at her home Monday, April 21. She was pronounced dead by William Sternberg, Madison County deputy coroner at 11:10 p.m.

Mrs. Halbrook was a member of the First Church of the Nazarene.

She was born in Sikeston, Mo., and had resided in this area for 40 years.

Mrs. Halbrook had been employed at A. O. Smith Corp. for 10 years as a cashier before she retired in 1975.

Her husband, Connie Halbrook, died Oct. 6, 1963.

Survivors include three sons, Russell Halbrook, Birmingham, Mich., Ross Halbrook, Granite City, and Donald Halbrook, San Francisco, Calif.; three sisters, Mrs. Frank Rex, Mrs. Ethel Hedricks and Mrs. Charles (Hettie) Lindsey, all of Flint, Mich.; 14 grandchildren and three great-grandchildren.

Funeral services were held at 10 a.m. today, April 24, in the chapel of Davis Funeral Home, 21st Street and Cleveland Boulevard, with the Rev. William Roddy officiating. Burial was in Sunset Hill Cemetery, Edwardsville Township.

Roger K. Hill

Roger K. Hill, 32, of Collinsville, a member of the Iron Workers Local 392, Washington Park, was fatally injured on a job site of the Baldwin Power House near Chester, Ill., Wednesday.

According to information received by the family he fell while working and was pronounced dead upon arrival at St. Cecilia Hospital, Redbud, Ill., at 3:10 p.m. April 23.

Mr. Hill was born in Effingham, Ill. Survivors include his wife, Mrs. Nancy (Wallace) Hill; two sons at home, Roger K. Hill Jr. and James S. Hill; his parents, Mr. and Mrs. Robert B. (Evelyn Slifer) Hill Sr., Collinsville; four brothers, Robert B. Hill Jr. and Timothy L. Hill, both of Collinsville, James W. Hill, Springfield, Ill., and Joseph J. Hill, Chatham, Ill.

Funeral services will be held at 11 a.m. Saturday, April 26, at Laughlin Funeral Home Chapel, 205 Edwardsville Road, Troy. Burial will be in the Frieden Cemetery, Troy. Friends may call after 4 p.m. Friday.

Henry Kuhlman

Henry Kuhlman of Wood River, Ill., died today, April 24, in Wood River.

Arrangements are pending at Bob Thomas Memorial Mortuary, 2205 Pontoon Road. More information will be available later by calling 931-2121.

Louis Lombardi

Louis Lombardi, 92, of the Elder Care Nursing Home, Edwardsville, a 65-year resident of Granite City, died at 2 a.m. Wednesday, April 23, at St. Elizabeth Medical Center, where he had been a patient for two days.

He was a member of St. Margaret Mary Roman Catholic Church.

Mr. Lombardi was born in Italy. While a resident here he was employed as a meter repairman for Illinois Power Co., for 20 years. He retired 27 years ago.

Survivors include his wife, Mrs. Louise (Bello) Lombardi; three sons, Michael J. Lombardi, Arcoline "Yock" Lombardi and Nick Lombardi, all of Granite City; two daughters, Mrs. George (Ann) Medberry, Edwardsville, and Mrs. Millie Chomko, Granite City; one sister, Mrs. Emelia Daniel, Savignano, Italy; five brothers, Arthur Lombardi, Granite City, Ermino Lombardi, Staten Island, N.Y., Settimo Lombardi, Albany, N.Y., and Arcolino Lombardi, all of Savignano, Italy; 10 grandchildren, 15 great-grandchildren and one great-great-grandchild.

Another son, Adolph Lombardi, died in 1956.

Funeral services will be at 9 a.m. Saturday, April 26, from Lahey Funeral Home, 501 Madison Ave., Madison, to St. Margaret Mary Roman Catholic Church, 1900 St. Clair Ave., for 9:30 a.m. mass. Father Edward Groesch will officiate. Burial will be in the Valley View Cemetery, Edwardsville. Visitation will begin at 7 p.m. today and recitation of the Rosary is to be at 7 p.m. Friday.

Oma Marsh

Mrs. Oma Belle (Meredith) Marsh, 74, of 1626 Maple St., a lifelong resident of the Quad-Cities, died at 9:26 a.m. Tuesday, April 22, at St. Elizabeth Medical Center.

She had been hospitalized for one week.

Mrs. Marsh was born in East St. Louis. She was a former member of the Landow Baptist Church.

Her husband, Roy Marsh, died in December 1979.

Survivors include one daughter, Mrs. Gary (Dixie) Johnson, Granite City; a son, Leroy W. Marsh, Edwardsville; and five grandchildren.

Funeral services will be held at 1 p.m. today, April 24, at Kutis Funeral Home Chapel, 657 N. 57th St., Belleville. Burial will be in the Lakeview Memorial Gardens Cemetery, Belleville.

Louis Ruder

Louis A. Ruder, 68, of 68 Glenwood Drive, Glen Carbon, formerly of North Venice, was fatally injured when a road grader he was driving overturned and fell on him near Ironton, Mo., Monday evening, April 21.

According to officials, Mr. Ruder owns property near Ironton and was apparently working there when the accident took place. He was pronounced dead at the scene at 5:30 p.m. by a deputy coroner. Other details were not available.

Mr. Ruder had resided in the Quad-Cities for many years and for the last 36

years lived in the Glen Carbon area. He was employed as a wood pattern maker for 44 years at General Steel Industries and was one of the developers of Glenwood Estates.

Mr. Ruder and his wife, the former Margaret Keller, were married May 11, 1935, in Granite City.

Survivors include his wife, Mrs. Ruder; four sons, Ray L. Ruder, Collinsville, Robert P. Ruder, Millstadt, Richard C. Ruder, Lake Wappapello, Mo., and William T. Ruder, Glen Carbon; one daughter, Mrs. Gus (Margie) Oberkell, Festus, Mo.; a brother, Edward Ruder, Kansas City, Kan.; and seven grandchildren.

Funeral services were held at 10 a.m. today, April 24, at St. Cecilia Roman Catholic Church, Glen Carbon. Burial was in Calvary Cemetery, Edwardsville Township. Arrangements were by Weber Funeral Home, 304 N. Main St., Edwardsville.

Agnes Schwertmann

Mrs. Agnes J. (Macura) Schwertmann, 84, Edwardsville, a life Center, formerly of Granite City, died at 8:05 a.m. today, April 24, at St. Elizabeth Medical Center.

A native of Yugoslavia, she had resided in this area for many years.

Her husband, Joseph Schwertmann, died March 28, 1977.

Survivors include four sons, Joseph Schwertmann, Lemay, Mo., Charles, Frank and James Schwertmann, all of Granite City; two daughters, Mrs. Kenneth (Zorie) Motes and Mrs. James (Agnes) Rauh, both of Granite City, and grandchildren.

Funeral arrangements are being completed at Sedlack Funeral Home, 615 Madison Ave., Madison. Details may be obtained by calling 876-1615.

Henry P. Scott

Henry Paul Scott Sr., 77, of 2208 Denver St., a retired welder, died at 5:20 a.m. Wednesday, April 23, at St. Elizabeth Medical Center.

He had been a patient at the hospital for 10 days.

Mr. Scott had worked as a welder for 35 years at American Steel Foundries, until he retired in 1964.

He was a member of Briarcliff Pentecostal Church.

Born in Tuscomb, Mo., Mr. Scott had resided in Granite City for 55 years.

Survivors include his wife, Mrs. Ruby Scott; five daughters, Mrs. Wendell (Irene) Corey and Mrs. James (Wanda) Corey, both of Granite City, Mrs. Roy (Juanita) Harrison and Mrs. Marie Medeiros both of Fremont, Calif., and Mrs. Nelson (Norma) Newberry of Walsola, Mo.; one son, Henry Paul Scott Jr., Collinsville; two sisters, Mrs. Stella Qualls, Chicago and Mrs. Lou Burnett, Owensville, Mo.; 22 grandchildren, and 24 great-grandchildren.

Friends may call now at Bob Thomas Memorial Mortuary, 2205 Pontoon Road. Funeral services are planned for 1 p.m. Friday, April 25, at Briarcliff Pentecostal Church, 120 West Pontoon Road, with the Rev. Paul Bower officiating. Burial will be in Lakeview Memorial Gardens, Belleville.

Expand veterans' benefits

An estimated 30,000 World War I and Mexican Border campaign veterans in Illinois are now eligible for outpatient care (except dental treatment) at Veterans Administration clinics without regard to whether the medical problem is related to their military service.

Legislation signed in December enabled these veterans not needing bed care to avoid hospitalization if they can be treated effectively as outpatients. Veterans of that period already had the right to treatment for non-service connected conditions as bed patients in VA medical centers.

There are 394,000 veterans who served during the periods to which the new provision applies.

The Veterans Health Programs Extension and Improvement Act of 1979 also expands the eligibility of veterans served by VA outpatient clinics to receive government-paid emergency care at non-VA hospitals.

The law gives the VA authority to contract for such care when he eligible veteran patient is at a clinic where there is no VA medical center and there is a serious threat to his life or health. The VA could pay for this kind of care previously in much more limited circumstances involving only veterans with service-connected disabilities.

Other provisions of the 1979 act are:

—Eligibility for care under VA's Civilian Health and Medical Program, called CHAMPVA, was extended to the spouse or child of individuals who died on active duty who is not eligible for Medicare or the military CHAMPUS program.

—Medical benefits for up to two years, or until age 23, were extended to children with illness or injury which precludes school attendance.

—The VA was authorized to provide certain home health services to World War I and Mexican Border veterans receiving housebound aid and attendance benefits from the agency.

—Before the VA is authorized to pay more than \$500 to a non-Veteran for a veteran's dental care, in any 12-month period, a VA dentist must first determine that the care is necessary.

Veterans having questions about the expanded benefits under the new law may contact the nearest VA medical center or regional office or one of the national veterans service organization in the local community.

Concentrated traffic law enforcement

In an effort to further reduce the number of traffic accidents and fatalities, Illinois State Police will again utilize the Concentrated Traffic Enforcement Program.

CTEP was first initiated during the 1978 fiscal year and again was utilized during 1979. Due to the success of this program, the State Police will use the program again during the months of May and June 1980.

The federally-funded program uses off-duty troopers to patrol selected high-accident highways during those hours and days of high accident risk. Included is Interstate 270 here.

An analysis of Illinois traffic accident has indicated that certain areas had a higher accident rate, and that the leading causes of such accidents are driving under the influence of alcohol, speeding, improper passing, following too closely, and failing to yield the right-of-way.

The goal is to reduce the number and severity of traffic mishaps through enforcement action and high police visibility.

AUTHENTIC MEXICAN CUISINE. Mayor Paul Schuler, center, cuts a ribbon Wednesday morning officially opening Casa Gonzalez, a restaurant offering authentic Mexican dishes in buffet to American diners. The new restaurant features a buffet each Sunday. From left in the front row are: Beverly Gibbs and Lynn Pyatt, employees; Mary Dore, manager; Joe Morrison, owner; Mayor Schuler; Shirley Adams, co-chairman of the Tri-Cities Area Chamber of Commerce Ambassadors; Barbara Wyatt, a Chamber Ambassador, and

Eugene Aiasi, Chamber publicity chairman. In the back row from the left are: Fred McCollegan, owner of the Lion's Mane; Chief of Police Ronald Veizer; Paul Sodko, of the Chamber board; Jim Livingston, executive vice-president of the Chamber, and Granite City Postmaster Jack Wilkins. The restaurant is open Monday through Thursday from 11 a.m. to 10:30 p.m., Friday and Saturday from 11 a.m. to 12:30 a.m. and Sunday from 4 to 10:30 p.m.

(Press-Record Photo)

Park district plans St. Louis house tour

The Granite City Park District is planning a trip to the Central West End of St. Louis for their 8th Annual House Tour. The bus trip is planned Saturday, May 10. A bus will leave the Wilson Park Ice Rink at 10 a.m. and return at approximately 3 p.m.

The House Tour is co-chaired by Mrs. Thomas Rafferty and Mrs. Bud Wilkinson and features a select variety of lifestyles available to residents of the Central West End, including majestic old mansions, glamorous new and remodeled condominiums, unique townhouses and apartments, a spokesman said.

The homes to be featured include: Karen Foss

(Channel 5 anchorwoman), Dr. Nevill and Diane Grant, Herb Balaban (Balaban's Cafe) condominium, Carrick and Katy Hill's home, Attorney David B. Lucks home, Henry and Cecil Lowe's St. Regis town apartment, James Robinson and Richard Baumeyer's townhouse, Thomas Scattizzi's "Movie 'o'la" influenced condominium, and Jack and Ann Straw's three-story Tudor.

Another highlight will be a first hand inspection of the Presidential Suite in the Chase Park Plaza Hotel where Jimmy, Rosalyn and Amy Carter will stay May 2 and 3 while on the St. Louis campaign trail, and two of Pantheon's display models on DeBaliviere Place.

Anyone wishing to stop for

lunch along the tour may do so as there will be many eating sites available on Euclid and Maryland Plaza. The cost of the ticket and the bus transportation is \$10.

Reservations are being made at the Wilson Park office and all money must be paid at the time they are made. Forty-six tickets are available.

SECOND THEFT

For the second time in a month, a basketball hoop mounted above the garage doors at the home of John Pickeral, 2352 O'Hare Ave., was broken from the backboard and stolen. It was reported at 7 p.m. Monday.

Geological field trip

A field trip to the Equality region of southern Illinois on Saturday will begin the spring season of geological science field trips conducted by the Illinois State Geological Survey (217-344-1481). This trip also will observe the 50th anniversary of the Survey's field trip program.

The trip area lies at the northern edge of the rugged, scenic Shawnee Hills of southeastern Illinois. A major zone of crustal disturbance disrupts the bedrock strata and constitutes a portion of the day's study.

Large bedrock structures making the area geologically interesting are the Shawneetown Fault Zone and the Eagle Valley Syncline.

Massive Pennsylvanian aged sandstone rims the syncline and form high bluffs into which such features as Old Stone Face, Pounds Hollow, and the Garden of

the Gods have been carved by erosion.

Mississippian limestone more than 300 million years old affords excellent fossil collecting, a spokesman said.

Persons interested in participating are to meet at Equality High School in the north part of town between 8 and 8:15 a.m. Saturday for registration, which consists of signing an indemnity waiver form.

Transportation must be arranged by participants. They should also bring lunches and wear durable clothing and shoes.

The trip will be held even if it rains. Vehicles should begin the trip with a full tank of fuel.

Suit for pay

(Continued from Page 1)

miss four meetings that the council did not pay me for.

"The Illinois statutes allow for payment when there is a temporary change in an alderman's work schedule," Daniels maintains.

The funds Daniels says are due him date back to the period of December 1978 through December 1979 and are for fire calls and weekend duty with the volunteer fire department.

City Attorney Hartman said, "I feel this is merely a question of law, as no one on the council is questioning that Alderman Daniels did answer the fire

calls and did work on the weekends the fire department records indicate.

"The question is can he legally be paid as a fireman and an alderman," Hartman said.

After a series of deadlocked meetings, Daniels, by a flip of a coin in an Edwardsville courtroom, became acting mayor of Venice in February 1979.

While he was acting mayor Daniels did not accept his salary as alderman, but was paid as acting mayor.

He served until the April 17, 1979, election, when Mayor Tyrone Echols

was elected and Daniels was elected as alderman.

Daniels asserts that payments as alderman and as a volunteer fireman are not only legal, but have been an accepted practice in Venice for years, without being questioned, until he became acting mayor.

It was noted by Daniels that former Alderman Harry Buente, who has moved from Venice, was both alderman and fireman for over 25 years and no one challenged his fireman pay.

Daniels is being represented by Attorney James S. Reeves of Alton.

Drinking

(Continued from Page 1)

alcohol as minors, plus some minor acts of vandalism.

Most of the arrests were made at 10:30 p.m. Friday, at 2 a.m. Saturday, and at 6 p.m. Saturday.

A spokesman for the sheriff's department said, "The word will soon get around Missouri that Illinois has changed the legal drinking age back to 21. Many of these young people alleged they did not know about the age change."

The age for consuming beer and wine on Jan. 1, 1980, was raised from 19 to 21 in Illinois. The Missouri drinking age is also 21.

Through the news media, Sheriff Toffant is issuing a warning to Missourians as well as Illinoisans about the drinking age. He emphasizes there will be full enforcement of such laws on the Illinois side of the Mississippi River.

Bright adds that "whatever

reputation the Chouteau Island area has had as a place for drinking parties with little interference by police or deputies, we intend to change."

"We want people to know that when they are arrested, their vehicles may be towed and their parents will have to pay to get them back."

Toffant sums up, "Illinois welcomes guests from Missouri, but those persons entering the state to violate its laws can expect strict and impartial enforcement of the laws."

Most aldermen reject city worker layoffs

By HARRY BARNES
of the Press-Record

A proposal that Granite City lay off 24 city employees at a savings of \$70,626 in salaries and combine several city departments as means of avoiding an operating deficit during the city's 1980-81 fiscal year met with disfavor by most aldermen Tuesday night.

But Finance Committee Chairman Paul R. Bowler said he plans to give the aldermen a chance to study the proposal and then to again ask for commitments toward such a cutback program.

The proposed action was taken during a half-hour caucus session prior to the regular City Council meeting

and included a discussion in which most aldermen said they would not favor such a plan.

Bowler told the Press-Record after the caucus that "I don't know what else we can do at this point. I'm convinced that we are going to lose the federal revenue sharing money, or at least a big part of it."

Some aldermen agreed that Granite City will receive a tax increase next year if the city fails to find a deficit in operating funds.

Bowler said that unless the city acts to cut back on some expenditures during the fiscal year which will begin May 1, he is convinced Granite City will face a sizable deficit.

The Finance Committee which includes Aldermen Fred Schuman Jr. and Warren Deatour as members, told the aldermen that

on the basis of anticipated revenue during the new year, along with a salary increase of 8 percent, the city will face a \$363,701 deficit.

The projected layoffs of 24 city employees would result in a savings of \$70,626 which would offset the deficit.

However, the committee said, these figures do not resolve a 20 percent increase in health insurance or funds for a new garbage collection contract.

In view of these prospects, the finance committee asked council members to study and provide opinions concerning the proposed layoffs of three workers at the sewage treatment plant at a savings of \$53,950; three emergency medical technicians, \$42,618; three street department workers, \$54,727; three policemen, \$53,353; three firemen,

\$58,401; four employees of the inspection department, \$68,964; one employee of the treasurer's office, \$10,000, and four employees of the air pollution control department, \$26,000 or 60 percent of the department's budget of \$44,356.

In addition, the finance committee's suggestions included the consolidation of the air pollution department with the sewage treatment plant with Terry McMillan, plant superintendent, as head of the combined department.

It also recommended the establishment of a Public Works Department to include City Engineer Monroe Brewer, Traffic Engineer Edward Schulze and one inspector, with both the inspection and air pollution departments to share the services of Bill Dallas at the city office.

Stack salary issue hits another snag

Because the May 1 deadline for settling a controversial issue over the annual salary for Assistant City Inspector James Stack is near, the Granite City Council tried again Tuesday night.

But again the council came up with another delay.

This time, Ordinance Chairman Paul Fisk presented an ordinance that had been placed on his desk with other documents, and which was designed to set Stack's salary. But when he came to that section, the line for the salary amount was blank.

"I don't see how we can

pass this. It doesn't say anything," Fisk said. He noted that he had assumed the finance committee was to provide a figure, but members of that committee remarked they had had no input from any of the other aldermen.

Alderman Roy Poulos said he didn't believe Stack's salary should be as high as that of City Inspector Emerald Dawes for whom Stack works.

A motion was made to refer the ordinance back to the finance committee, but this motion was withdrawn in favor of a decision to place the figure of \$16,030 per year in the ordinance. That salary is the same as the city's other assistant city inspector, Pete Ferro, and lower than Dawes' salary which is \$17,854 per year.

With the figure inserted in the ordinance, Fisk moved to suspend the rules and place the ordinance on final passage. The suspension failed, however, on a roll call vote of 9 to 5 with all council members present. Approval of a suspension motion requires a minimum of ten votes.

A motion then was made to refer the ordinance to the sanitation committee, but Alderman Sam Whitmer, chairman, said he would not act on it and the motion also lost.

Another motion to refer the matter to the street and alley committee was made and rejected by a vote of eight to six.

At that point, Fisk moved that the ordinance be placed on final reading. Although six aldermen cast negative votes on that proposal, the

motion carried 8 to six.

The dispute over Stack's salary results from council action several months ago in which the aldermen changed Stack's working status from the title of assistant street superintendent to assistant city inspector in the sanitation department.

As assistant street superintendent, Stack was and has been receiving \$18,631.

After Stack became an assistant city inspector, criticism developed because his salary, which was not changed along with his work status, was more than the \$17,854 per year paid to Dawes.

If the ordinance is given final approval it will represent a salary cut for Stack of \$2,601 per year.

Mitchell nan is charged

Robert P. Cuvr, 35, of 157 Troeckler Lane, Mitchell, was arrested early this week at Willow and Wilson avenues and has been charged with two counts of criminal damage to property in state complaints.

It is alleged he threw a flower pot through the living room window at the home of Connie Stroder, 158 Cottage Ave., breaking the window and storm window Sunday evening.

He also allegedly threw a plant through the front window and storm window at the home of Judy Gregory, 207 Wilson Ave., the same evening.

Portell defends investigation

Responding to allegations by some Granite City Street Department employees that Street Superintendent Lionel Portell is accusing them of thefts and is damaging the morale of the department, Portell explained Tuesday that he is having the police investigate recent thefts in the department to clear the names of those not involved. "We have some real good people on this department. They are the people that I am trying to exonerate. "If there are some bad ones, I want them caught. If none of them are bad, I want that understood," Portell said.

"From the evidence we reviewed with the police, it looked like there could have

been someone on the department who knew something about this and we are trying to clear the department as a whole. If I am stepping on toes, I am sorry, but it will not stop the investigation," the street superintendent stated.

Joe Crider, shop steward for Teamsters Local 252, which covers most of the street department employees, wrote an open letter to Portell, published in the April 17 Press-Record, which accused Portell of harming the morale and reputations of street department employees by asking the police to question them.

Chief of Police Ronald J. Veizer confirmed that a police investigation is un-

derway into a missing \$1,000 air compressor and every employee of the street department was scheduled to be interviewed.

Responding to the letter, signed by Crider, Portell said he did not feel Crider wrote the letter, at least not without input from someone else. "I just do not feel he wrote that letter by himself," Portell said. He declined to comment further on the matter.

The street superintendent said he is in the process of asking the City Council for money to "beef up our security around here. We may step on some toes, but that will have to be," he added.

Portell noted that Crider's

letter mentioned equipment taken from the sewer televising trailer as an example, which later was found on street department property as an example of a case in which employees were erroneously accused of theft.

Portell responded, "I never accused anyone of taking the equipment from the TV trailer. I was completely aware of that piece of equipment being taken off of one in my office made a complaint about that being stolen, he contended.

If that theft was reported to the police, he said, it was "outside interference with departmental matters," he said.

However, some hand tools were taken from the trailer, which led to the trailer being

locked up when not in use, he said.

"We have tried to tighten the security on those trailers, but since then, the trailers have been vandalized on the outside in unsuccessful attempts to break into them.

"I do not know why. There is nothing inside of any great value to any individual," Portell concluded.

Stream clean-up

Governor James R. Thompson has proclaimed May as "Clean Streams Month," marking the fourth consecutive year attention will be focused on pollution of Illinois rivers and streams.

The Illinois Department of Conservation and the Illinois Environmental Protection Agency will co-sponsor activities during May urging citizens and local groups to get involved with stream clean-ups and community workshops on water pollution.

"Clean Streams Month" is intended to gain better public understanding of the aquatic environment that supports fish and wildlife in Illinois, while offering an

opportunity for citizens to donate time and energy in clean-up activities.

"We strongly urge citizen participation," said Robert Hagele, project coordinator. He said the project has received support in the past from students, civic groups, environmental organizations, scouts, 4-H and sportsmen's clubs.

For speakers or informational materials, Hagele can be reached at 345-6220 or 117 W. Main St., Collinsville.

Law Day emphasis on rights and duties

The 23rd annual Law Day will be observed throughout the nation the first week of May. Established by Congress and presidential proclamation, May 1 has been set aside each year since 1958 "to foster respect for law and understanding of its essential role in the life of every citizen in the United States."

Primary purpose of the observance is to emphasize

the values of living under a system of laws and independent courts, protecting individual freedom and making possible a free society.

The Illinois State Bar Association describes the occasion as a citizen outreach endeavor to inform the public how the law and the U.S. legal system operate, and to examine how the law can better serve all people. Theme of Law Day '80 is "Law and Lawyers—Working for You." It was chosen to give representatives of the legal profession an opportunity to increase public understanding and knowledge of people's individual rights and responsibilities.

The informational and educational goal of Law Day is to remove some of the misapprehension and fear that keep people from using the justice system.

This year's theme challenges the legal community to help provide answers to questions such as: how to recognize when a legal problem exists, how to find a lawyer, where to

obtain legal assistance, and what the cost will be for the legal services.

A survey of legal needs has revealed that more than 50 million adult Americans have never consulted a lawyer, even though the study indicated many of these people had experienced the need for legal services.

The ISBA stresses that a lawyer is not merely an advisor to those confronted by legal problems, but serves society as counselor, advocate, officer of the court, public servant and public leader.

Programs and projects in many forms will be held throughout the U.S. on or near May 1, including school assemblies, mock trials, courthouse tours, free legal counseling, law clinics for the elderly, and law-related seminars.

"While Law Day occupies only a single calendar day, it reminds us that the principles embodied in the observance are constant and must be maintained every day of the year," an ISBA spokesman commented.

DONNA FLOYD serving as Private Second Class with the U.S. Army at Tobyhanna, Pa. The daughter of Mrs. Mary Terrell, 113 Grenzer Homes, Madison, she will depart for Germany on May 15 for a two year tour of duty. Pvt. Floyd is a 1979 graduate of Lovejoy High School.

The band director is Vernell Glasper. The choir director is Miss Joan Brown. The public is being invited to this concert. Anna Spencer, principal of Venice Grade School, said.

MIKE BENNETT with the regional Junior Achievement best production award.

Driver is sued

Two lawsuits have been filed in Madison County Circuit Court against Sherrie Mousette as the result of an April 23, 1978, auto accident.

The suit contends that Mrs. Mousette, who also uses the name Lynn Mousette, was driving a car which collided with the auto of Larry Ottinger, injuring Ottinger and a passenger in his car, Judith A. Mayes.

Both Ottinger and his passenger filed suits against Mrs. Mousette seeking in excess of \$15,000 each.

Awards to Jr. Achievers here

Four Granite City and Madison-Venice Junior Achievement companies and a Granite City Achiever received special awards at the 31st annual "Future Unlimited" banquet held at Stouffer's Riverfront Towers. Over 2,000 Achievers and business executives attended the dinner and award ceremonies.

"Hang-Ups," sponsored by A. O. Smith Corporation here, received the Best in Production Award in the entire Mississippi Valley JA Area. Hang-Ups produced and sold \$2,415 worth of wooden picture frames.

The Best in Production Award is considered one of the top three awards, along with best in sales and best in area.

Best in the Granite City JA Center was awarded to "Jafo III," counseled by Illinois Bell Telephone Company. The student-run company sold \$2,400 worth of fudge.

First Place in Wood Products was awarded to "Omegas," sponsored by American Steel Foundries. Omegas sold \$1,130 worth of Christmas centerpieces and wall sconces.

The Best in Madison-Venice Award went to "Madison and Venice Production Company," sponsored by Granite City Steel. This first-year program in Madison boasted three companies.

She said that when she refused, the man asked her if she wanted to see something in the truck. She ran away and he tried to hit her with the truck, the girl said.

The driver was described as 19 to 20 years old, heavy, having blue eyes, a big nose and buck teeth and short black hair.

CHILDREN ARE FREE TONIGHT at Memorial Auditorium on the Granite City High School South Campus. At 7 p.m. today the speech department will present its annual South's "Story Theater." Adult admission is 50 cents. The performance will feature 56 Disco Mouseketeers performing under the direction of Ron Pennell, chairman of the GCIS South speech department. Part of the cast includes front row, seated from the left: Dawn Johnson, Sheryl McGee and Gail Frazier. Second row kneeling, Chris Barnhart, Lisa Ezell, Connie Parker, Faye Trester, Debbie Rodenhouse, Cheryl Kositzky. Standing in back row are: John Rutledge, Randy Lupardus, Marty Altenburger and Tom Tracy.

EULA MCKEE AND SHIRLEY MYERS of Granite City take in the sights of Monte Carlo during an all-expenses paid trip from Avon Products. Eula McKee, an Avon representative, was among 320 U.S. representatives who won a six-day trip to Monte Carlo for sales of Tasha, one of the newest fragrances. Along with tours of the Italian and French Riviera, the winners were treated to a glimpse of Princess Grace, who accepted Avon's donation to the Red Cross and attended Avon's final night banquet as guest of honor.

Rodgers, Hammerstein music to be featured

The Granite City High School North Vocal Music Department will present its spring concert on Tuesday, April 29, at 8 p.m. in the North cafeteria.

The concert will be called "An Evening with Rodgers and Hammerstein" and will contain the music that these men wrote together for Broadway and the movies. The Advanced Mixed Chorus will sing the medley from Oklahoma containing such songs as "Oh, What a Beautiful Morning," "The Surrey With the Fringe on Top," "People Will Say We're in Love," and "Oklahoma." Contando will sing the medley from Carousel — "A Real Nice Clambake," "You'll Never Walk Alone," "Blow High, Blow Low," "If I Loved You," and "June Is Bustin' Out All Over."

The Madrigals will sing "Bali Hai," "A Wonderful Guy," "Younger Than Springtime," "There Is Nothing Like a Dame," and "Some Enchanted Evening," from the Pulitzer prize winning musical South Pacific.

The Madrigals will also sing the Antoinette Perry award-winning medley from The Sound of Music which contains the numbers "The Sound of Music," "My Favorite Things," "Do-Re-Mi," and "Climb Every Mountain."

Girls Glee Club will perform "Getting to Know You," "I Whistle a Happy Tune," "We Kiss in a Shadow," "Hello, Young Lovers," from The King and I.

And the sixth hour mixed chorus will sing the medley from the Rodgers and Hammerstein show Flower Drum Song, which contains the songs "A Hundred

Million Miracles," Love, Look Away," "I Enjoy Being a Girl," "You Are Beautiful," and "Sunday."

Mrs. Gail Mueller is the choral director for the concert. Debbie Buer is the accompanist for the choruses.

Popcorn will be provided for the audience and soda can be purchased by the audience before and after the concert.

Tickets for the performance are 75 cents for adults and 50 cents for students.

Boy, 14, stabbed

A 14-year-old student at North High School suffered two stab wounds to the back during an incident in the school cafeteria at 12:45 p.m. Monday.

Michael S. Burton, 2439 Kane Drive, was treated at St. Elizabeth Medical Center and was admitted. He was released from the hospital Tuesday.

The youth suffered a knife puncture wound immediately left of the spine and another about three inches left of the spine in the middle of the back, according to police reports.

Police said the boy told

them that he was in the school cafeteria with two friends who were "teasing" another youth.

He related that he started to walk away when he felt a severe stinging sensation to his back. He turned to see the boy who had been the victim of the other two youths putting a knife in his pocket. Burton's friends took him to the school nurse. She notified his parents who took the boy to the hospital.

Juvenile authorities plan to question the other youths involved in the incident.

Blood drive on Monday

Granite City High School North is holding its annual Red Cross Blood Drive from 9 a.m. until 2 p.m. in the school gym on Monday.

The general public is welcome at the school to give blood.

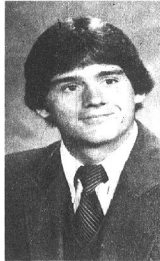

Students must be 17 years of age and have a parental permission slip in order to donate blood.

Students may obtain the slips to be filled out from any student council member or at the school office.

Sue Basarich is chairman of the annual student council blood drive.

The goal this year is 250 pints and council members are asking everyone, that can, to help reach the goal.

Brad Taylor is the North Student Council president and Steve Hamilton is the faculty adviser.

LAWRENCE R. HEAGY has been elected president of the St. Louis University Chapter of the Student Nurses' Association. After receiving his bachelors degree Heagy plans to continue his education to become an anesthetist. He is the son of Mrs. Mary Catherine Heagy and the late Lawrence E. Heagy, 2801 Grand Ave.

Change in life style, less energy use urged

By PROF. THOMAS O. BALWIN

(Dr. Baldwin, who is a professor in the department of physics in the School of Science and Technology at Southern Illinois University at Edwardsville, gave the opening address at last week's Energy Week conference on the campus.)

I would like to place our current energy crisis in some kind of perspective and give you some things to think about as you participate in this conference.

Let me start by asking you to think with me about three fundamental questions.

They are: 1. What is energy? 2. Why do we need it? 3. What happens when we don't have enough of it (at least as judged by our own standards)?

First, consider the question: What is energy? In physics, we often say that energy is anything that makes it possible to do physical work, where work implies forces and motion.

But the energy we want to talk most about is potential

energy, which is usually concentrated in form, i.e., our fossil fuels.

We use these fuels to produce heat, which in turn runs machines for us. Much is usually wasted in the process; it escapes to the environment and its usefulness is lost.

We should realize that our world is rapidly using up our concentrated forms of energy (fossil fuels) in this age of industrialization.

It took millions of years to create these sources and we will use them up at our present rate in, at most, a couple of hundred years.

Our most serious problem at present is the rapid depletion of oil—both our domestic resources and the world's resources.

The U.S., with only about six percent of the world's population, cannot continue to use nearly one-third of the world's energy.

It is immoral for us to do so, and we must realize that the rest of the world will not permit us to continue.

If we persist in demanding this much of the world's energy, we may feel betrayed or even trapped, and will try to look for simple solutions.

For example, those who choose to believe in the simple rhetoric of Ronald Reagan, who suggests that to solve our problems we only need to turn the oil companies loose, are merely deceiving themselves.

It is much like believing in Santa Claus, the tooth fairy, and the Easter bunny. None of these characters are going to put cheap oil on our shelves or under our pillows.

Energy, food and raw materials are our most precious commodities and whoever controls these items also controls our freedom and our destiny.

We cannot afford to let any power bloc—whether it be domestic or foreign—control a basic necessity like energy.

The long-run outlook need not be bleak unless we make all of the wrong choices. Basically, there are three available to us. They are:

1. We can continue on our way of producing more and more, wringing the earth of every natural resource it has without concern for the world's long-run future.

We can burn up all of our fossil fuels, including our vast resources of shale and oil, in the process, increase the carbon dioxide in our atmosphere until we melt the earth's polar ice caps.

The outcome of that choice should be clear to everyone, but for reasons which I don't understand, it is apparently not.

Some people still believe that even though our resources are finite, we can behave as if they were infinite and that we need not be concerned about the long-run consequences.

Related to this, our second choice is to have unbounded faith that someone, perhaps our tooth fairy, Santa Claus or the Easter bunny, will solve our problems for us.

For example, you may think that an "unlimited" energy source like breeder reactors or fusion will solve the problems. Let me say a word about these sources.

Breeder reactors have the promise of producing a long-term energy source, lasting for hundreds of years. However, they also produce one of the most dangerous elements known to mankind, plutonium, a material that we would have to control for thousands of years.

It has a half-life of 25,000 years, and a few atoms of the material on a dust particle will cause lung cancer if inhaled. That says nothing

about the complexities and the difficulty of control of breeder reactors.

Another speaking of holding our breath, we should not count on fusion to contribute anything for the next 25 years.

We must realize that even if one of these energy sources were "perfect," there are numerous constraints to unlimited growth.

One of these is the finite extent of our other natural resources.

Another is the irreparable damage we may do to our environment, including thermal, chemical and radioactive pollution.

There is another choice for all of us, one which is cheaper and one which results in a cleaner earth. It is the solar-conservation alternative.

Since there are still many "details" to be worked out with the solar alternative, but we have made great strides in active and passive solar heating and in deriving electricity from solar cells.

Over 10,000 times as much solar energy reaches the earth each day than we use. It is clean and, most importantly, it is renewable.

Conservation is a prerequisite to the effective use of solar energy. Right now, we could probably get by in this country with 40 percent or so less energy than we are now using, with little change in our real standard of living.

There would be changes in our lifestyles, but they are coming anyway. We would choose to waste less, and pervert or give up a few personal comforts.

But our health would probably improve from more exercise. Inflation would be reduced, and many jobs would be created by a new economy.

We would undoubtedly like the world we would live in much better.

Just remember, if we don't make the right choices, our food supply might well be endangered. Then we would really be in trouble.

The choice we make about our future will be made in the political arena. This choice we are facing a rigorous test of our political, social, and educational systems.

Our choice will determine the distribution of wealth and probably decide the question of whether we will go to war to demand an unreasonable share of the earth's natural resources.

It is essential that you become involved, that you learn as much as you can about the problem.

It is also essential that you and others not be swayed by political demagogues—people who promise unlimited resources, unlimited wealth and simple solutions.

You should demand intelligent, thoughtful answers to your questions. And you should, by all means, investigate this matter on your own in order that your choice be both politically and technologically—makes sense for you, your family and your neighbors.

National Steel benefits from sale of coal property — but steel orders down

National Steel Corp., the nation's fourth largest steelmaker, reported sharply higher earnings Wednesday for the first quarter of 1980 but pointed out that the major portion of those earnings came from a nonrecurring gain on the sale of coal properties.

One of National's steel-making divisions, Granite City Steel, is the largest steel producer in the St. Louis area.

Howard M. Love, president and chief executive officer, told stockholders at the firm's annual meeting in Pittsburgh that 1980 first-quarter earnings were \$107 million, or \$5.63 per share.

This included \$95.5 million, or \$5.02 per share, from the sale of coal properties and \$9.5 million of net earnings, or 50 cents per share, from United Financial Corp., which was recently acquired.

Earnings in the first quarter of 1979 were \$20.7 million, or \$1.08 per share.

"Steel division profits in the first quarter were sharply reduced from last year," said Love, "as a result of depressed demand,

a continued high level of imports, and rapidly increasing costs, particularly for energy."

"Progress continues to be made in increasing our participation in capital goods, construction and other markets."

"However, this was more than offset by the unexpectedly severe decline in first-quarter results of the planned shutdown of one of Granite City Steel's two blast furnaces for rebuilding."

"It appears that the current high rates of interest and tight credit, combined with dramatically slowed demand from both the automotive and housing sectors, have begun impacting our markets to a greater extent with each passing day."

"This problem of softening demand is compounded by an increasing level of steel imports, which were up 25 percent in February from the comparable month of last year," said Love.

"Till mill product sales

were strong in the first quarter," Love told the stockholders. "And this, coupled with improved operating results at the Weirton Steel Division in Weirton, W. Va., provided one of the bright spots in the first quarter."

"Another bright spot was the earnings contribution of United Financial Corp., which helped maintain corporate earnings in a period of soft steel demand."

"This is what our strategy envisioned when we determined to diversify the company's earnings sources."

Looking ahead, Love indicated concern about the prospects for steel demand during the balance of the year.

"Under these circumstances," he said, "we are intensifying our cost-reduction program and critically reviewing our capital spending plans."

He also confirmed that the current interest rate environment is beginning to have an adverse impact on United Financial.

In discussing energy costs, President Love said, "Spiking energy costs are one of our major concerns."

As an example, unless certain regulations issued under the Natural Gas Policy Act of 1978 are vetoed in this session of Congress, our natural gas costs will increase an estimate \$30 million per year beginning in November.

"We cannot absorb cost increases of this magnitude. We are wrestling with a variety of ways to recoup such cost increases including, as one alternative, and 'energy surcharge' which would tie the price of steel to energy costs."

Primary steel production in the first quarter of 1980 was 2.2 million tons, down 21 percent from the 2.8 million net tons in the first quarter of 1979.

Shipments were 1.9 million net tons, down 13 percent from the 2.2 million tons in 1979's first quarter.

Sales and other income, which include the sale of coal properties and the equity in net income of United Financial, for the first quarter of 1980 amounted to \$1.2 billion, compared with \$1.1 billion for the first quarter of 1979.

As required by Statement 34 of the Financial Accounting Standards Board, capitalized interest expense, including that of United Financial Corp., was reported. It amounted to \$4.4 million, to 14 cents per share.

Licensing

(Continued from Page 1)

First Ward attacked this section of the bill, alleging it is discriminatory and unconstitutional.

"That section would permit someone to prevent licensing of a business just on his sayso that the business operator is not of good character. Who is to be the judge of a man's character?"

Chief of Police Ronald Veizer was asked his opinion of the provision. Veizer told the council:

"I agree with that (Douglas' criticism). 'I talked to the city attorney about that. That section could be pretty harmful to some. There are businessmen who have been in trouble but who are now outstanding members of the community.'"

The new measure establishes varying license rates for different phases of business operations and adds a number of categories not previously licensed under the old business license ordinance which city officials said dates back 60 years.

Even though the measure was offered by Ordinance Committee Chairman Paul Fisk on a first reading basis, it carried by only one vote since a minimum of eight votes would have been needed to place it on first reading.

Mayor Schuler told the aldermen that they should get their input on the bill to the ordinance committee or the city attorney so that revisions can be made before the bill is called for final passage.

in the council's next meeting May 6. One alderman asked if council members would satisfy objections voiced against the earlier law by officers of the Tri-Cities Area Chamber of Commerce.

Alderman Sam Whitmer of the Second Ward remarked: "Why? We don't call the Chamber of Commerce and tell them how to run its business."

Those voting in favor of placing the bill on first reading were Aldermen Fisk, Earl Baker, Margaret Nunn, Michael Madrusic, Sam Whitmer, Everett Morlen, Glen Sprinkle, Warren Decatur and Fred Schuman Jr.

Those voting against were Aldermen Douglas, Lloyd Bailey, Roy Paulos, Mac Warfield and Paul Bowler.

Thomas Aerts name daughter Hillary

Announcement is being made by Mr. and Mrs. Thomas Aerts of Green Bay.

Residents attend funeral services

Residents of the Quad-Cities have returned from the funeral services of a brother-in-law, the Rev. Sam B. Hunt.

Rev. Hunt died Saturday, April 19, at a hospital in Piggott, Ark.

His wife, Mrs. Nell Hunt died Feb. 12 at St. Elizabeth Medical Center.

Those attending the funeral rites were Mr. and Mrs. Frank Hoover, Mr. and Mrs. Francis Favier, brothers-in-law and sisters of the late Mrs. Hunt. Other survivors include nephews and nieces.

Wis., of the birth of their first child, a girl, at St. Vincent's Hospital in Green Bay, on March 19.

The new arrival weighed five pounds, 12 ounces and has been named Hillary Jo.

The mother is the former Leslie Hulsey of Madison.

Grandparents are Mrs. Jo Hulsey of Madison, Philip Hulsey of West Lake, Calif., and Mr. and Mrs. Harold Aerts of DePere, Wis. Great-grandparents include Mrs. Helen Georgeff of Granite City, and Mrs. Loretta Hulsey of St. Charles, Mo.

U.S.-USSR MOVE

On President Roosevelt's initiative the United States and the Soviet Union on Nov. 16, 1933, entered into diplomatic relations.

Details of phone rate changes here

The Illinois Commerce Commission has authorized Illinois Bell to make final adjustments for local service rates in the Belleville, Granite City and East St. Louis areas to bring these rates in line with what is charged in other parts of Illinois Bell territory. Details of the changes were made public yesterday.

Illinois Bell has been gradually adjusting rates in this area since 1975. The company adjusted rates for area business customers at the end of 1978.

The rate adjustments approved April 16 are part of a statewide rate restructuring request the company filed with the commission, asking for some increases and some decreases in rates. The overall effect should be to reduce company revenues by about \$19,000, it was estimated.

The company will also eliminate the surcharge presently paid by residence and business customers for rural services. These charges range from 35 cents to \$2 a month.

Some service connection charges will be increased. Illinois Bell filed this rate restructuring request in July 1979.

The decision does not affect the utility's Dec. 21 request for a seven percent increase in company revenues. The Commission has 11 months to reach a decision on this filing.

Monthly rates for local service for residence customers will increase in Belleville, Freeburg, Granite City, Lebanon, New Athens and O'Fallon.

Depending on the community, increases will range between five cents and 85 cents, with an average increase of 40 cents.

Local service rates for residence customers will stay the same in East St. Louis and Edgemoor.

Monthly charges for residence measured service will increase 45 cents a month in Belleville and 20 cents in Granite City. Monthly charges for measured service in East St. Louis and Edgemoor will decrease five cents.

Additional message units applied to measured service will be reduced from six cents to 5.25 cents each.

Rates for some calling plans in the Chicago metropolitan area also will be restructured.

Some service connection charges in the state will increase for business and residence customers to bring them closer into line with the cost of doing the work. These changes involve work done on the customer's premises: cabling, wiring, telephone handling and visit charges.

The premises visit charge for residence customers will increase from the present \$4 to \$7, the outlet wiring

charge will rise from \$2 to \$6, and the telephone handling charge will increase from \$2 for all phones installed to \$2 for each phone installed.

The premises visit charge for business customers will increase from \$4 to \$6.50, the outlet wiring charge will go up from \$4 to \$21, and the telephone handling charge will increase from \$2 to \$9 for each phone installed.

Residence customers can avoid all or part of the proposed service charge increases by visiting a PhoneCenter Store.

"Our present charges are below what it costs us to install or rearrange phones," a spokesman said. "That means that all customers presently share this cost through rates they pay for other services. These changes will help place the costs of moving or changing service on the people who cause the expense."

The realignment will also separate local line charges from equipment charges.

The equipment charge and the line charge will add up to the rate charged today or to the new rates proposed for the area.

Customers owning a non-Bell phone will no longer pay an equipment charge.

Other changes include: Increases for a few business services and decreases for some, including reduction of the monthly charge for business extensions from \$1.35 to 95 cents.

Increases in monthly equipment rates and some associated one-time charges for several types of Private Branch Exchanges (PBX's or switchboards) no longer being offered to new customers.

The new rates are scheduled to go into effect May 1.

In the Granite City area,

which Illinois Bell has been serving since 1975, local monthly residence service rates will change to match those charged in the rest of Illinois Bell territory.

Residence rates for one-party local service here will increase from \$6.35 to \$6.40.

Two-party local service rates will go from the present \$5.15 to \$5.35. The measured rate for two-party service will rise from \$4.10 to \$4.30.

Additional message units applied to measured service are being reduced from six cents to 5.25 cents each in Granite City. And customers who provide their own telephones will be allowed to deduct 95 cents from the monthly residence charge.

Madison school safety program

The annual Madison Community District 12 safety program will be held Tuesday, April 29, in the Madison High School auditorium.

The program will feature many musical numbers and poems by the elementary children all with a safety message.

A safety poster contest has been held and prizes will be awarded to the winners by the Madison Fire Department and the Madison police department.

The program is under the direction of Valerie Stevens and Tim Schultz.

School officials are encouraging parents of children and the public to attend.

LOOK FOR GOLD TAGS AND FIND GOLDEN VALUES.

You also get: Dual sport mirrors, sport wheels and body paint stripes.

Gold Tag Days is a golden opportunity. See your participating Olds Dealer now for his Gold Tag Values.

Introducing the new Cutlass Supreme Value Package. Buy just four selected options, get another three selected options at no extra charge. That alone is a saving of over \$170, based on manufacturer's suggested retail prices. When you buy: Cruise Control, tilt steering wheel, deluxe seat belts and V8 engine...

Oldsmobile

WE'VE HAD ONE BUILT FOR YOU.

Oldsmobiles are equipped with GM-built engines produced by various divisions. See your dealer for details.

Soil saving rules final

The Illinois Department of Agriculture has adopted final rules and regulations for the state's sedimentation and erosion control program. Each of the state's 14 local soil and water conservation districts will now have two years to adopt comparable local soil-saving guidelines.

The department was required by a 1977 amendment to the Soil and Water Conservation District Act to set the basic soil-saving standards. The act permits local districts to customize those standards to local areas—if the guidelines are as stringent as the state rules.

The guidelines adopted by the state April 18 require that conservation systems and practices applied to agricultural land reduce soil losses to the following levels:

—Effective January 1982 to January 1988, soil losses are to be reduced to eight to 20 tons of soil per acre per year, depending on soil type.

—Effective January 1988 to 1994, soil losses are to be reduced to four to 10 tons per acre per year, except on land having less than a five percent slope. On that relatively flat land, the guidelines specify that losses must be reduced to two to five tons per acre per year.

—Effective 1994 to 2000, soil losses must be less than three to 7.5 tons per acre per year.

After the year 2000, soil losses must be reduced to less than two to five tons per acre per year.

The law provides cost-sharing money to help farmers achieve the nearly erosion-free status.

Farmers participating in conservation tillage and zero-till programs would be eligible for per-acre payments.

Farmers constructing terraces, grass waterways, grade establishment structures, and other soil-saving devices would be eligible for state sharing funds totaling up to 75 percent of the cost of the initial structure.

The law also provides for the establishment of local advisory committees to help soil and water conservation districts establish local programs. Jim Frank of the Illinois Department of Agriculture (217-782-6297), said.

Giant viewing screens, bigger purses at track

By JOHN SCULLY
Fairmount Park opened its season on a high note as 9,856 attended the races on a cool Sunday afternoon. The crowd poured \$915,160 through the mutual windows by the day's end.

Six years ago this month, Fairmount Park's future looked bleak indeed, as the entire grandstand lay in ruin after the ravages of an all-consuming fire.

Two years later, Fairmount reopened with a new modern grandstand which is a glass-enclosed and air-conditioned.

This year, new features were added, including the remodeling of the Black Stallion dining room and the building of a new outdoor restaurant specializing in Italian cuisine.

Also new this year is the closed-circuit color television system, including two giant screens.

But possibly the best thing to happen at Fairmount Park is the increase in the purse structure. For many years, the racing fans at Fairmount Park had to watch a low class of horses.

This year, we are turning the corner. The minimum purse is now at \$2,800, a raise of \$800 over last season, while the lowest claiming price is now \$2,500, compared to \$2,000 in 1979.

Some things have remained constant. Last year's leading rider in the nation, Dave Gail, will be riding at Fairmount Park throughout the entire 160 racing days, which extend through Nov. 22.

It is somewhat of a shame that Dave Gail has not

received the recognition that is due the nation's leading rider.

His riding style is quite different from most riders, as he seldom uses his whip. He gets more out of a horse by encouraging it with his hands than any jockey can get by using a whip.

Besides being the leading jockey in the country last year, he is approaching a major milestone in his career, his 3,000th win, which should come by the end of April.

Fairmount Park has a distinction that no other track is able to match. Four of the trainers at Fairmount were in the top 25 in the nation in wins.

Perennial leader locally, Everett Hanonnd finished second in North American racing with 267 wins for 1979. His talented brother, Jerry, was 13th, while Joe Sinclair placed 16th and Raul Martinez 24th in the national standings.

The opening day crowd of 9,856 proved that Sunday racing could be a boon to the racing scene. Last year, Sunday racing was tried for six weeks and the results were sadly disappointing, as it was the second worst day of the week.

In an effort to promote Sunday racing, Fairmount Park is giving away a specially-designed windbreaker jacket to each paid admission on Sunday, April 27.

Horse racing is definitely on the upswing at Fairmount Park, with racing Wednesday through Saturday at 7:45 p.m. and Sunday at 1:30 p.m. and 7:45 p.m. and Sunday at 1:30 p.m. and 7:45 p.m.

Book award to Steve Yencho as top scholar

For outstanding scholarship, 127 University of Illinois freshmen and their high schools are being honored by the U. of I. Mothers Association. The group's "Book Awards" honor students who in their first semester in the university had perfect "A" records in 15 or more credit hours of graded courses.

The high schools are recognized because the students' academic excellence reflects preparation they received before entering the university, the association said.

Among the students and schools are Stephen A. Yencho and Granite City High School North. He is a son of Mr. and Mrs. Ed (May Evelyn) Yencho, 2571 Waterman Ave.

The freshmen were invited to be guests of the association Friday at its annual dinner, a part of Campus Mother's Day weekend activities at the university.

The schools will receive \$10 in the name of each honored student toward purchase of a book for the school library. A special bookplate from the association contains the student's name and university class year.

The 127 students are the top scholars Friday at its annual dinner, a part of Campus Mother's Day weekend activities at the university.

The book award program began in 1964 and is a part of the association's year-round activities for parents, students and the university.

SCHNUCKS ANNOUNCES BEEF PRICE SLASHES

Schnucks announced Monday that effective immediately price reductions of 20 cents to 40 cents per pound are being made on all fresh choice beef items. The reductions in beef prices are in addition to low feature price on whole flyers.

"We are making these reductions because, while the beef market fluctuates, it has come down slightly. We are concerned with the inflation picture which the consumer is facing. Beef is an important meat commodity," said Craig D. Schnuck, executive vice president. "Pork prices already are lower than one year ago."

Summer Favorites—Palm Beach Vested Suits of 100% Dacron Polyester.

Palm Beach

The vested look is still in the summer... but no need to worry about wilting with these comfortable 3 piece stripes and plaids. Scouts present program

Cub Scout Pack 22, sponsored by the Frohardt School PTA, provided part of the program for the PTA meeting. Cub Scouts Ron Voegel, Steve Toth, Harold Krohne, Joey Hinnen, and Webelos David Moulton opened the meeting with the presentation of the colors and the pledge of allegiance.

Den Two, Wilbert Abbott, Aaron Colp, and Ron Voegel, led by Bonnie Hunter and Eva Abbott, gave a pinewood derby demonstration. They told how a cubscout takes a block of wood and makes it into a race car, and then they staged a pinewood race.

STATE FLUORIDATION PROJECT IS FUNDED

William L. Kempiners, acting director of the Illinois Department of Public Health, said last week announced receipt of a \$114,000 fluoridation project grant from the U.S. Department of Health, Education and Welfare. The funds will be used by the Division of Dental Health to purchase fluoride feeding equipment for those schools throughout the state with private, non-fluoridated water supplies.

Studies have shown that water fluoridation when consumed from birth will reduce dental decay from 50 to 65 percent, Kempiners said.

GC youngsters to participate in hike for sight

A group of Granite City youngsters plan to take part in an eight-mile "Hike for Sight" to be conducted in St. Louis to help buy furnishings and equipment for the new St. Louis Eye Hospital due for completion this summer. The hike for sight will be held Saturday from 10 a.m. until 3 p.m., with registration scheduled at 9:30 a.m.

The hike will start at the hospital site, 1015 Bellevue Ave., St. Louis, and will cover four different routes. Each hiker will have a sponsor who will contribute for each mile walked.

FOOD STAMP TEETH

Wilma Jean Harsh, 4201 Kirkpatrick Homes, reported Monday that \$115 worth of food stamps were stolen from her purse in her apartment. The victim said the theft apparently occurred during the weekend.

NEWLY INSTALLED OFFICERS of Granite City Junior Service Club, who took the oath of office at a dinner meeting Monday evening at the Tower Restaurant, St. Louis. Front row from left, Gale McFarland, Faith Holsinger, Donna Sprinkle, Back row, Brenda Weckman, Joan Wachter, Rose Ann Bates, Gail Miosky, Betty Nighohossian.

Minerva Club donates funds

The Minerva Women's Club met last week in the home of Zola Burgess, 2564 Stratford Lane. Plans were made for the group to attend the General Federation Convention to be held in St. Louis, June 2 through June 6. The membership voted to send two Boy Scouts, two Girl Scouts and a handicapped child to camp this summer. A contribution of \$100 was also made to the Granite City Scholarship Foundation. Final plans were made for the annual mother-daughter banquet to be held at Rusty's Restaurant May 1. Those in attendance were Barbara Barr, Beverly Benoit, Phyllis Brusatti, Helen Cook, Shirley Goff, Arlene Laub, Marlene Manogian, Charlotte Rapp, Margaret Rehagen, Elaine Shipcoff, Betty Skirball, Mary Tarpoff, June VanHorn and Emma Jean Wyrostek.

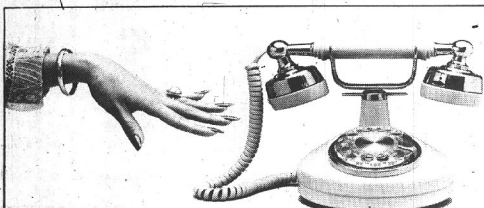

Renee Caruso is engaged

The engagement of Miss Renee Katherine Caruso and Terry Lee Angle is being announced by the bride to be's parents, Mr. and Mrs. Dennis Caruso, 2417 Sunbury Ave. Plans for a May 17 wedding are being completed by the betrothed couple and their families. The prospective groom resides with his grandparents, Mr. and Mrs. Lee Angle, 2411 Pershing Ave. He is employed by J. D. Street Co., St. Louis, and is a 1978 graduate of Granite City High School South. Miss Caruso was graduated from South High School in 1979, and is presently working at Granite City Realty.

Special services at Grace Baptist Church

A gospel music concert will be held Sunday morning at Grace Baptist Church, 2600 Edwards St., during the Sunday School hour, for the adult departments of the church, the Rev. Morris Anderson, host pastor announces.

Lee Castro of Fort Worth, Texas, known throughout the country as "the gospel singing troubadour" will be appearing in concert at this time and will be preaching during the morning worship service at 10:45 a.m. He is scheduled to open in revival in Ponton, Mo., that evening, the minister added.

Rev. Anderson, pastor at Grace Baptist Church, said a goal of 504 is expected to attend Sunday School that morning, which has been designated as "Flying-High Sunday."

The church's spring revival will begin Sunday evening, with Rev. Jimmy Ervin of the Broadway Baptist Church in Memphis, Tenn., as evangelist. Revival services will continue each evening at 7 p.m. Friday, May 2. Noon-day service will also be held daily, followed by potluck dinners.

REV. ERVIN
Evangelist

The public is being invited to attend, Rev. Anderson noted.

Music for the revival will be under the direction of Nick Poplichak, the church's minister of music. The Wednesday noon-day service will be for the July 60's, the senior group of the church, according to Bill Turner, July 60's director.

Workshop for Retired Persons officers

Five members of the Granite City Area Chapter 1340 of the American Association of Retired Persons participated in the Area V Leadership workshop of South Central Illinois last week at Augustine's Restaurant in Belleville. More than 85 officers of 10 AARP chapters attended the workshops, hosted by the three Belleville chapters. Officers and committee chairmen of the local chapter who attended included President Helen Bergfield, Helen Bertacchi, Elna Hoover and Venice and George Walter.

Workshops were conducted by Paul Houghton, of the Illinois Joint State Legislative Committee, Mary Piper, community affairs specialist, Larry Mikler, a past president of one of the host chapters and regional governor of the Lt. Governor's senior legislative forum; Carol Aston, assistant area representative; and Rose Piper, AARP state director. Vernice Walter, of the Granite City chapter, spoke of the new program "55 Alive," a safe driving program. Elna Hoover, noted that she would be contacting all the chapters early in the fall for next year's tax counseling.

Some of AARP's educational programs include Tax-Aide, a free tax

counseling service for the elderly crime prevention, health and nutrition, widowed persons service support group, and an advocacy program in state and federal legislation to help older Americans stretch fixed incomes. AARP encourages older Americans to remain active in community and public affairs and to fulfill the organization's motto "To serve and Not be served."

Members are eligible for a non-profit pharmaceutical service, and discounted rates at leading hotels and car rental agencies that participate in the program, it was noted.

MUSIC GROUP to participate in the May Fellowship Day celebration on Friday, May 2, at Central Christian Church, 2020 Johnson Road, beginning at 10:30 a.m. From left, Linda Yates, Eunice Seaman, Sharon DePew, Jane Giese, Barbara Bryant, Myra Parrish and Shirley Frick. June Branding was not present for the picture.

Church Women Fellowship Day at Central Christian

All women in the community are invited to attend the Annual May Fellowship Day of Church Women United, scheduled for 10:30 Friday, May 2, at Central Christian Church, 2020 Johnson Road, according to Mrs. Dolores Allen, president.

Co-chairmen Shirley Frick and Nan Henderson announced that registration will begin at 10:30. Tickets for the luncheon at \$1.50 serve as the basis for Church Women United's operating budget for the year. Following the program a finger food luncheon will be served in the Fellowship Hall. For every three tickets purchased members are asked to bring from the following: six sandwiches cut in quarters, a cheese ball and crackers, dip and vegetables or crackers, raw vegetable relish tray including two dozen deviled eggs or a fruit tray with assorted finger size fruit pieces. Reservations are being taken by Shirley Frick 876-8096, it was noted.

Phyllis Vierheller, a Certified Lay Speaker in the United Methodist Church, will be guest speaker for the event. This year's theme is "The Spirit of the Lord is Upon Me," Mrs. Allen said. "The Theme is a call for

GC woman suffers rare disease, to undergo second operation

Anna Stonum, daughter of Mr. and Mrs. Bob (Mary) Stonum of 4006 North St., underwent surgery in Chicago April 17 and is to undergo another major operation May 1 in an attempt to curb the effects of a rare disease known as Friedrich's Ataxia, of which the girl has been a victim for nine years.

Anna's mother said the young woman, now 22, will wear a body cast for nine months following the May 1 surgery.

Mrs. Stonum said her daughter learned she had the disease when she was 13 years old and pulled a ligament in her neck during a physical education class in school. An orthopedic specialist referred Miss Stonum for treatment at Shriners Hospital where a brace was designed that fit from her neck to her hips, her mother related.

Miss Stonum wore the brace for several years, 23 hours a day to provide one hour for bathing. The girl had to be accompanied by a brother or sister when walking to or from the school bus because if she fell, which she frequently did, she could

not get up without help.

Mrs. Stonum said her daughter suffered a 45 degree curvature of the spine in the first years after discovering she was afflicted with the disease. Friedrich's Ataxia attacks the brain cells which control the coordination of the arms and legs.

Miss Stonum graduated from North High School in 1976. She was a member of the National Honor Society. She majored in art.

Miss Stonum now is attending Chicago's Mundell Catholic College for Girls, where she has been a student for the past two years, majoring in art.

Her mother said that her daughter's spinal curvature is now 65 degrees causing severe internal pressures.

At first it was believed an operation was impossible because of the extent of the spinal curvature, but the family learned of a Chicago specialist, Dr. Michael Schaffer, who had successfully performed such an operation.

The specialist recommended two operations, the first of which was performed

ANNA STONUM

April 17, Mrs. Stonum related.

The young woman now is awaiting the second operation and Mrs. Stonum asked her daughter's friends and acquaintances to send letters and cards of encouragement to Miss Stonum at Northwestern Memorial Hospital, Pausanias Pavilion—Room 638, 303 East Superior, Chicago, Ill., 60611.

Army support command coordinates conference

The Army Education Center of the St. Louis Area Support Center, Granite City, is coordinating an educational conference April 29 through May 1 at Holiday Inn, 4546 Lindbergh Blvd., St. Louis. Military and civilian educators from all areas of the United States and overseas commands will attend.

Rufino De La Cruz, director of the Army Education Center, said that the theme of the conference will be the Army Continuing Education Systems (ACES) program and the Servicemen's Opportunity Colleges Associate Degree (SOCAD) program.

Subjects comprising the agenda, De La Cruz said, are "Army Interface with Educational Community," "Expansion of Voluntary Off Duty and Post Service Education Opportunities," and "Enlisted Soldier Aspirations for Educational Opportunities." A portion of the three-day conference will

be devoted to workshop sessions.

Among the dignitaries participating in the conference, De La Cruz said, will be Dr. Robert H. Spiro, undersecretary of the Army, Lt. Gen. Andrew J. Goodpaster, superintendent of the U.S. Military Academy, BG Charles F. Briggs, representing the adjutant general of the Army, William Fuller, education director, U.S. Army Development and Readiness Command (DARCOM), Alexandria, Va., and key educators from the civilian community.

MG Richard H. Thompson, commander, U.S. Army Troop Support and Aviation Materiel Readiness Command (TSARCOM), 4300 Goodfellow Blvd., will welcome the attendees at the opening session.

The educational conference is an annual event sponsored by the adjutant of the Army and hosted by the director of education, U.S. Army Development and Readiness Command.

St. Louis was selected in consideration of it being a central point as far as travel by the participants were concerned.

Job Fair Friday for handicapped

A Job Fair for the handicapped will be held Friday from 9:30 to 11:30 a.m. in the library of Granite City High School North.

The job fair will give all physically and mentally handicapped persons an opportunity to meet with potential employers. Persons attending are asked to bring several short resumes and be prepared to be interviewed by employer representatives.

Several firms in the surrounding area will be represented. Also, agencies providing assistance to the handicapped adult will be in attendance.

The project is sponsored by the Parents for Special Education in co-operation with special education teachers and the Region I Special Education District of the Quad-Cities.

More information may be obtained by calling Kay Hahne, 451-9852, or Melba Grady, 877-5806.

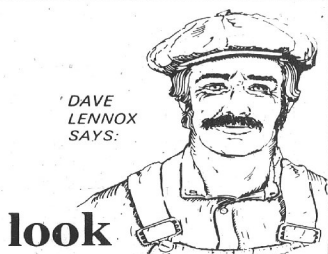

TAKE FOOD STAMPS

About \$45 to \$50 worth of food stamps were stolen from the apartment of Shirley Frater, 404 Kirkpatrick Homes, early this week. Entry was believed gained through a window. Also taken were a wallet, a carton of cigarettes, a makeup case and two hypodermic syringes.

GC High School South Queen and Court

INGRID KRAMER
May Queen

Ingrid Kramer, daughter of Mr. and Mrs. James L. Kramer, 2914 Sunset Drive, has been selected May Queen for Granite City High School.

Ingrid is interested in gymnastics, swimming, and horseback riding.

She would like to try and become an airline stewardess.

Ingrid found out about becoming the May Queen while at work in Dr. Jeffrey Pierstein's office.

"I simply lost my emotional control. I would cry and laugh, cry and laugh and it took me quite a while to explain to my boss Sarah Perkins, just what was wrong or right with me."

"I still don't think it has sunk in my head all the way, yet."

"I really was surprised and happy about it and I want to thank everyone at South for making this happen," she said.

Carpet Cleaning—
Call 831-0420

LORI ANN DEROSSETT
First Attendant

Lori Ann Derossett, daughter of Mr. and Mrs. James Derossett, 1912 Johnson Road, has been selected as a first attendant to the May Queen in the GC South May Day court.

Her school activities include being president of the Student Council, vice-president of the senior class, member of the Speech and Theater Club, in addition to the Citizens Advisory Council.

A member of the South Homecoming Court, she is also a member of the Red Peppers.

She is in the co-op work program and is working for Dr. Jack Miller, DDS.

She wants to pursue a career in dental hygiene.

Her hobbies include swimming, dancing, jogging, painting and playing several different sports.

When asked about her being named to the court she said, "I was surprised and honored. It was one more special event that is making my senior year one that I will never forget."

We FRAME Everything
Needlework Pictures
Keepsakes
Daley's
417 Madison Ave. 876-2453

SUSAN ROBINSON
First Attendant

Susan Robinson, daughter of Mr. and Mrs. Wayne Robinson, 2104 Amos Ave., has been selected as a first attendant to the May Queen at South.

Her school activities include being secretary of the senior class, National Honor Society, Red Peppers and Homecoming court.

Her hobbies include swimming, diving and traveling.

Susan plans to study biology and attend Illinois State University.

Susan was in her home room class at school when she found out she had been selected a member of the court.

She said, "I was surprised, shocked and honored when I heard the news."

R. D. Loeschner appointed manager

Robert D. Loeschner, of Route One, Highland, has been appointed sales manager in Metropolitan Life Insurance Company's Granite City office at 3703 Nameoki Road. The appointment was announced by District Sales Manager E. Ray Grisham.

As a sales manager, Loeschner will be respon-

BARBARA MUHLENBECK
Second Attendant

Barbara Muhlenbeck, daughter of Mr. and Mrs. William Haven, 1735 Pontoon Ave., has been selected as second attendant in the GC South May Day Court.

Her school activities have included cheerleading, Southern Express Swing Choir, Pep Club and SLAC.

Her hobbies include singing, dancing, and gymnastics.

Barbara plans to attend Old Dominion University in Virginia and pursue a career in social welfare work.

"I was standing in the hall at school and Christy Feigle came by and congratulated me and I didn't know what she was talking about."

"She then showed me the ballots and I couldn't believe it."

"I feel it is a great honor and I am very happy about it," Barbara said.

BRENDA WHITAKER
Second Attendant

Brenda Whitaker, daughter of Mr. and Mrs. Roy Whitaker, 2316 Logan Ave., has been selected as second attendant for GC South May Day.

Her school activities include being vice-president of the Speech and Theater Club, member of the Art Club, member of the Homecoming Court and was stage manager of the faculty play.

Brenda plans to attend Southern Illinois University at Edwardsville and study art.

Her reaction to learning of her selection on the court was, "Different people said that I was on the court, but I really did not know until the morning we voted. I was really surprised and honored," she said.

'Three Times a Lady' South May Day theme

The Granite City High School South May Day program will be held at 9 p.m. Friday, May 9, in the Memorial gymnasium.

The theme this year is "Three Times a Lady."

Tickets go on sale Monday, April 28, before and after school in the small gym at South.

Tickets are \$2 for adults and \$1 for children age 12 and under. No tickets will be sold at the door.

The crown bearer is Eric Kary, son of Mr. and Mrs. Don (Barbara) Kary.

Flower girls are Judith Bergbrader, daughter of Mr. and Mrs. Gerald (Rose Ann) Bergbrader, and Jill Groboki, daughter of Mr. and Mrs. John (Janice) Groboki.

The Pages for May Day are: Marsha Fisher, Ellen Range and Gay Wright.

The program will begin with the retiring Homecoming Queen Laurie Ferrero entering first followed by the senior procession and then the May Day Court.

The May Day Queen will then be crowned by the Homecoming Queen.

Entertainment will be presented by the Modern Dance Group, physical education classes, the band, Pom Poms, vocal groups and other students.

The traditional May Pole and candlelight ceremony will conclude the program.

SLAC (South Leaders Athletic Club) is sponsoring the event with Charlotte Charbonnier the faculty adviser.

Firm selected to manage coal gas plant construction

Allis-Chalmers Corp. has selected the J. A. Jones Construction Co., of Charlotte, N.C., as construction manager of the KILNGAS commercial module coal gasification plant to be built at the Wood

River station of Illinois Power Co., East Alton.

Construction is scheduled to begin in the third quarter of 1980, with operations to start in 1983.

Dr. Gerald T. Petersen, general manager, Coal

Gasification Systems operation, Allis-Chalmers, said Jones will organize the plant construction activities into contract packages and supervise progress to ensure that the project schedule and budget goals are achieved.

He said a major factor in selecting Jones was that firm's "excellent record in managing construction projects in the process and electric utility industries."

Founded at Charlotte in 1890, J. A. Jones Construction has engaged in process, industrial, heavy, highway, power generation, environmental, commercial and institutional projects in 42 states. In the past 50 years, Jones has built a variety of projects in 28 nations.

The KILNGAS system is designed to produce clean, low-Btu gas from high sulfur coal which can be used as fuel for electric power generation.

The process is based on more than 50 years' experience by Milwaukee-based Allis-Chalmers in the manufacture of large rotary kilns for high-temperature processing of bulk solids.

Session for parents to aid child readers

"Reading: A Family Affair" is the theme of a session for parents planned by the International Reading Association as part of its 25th annual convention May 5-9 in St. Louis.

The session is scheduled for Monday evening, May 5, from 7:30 to 9:30 in the grand ballroom of Stouffer's Riverfront Towers.

Admission to this special program is free. It is designed to provide tips for parents in helping their children become better and more enthusiastic readers.

The program is considered relevant to parents of children of all ages.

A similar session at the IRA convention last year in Atlanta drew 1,300 participants.

"Booking for the Long Flight."

In addition to the main program, parents will also have the opportunity to participate in one of many small group sessions presented by members of the IRA Parents and Reading Committee.

"Preschool Language Development," "How You Can Be an Effective Partner in Reading," "Reading With Your Child: How to Get the Most Out of a Book" and "The Effects of Television on Reading" are a sampling of the offerings designed to help parents become actively involved in their child's reading education.

A similar session at the IRA convention last year in Atlanta drew 1,300 participants.

HOUSING AID FOR AGED TO BE TOPIC

Government assistance for housing for older adults will be discussed at 1:30 p.m. Wednesday, April 30, by Michael Quinn, SIUE associate professor in government, public and urban affairs and policy analysis.

Skyscraping housing costs have hit senior citizens particularly hard because of their fixed incomes, he notes. The free program will be held in the University's Center's Mississippi Room, and all senior citizens in the area are welcome to attend.

Getting settled made simple.

Change-of-address dilemmas fade after a WELCOME WAGON call.

With WELCOME WAGON, it's my job to help you make the most of your new neighborhood. Where to shop. Community opportunities. Special attractions. Lots of facts to save you time and money.

Plus a basket of gifts for your family. I'll be listening for your call.

Shower fetes

Miss Peach

Miss Nancy Mathews was feted with a bridal shower Sunday afternoon held in the Fellowship Hall at Grace Baptist Church. The bride and groom were the bride's Mrs. Cheryl Pyle and Mrs. Sandy Rietler, sisters of the prospective groom.

The future bride was presented with a large vase of white and orchid mums. The hall was decorated in white and yellow streamers and wedding bells and all the tables were adorned with white and yellow flowers. The punch table had a yellow table covering with an umbrella and flower arrangement in the center.

Games were played and prizes of handmade needlepoint items were presented to Diane Smith, Deloris Draper, Lena Kraft, Miss Mathews and Caroline VanVleet.

Other guests were Mesdames Doris Smith, mother of the prospective groom, Esther Draper Glenda Chrisman, Linda Draper, Marlene Reiter, Emma Draper, Angie Brown, Mary Nell Draper, Arginda Draper and daughter Roxanna, Carol Draper, Misses Kathy Kramer, Sandy Shea, Tracy, Courtney and Melissa Pyle, Amy Reiter and Sarah Longinette.

Miss Mathews will be married to Harry D. Smith in a late May ceremony at Nameoki United Methodist Church.

First communion
of Mary Ann Gray

Mar. Ann Gray, a daughter of Mr. and Mrs. Jim Gray, 4570 D'Lynn Drive, received the sacrament of first communion on Sunday at St. Elizabeth's Church. The afternoon mass was said by Father Henry Schmidt.

After the ceremony the honoree and her family visited her grandparents, Mr. and Mrs. Angelina Scaturro, resident of Colonial Haven Nursing Home. Mrs. Scaturro presented her granddaughter with a groto of the blessed virgin, in honor of the event.

During the evening a buffet supper was served by Mr. and Mrs. Gray to Gus Scaturro and Mr. and Mrs. Gray, grandparents of the youngster and to Jo Ann

Others attending were Mr. and Mrs. Bob Fichte, godparents, Father Schmidt, Sister Rosella, Mrs. Dan,

Shower honors Nancy Mathews

A bridal shower honoring Miss Lorraine Peach was held Sunday at the VFW hall in Granite City. Miss Peach and Jim Valencia will be united in marriage May 24 at St. John United Church of Christ.

The hall was decorated with yellow bells, streamers and umbrellas.

The present included: Virginia and Pamela Peach, Lucy and Lisa Valencia, Gail Mathenia, Judy Gagle, Teresa Gaudreault, Lori Jones, Dorothy, Linda and Nancy Rahn, Irma and Sherry Wood, Pauline Meringer, Ruth Schuessler and Judy Baker.

Also, Mary and Judy Elledge, Sherry, Jamie and Amanda Needham, Laura, Sally, Carol, Norma Lee, Diane and Delphia Peach, Dorothy Johnston, Mary Brock, Karen Thompson, Tammy Rill, Mary Pat and Sharon Chubb, Sherry, Sharon Chubb, Susan Chubb, Willy, Donna Grimes, Barbara Johnson, Shirley Jackson and Julie Price.

April meeting of Past Regents

The Women of The Moose, Granite City Chapter, held a Past Regents meeting last week at the Moose Lodge and noted plans are under way for any changes in rules and regulations for the Queen of Hearts project.

Those present for the meeting were, Mildred Voss, Sara Gusewelle, Virginia Sever, Edna Miller, Dorothy Coy and Rosella Mead.

Members played games for gifts brought by each one, and refreshments were served by Edna Miller.

The next past regents meeting will be on May 20, at the Moose Lodge, it was

PRIVATE AND MRS. MARIO ROSSI, who were united in marriage April 12. The bride is the former Miss Catherine Ann Noud, the daughter of Mr. and Mrs. Albert Noud of Granite City.

Catherine Noud and Mario Rossi are wed.

Catherine Ann Noud became the bride of Army Private Mario Rossi April 12, in the home of Judge William Johnson who performed the ceremony. The bride is the daughter of Mr. and Mrs. Albert L. Noud Sr. of Granite City. Her parents-in-law are Mr. and Mrs. Arthur Rossi, also of Granite City.

For her wedding, the bride selected an ivory gown featuring a high neckline accented by a lace flourish and a pleated skirt.

groom's parents following the ceremony. Later that evening a dinner was served to the wedding party and family members at Ralph and Charlie's Restaurant in Madison.

Out-of-town guests included the groom's father-in-law, Joseph M. Rossi, and Mrs. William Poore of North Carolina.

The bride will graduate in June from Granite City High School, North Carolina, and is serving with the U.S. Army at Fort Leonard Wood, Mo.

She carried a bouquet of white carnations, daisies and baby's breath and wore a single white rose in her hair. Honor attendant Kelly Lee chose a peach gown designed with a blouson bodice. She wore a matching corsage and a carnation adorned her hair.

Steve Noud, a brother of the bride, served as best man.

A buffet luncheon was

TO MARRY. A September wedding is being planned by Miss Cynthia Fuhrman and John Miller. The bride-elect is the daughter of Mr. and Mrs. James Fuhrman of Granite City.

Miller-Fuhrman engagement

Mr. and Mrs. James Fuhrman of Granite City are announcing the engagement of their daughter, Cynthia Sue Fuhrman, to John Lloyd Miller.

The groom-elect is the son of Mr. and Mrs. James Miller, 19 Shirliwin Drive.

Miss Fuhrman graduated from Granite City High School North in 1977 and is employed at St. Louis

The betrothed couple and their families are planning a September wedding.

Opti-Mrs. select nurse candidate

A candidate to take nurses training in the fall was selected by members of the Noon Day Opt-Mrs. Club, Monday, at a luncheon meeting held at Ravanelli's Restaurant.

The club sponsors a continuing project to assist girls interested in a nursing career, Mrs. Alfred Pape, club president explained.

Mrs. David John read a letter from Catherine Messina, a student nurse sponsored by the group who will soon graduate.

Hostesses for the meeting were Mesdames June Nelson, William Monical, Earl Buenger, and E. A. Branding.

Mrs. Lydia Nelson gave the invocation and Mrs. John read the club creed.

The president welcomed 27 members and introduced Mrs. Leo Konzen who submitted the name of the selected candidate.

Birthday honors were extended to Mrs. Konzen and Mrs. Branding.

During the afternoon

John Jaros named pack derby winner

John Jaros was the first place winner in the annual pinewood derby competition hosted by Cub Scout Pack 22, sponsored by Frohardt School PTA.

He received a trophy in the design category and Joey Hinnen was awarded second place trophy in the same division.

Winners in speed categories included first place Craig Sykes, second Aaron Colp, and Richard Harmon earned third place. Sykes, Colp, and Harmon went to the district pinewood.

played with prizes going to Mesdames Lawrence McCauley, Tony Michel and Irby Todd.

Secretaries attend spring conference

The spring conference of the Illinois Association of Educational Secretaries was held in Joliet, Ill., over the weekend, attended by members of the Granite City Association, Frieda Andrews, Lucille Caban, Arlene Haldeman, Irene Hatscher, Marge King, Berta Millanis, Pat Uznoff and Catherine Wittevrongel.

Mrs. Catherine Wittevrongel, secretary of the

trophy was won by Mike McConnell, and the second and third place ribbons went to Mark Hunter, and Eric

Penkelen. Den Three, Ray Hensler was awarded the first, second and third place ribbons were won by Eric Pomeroy, and Jason McKee. Den Four, Joey McKeown was the first trophy, and the second and third place ribbons went to Todd Spallie, and Dennis Winn. Den Five, the Henslers, IR received the first place trophy and the second and third place ribbons went to JoJo and Jody Hensler. Participation ribbons went to Scott Moore, Wilbert Abbott, Ron Voegelie, Jim Hensler, and the Henslers. Den Six, Robertson, Steve Thot, Mike Fleaser, Jerry Wheat II Den Seven, Momphard, and the Henslers. Den Eight, Schuette, Dennis Moulton, and Jeff Robertson. The starter was Steve Moore, Mike Schuette was the first trophy, and the second place judges were: Ken Motes, Bernice Schuette, John Jaro, and Paul Robertson, and the Henslers. Den Nine, John Hagen Jr., Lew Winn, Dick Harmon, Bud Voegelie, and Gary McConnell.

Cubmaster Jerry Colp opened the derby by leading in the pledge of allegiance.

Presenting the trophies were: Mary Hagen, Bonnie Hanter, Eva Abbott, Ella Fleaser, Jo Ellen Thot, and

at the Friday evening banquet.

Featured for the conference was "Rolling Along" and featured speakers were Dr. Clinton R. Bunkle of Illinois State University who emphasized the importance of office personnel in the education field; Dr. Michael A. Payne of Southern Illinois University at Carbondale who whose topic was "Towards the Office of the Future," and Dr. Douglas Graham of Illinois State University. In addition, several workshops were offered.

Entertainment included the University of Illinois College of Business and Economics fashion show and the Legends Night. Pat Uznoff won a 12" television set during the weekend event.

Former residents announce 1st child

Former Granite City residents, Mr. and Mrs. Robert Williamson now of Lake of Four Seasons, Crown Point, Ind., announced the birth of their first child, a boy on Monday, April 14.

He has been named Michael Andrew Williamson and weighed seven pounds, seven ounces.

Grandparents are Mr. and Mrs. Alvin Williamson of Granite City and Mrs. Frances Dietrich of Gary, Ind. Mrs. Williamson is the daughter of Mr. and Mrs. Alvin Williamson.

Take advantage of Health Fair '80 today, Saturday

We had an opportunity yesterday along with 300 others to participate in Health Fair '80 and we recommend it highly to other Quad-Cityans. Each health test is done promptly and expertly and only at the request of the participant.

The initial site here was the Granite City Township Building, with Reese Drug Stores as the sponsor. There will be a good opportunity to obtain similar tests (all but tuberculosis) today through 7 p.m. at St. Elizabeth Medical Center's Kettler Center gymnasium, with the SEMC as sponsor.

The Venice Town Board is the sponsor for two locations Saturday—10 a.m. to 5 p.m. at the Madison Recreation Center, 7th Street and Lee Avenue, and 10 a.m. to 4 p.m. at the Venice Recreation Center, Broadway west of the City Hall. In

Madison, there will be no hearing test; in Venice, there will be no diabetes screening but oral screening and podiatry testing will be added.

The basic health testing program involves blood pressure, anemia, height, weight, vision and, in some instances, blood chemistry. Counselors discuss in detail the results of the tests and also suggest referrals when needed. Purpose of the free program is to provide early detection of potential health problems and to educate the public in preventive health care. It does not substitute for a physical examination by one's physician.

It is an excellent service, well handled, and as many local residents as possible ought to take advantage of it today or Saturday.

Foto Fest '80 to begin in Press-Record next week

It just wouldn't be spring without thoughts of the outdoors and picture taking. Accompanying such thoughts is Foto Fest '80, the second annual Press-Record photography contest held in cooperation with Dcor Photo.

Amateur photographers will begin submitting their pictorial entries on Monday, April 28. This year, there will be two categories—color photos as well as black and white.

Gift certificates and cash awards are planned, and there will be public recognition of the photographic skills of those submitting outstanding entries.

We wish all contestants well in the judging. Keep those snapshots, portraits, still life photographs, action pictures and scenic views coming. The Press-Record and its readers are looking forward to them.

Injunction sought in A. O. Smith picketing

A hearing in U.S. District Court at Alton on a petition for an injunction to restrain members of United Auto Workers local 1715 from picketing the construction entrance to the A.O. Smith auto frames plant is scheduled at 3 p.m. today.

The proceeding it was reported, was initiated by the National Labor Relations Board after the union allegedly ignored an NLRB complaint that instructed the union not to picket the construction gate which is on the east side of the A.O. Smith plant property.

There are three entrance

gates at the plant. All have been picketed by the Auto Workers since 1969. UAW employees at the frames plant went on strike early on Tuesday, April 8, when negotiations for a new working agreement broke down.

The injunction action stems from a charge by the company that the union has created a secondary boycott in violation of the Taft-Hartley Act.

The charge was filed with the NLRB, resulting in the issuance of the complaint by NLRB instructing the union

to withdraw its pickets from the plant gate.

When the pickets were not withdrawn, the NLRB instituted the federal court proceedings, a company spokesman noted.

The strike moved into its 17th day today with no prospects for an early end. Talks in an effort to resolve wage and fringe benefit issues.

The U.S. Mediation Service at St. Louis has entered the dispute and both company and union officials say that any further contract talks will be arranged by the mediators.

Fire is under investigation

The cause of a fire in a vacant house at 2219 Fourteenth St., at 11:21 p.m. Monday is under investigation by firemen and Granite City police detectives.

The fire caused an estimated \$4,000 damage to the building. Evidence indicates the blaze broke out in a small shed attached to the garage and when the shed fell over, it started a wall of the house on fire, officials said.

It has not been determined if the fire was started by natural causes, children smoking in the shed or arson, authorities said.

The four-room frame house is owned by Andrew Mance and was being sold by Re-Max Realty. Firemen fought the blaze for 90 minutes.

MOBILE HOME FIRE
Fire in a mobile home at 2009 Rock Road, caused an estimated \$14,000 damage to the home and \$6,000 damage to the contents Monday evening. The fire was reported at 7:40 p.m. It is believed to have started in the bedroom due to an electrical short-circuit in the wiring. The unit is owned by Martin Conner and Bob Young was the occupant. Firemen were on the scene one hour and 10 minutes.

POM PON AWARDS
The Granite City High School South Dixie Dells Pom Pon squad competed at Lebanon last week against 16 other squads and came home with fourth place and a trophy. The squad was judged on marching and maneuvers, poise and appearance, routine, showmanship and spirit.

VISIT BY TEXANS
Mr. and Mrs. Elmo (Mayola) Brewer of Texas are preparing to visit relatives, Mr. and Mrs. Warren Stevenson of Clinton Drive.

News notes

By a 218-188 vote and then a 219-180 tally Tuesday, the U. S. House approved \$13,300,000 to register four men aged 18 and 19 this summer.

William E. Winter, former Granite City who has been the Seven-Up Co. president and chief executive for the past five years, has been named chairman of the Clayton-based international soft drink company. Edward W. Frantel has been named president and chief executive officer and Gerard J. Martin has been chosen as executive vice-president.

A proposed \$20 million Illinois state loan guarantee to the Chrysler Corp. was rejected by the Illinois House Tuesday in a 75-65 vote against and 75 for the plan.

Illinois Manufacturers, the Chicago-based association of Commerce and Industry and Commonwealth Edison Co. have joined in seeking to overturn an order of the Earthline Corp. toxic waste site at Wilsonville.

Officials at a series of railroad relocation hearings in this metropolitan area estimate that it now takes four days to move some railroad freight cars through the bi-state area.

Expenditure of at least \$500,000 is being planned to dredge and reduce the number of yards and to provide improved facilities at such locations as the Madison-Venice area.

Trinity to view puppet service

Puppets will be featured at the evening worship at Trinity United Methodist Church, East 25th and Henry Streets, Sunday, April 27, at 7 p.m.

The "Haven Bound Kids" from Alton Grace and Elsa United Methodist Churches will be ministering, according to the Rev. Paul Bryant.

This is family night at Trinity. The minister noted that the service will be served afterward and a free will offering will be received, Rev. Bryant added.

Bethesda revival begins April 28

Revival services begin at Bethesda Baptist Church, 3035 Madison Drive, on Monday, April 28, and will continue through May 4, it was announced by Rev. Luther Ables.

Services will begin nightly at 7:30 with Rev. Rudolph Noel preaching.

There will be special music each evening, under the direction of Bill E. Scroggins. Rev. Abbott, pastor of Bethesda, invited the public to attend, it was announced.

Byron defends action of assistant

An assistant to Madison County State's Attorney Nicholas G. Byron was present when an attorney for a man accused of rape attempted a cash payment with the family of the rape victim. Criminal charges against the suspect subsequently were reduced, Byron said yesterday.

The state's attorney told the Press-Record, "I don't know what to think of it. It was a weak case and (Assistant State's Attorney) Keith Jensen was trying to do the right thing. He was well intentioned in everything he did."

A rape charge was filed in September against David A. Weber, 19, Fairmount City, after a 17-year-old Collinsville girl alleged she accepted a cash payment and he took her to a field and raped her.

Byron said the father of the girl, who lives in Fairmount, and told him that former assistant state's attorney Joe Brown, attorney for the father, was with him to discuss a settlement for the family's "emotional stress." Byron said the father and Jensen to join in the meeting.

Denby found guilty of armed violence

A jury in Madison County Circuit Court Tuesday night found Billy B. Denby, 30, of the 2200 block of Nankin Road, guilty of armed violence in the fatal beating of Edward Pence Jr. with a baseball bat at Denby's home Oct. 3.

Mr. Pence, 50, who resided in the 100 block of Central Lane, was a co-worker with Denby at Granite City Steel.

In finding Denby guilty of armed violence, the jury found him guilty of voluntary manslaughter and declared they were unable to reach a unanimous verdict on a murder charge. Associate Judge John W. Day declared the jury deadlocked at 11:45 p.m. Tense on the night charge and accepted the guilty verdict to armed violence.

The verdict followed seven days of testimony. The trial began April 14. Eight men and four women served on the jury.

Denby testified in his own defense and told the jury he had been drinking heavily all day and evening before the incident and recalled nothing about the beating of Pence. Pence, but not killing him.

Denby said he did not recall anything between the time he argued with Mr. Pence and the time he awoke in an apartment he rents in Wood River.

Denby made statements to the Madison County Assistant State's Attorney Stephen Mudge contended Denby did remember the murder and Denby made statements to that effect after the killing.

He noted that Granite City Police Detective Jerry Wilson testified he asked

him "a 'saw' weapon in his pocket."

He then reported chest pains and was taken to the medical center.

Prosecution attorney said the man still is on probation from the theft charges, so his probation officer has been notified of the latest verdict.

The probation officer has requested copies of all documents related to the case and will study them to determine if a petition to revoke the man's probation should be filed with the court, the spokesman said.

The question of the legality of the nominating petitions of Madison Board of Education President Sam Dymas has been withdrawn by Robert Mays, an East St. Louis attorney representing Gary Novich.

Mays wrote Attorney John Papa, who represents the school board, and asked Papa to support a disjunct proposal of the court action initiated by Novich.

A letter, dated April 17, from Papa to Mays said in part, "Your assessment that the issues raised by Mr. Novich's objections are now moot undoubtedly correct. Any judge would be hard

pressed to remove an overwhelmingly elected official from office because of questioning the filing petition irregularities."

"The administration of District 12 has authorized me to accept the dismissal proposal," Papa received from Mays on Wednesday morning an official stipulation for dismissal which Papa will, execute.

Novich alleged that a second list totaling 14 signatures filed prior to the end of the filing period was illegal, and tried unsuccessfully to get a court order taking Dymas off the ballot.

"While I might disagree, perhaps, with (an assistant state's attorney) being around under those circumstances, I would state that Keith certainly was proper in everything he did and was well intentioned in looking out for the interests of the victim's father and the victim and I am satisfied in that regard," the state's attorney added.

Byron said it was an unusual case and his assistants would not normally be involved in such civil negotiations. "I can honestly say it does not happen. This is the only time I know of it happening."

"The father asked Keith to be present. Keith thought he should. He was not a party or a part of those negotiations," Byron stated.

"If (Jensen) chose not to go, he couldn't have kept Joe Brown from going there. There are Supreme Court rulings there," Byron added.

He said he particularly objected to the out-of-court settlements in rape cases, an area where he feels his department has taken a hard line and has prosecuted nearly every

case over and will proceed with it to the sentencing hearing May 9. Then, I will air this matter to the satisfaction of the judge and all parties concerned," Byron added.

Responding to suggestions that Pence may have been killed elsewhere and been put in Denby's home by someone who knew Mr. Pence and Denby, Byron said he was evening and knew Denby would be blamed.

Mudge said the story was "not what we believe" and noted the location of Mr. Pence's murder was not at issue.

The case went to the jury at luncheon Tuesday and the jury deliberated long into the night before declaring the verdict on the murder charge and the guilty verdict on the armed violence charge.

The pre-sentence investigation will be conducted before Denby is sentenced by Judge Day.

He expressed a theory that

a lack of blood around Mr. Pence's body indicated he may have been killed elsewhere and been put in Denby's home by someone who knew Mr. Pence and Denby, Byron said he was evening and knew Denby would be blamed.

Mudge said the story was "not what we believe" and noted the location of Mr. Pence's murder was not at issue.

Chouteau urges action on annexation bill

The Chouteau Town Board of Trustees Monday afternoon drafted a letter to the Illinois Senate Rules Committee members urging them to declare pending legislation which would protect township boundaries as emergency legislation and move it out of committee into the Senate floor.

Senate Bill 1596, sponsored by State Sen. Sam

Air quality forum Monday

Dr. Stephen Hall of SIUE will discuss "What Air Pollution Does to People" and Granite City Air Pollution Control Engineer Paula Case will speak on "Monitoring Air Pollution following a film on 'The Anatomy of Air Pollution' at a community workshop on Quad-City area air quality at 7 p.m. Monday, April 28, at the American Legion Post 113 home, 1825 State St., Granite City.

David Wilson of the Coalition for the Environment will speak on "Federal, State and Local Agencies and Citizens."

David Dowling of United Steelworkers Local 67 will review "Protecting the Urban Workers in the Plant" and President Wallace Weidner of Local 67 will speak on "What Can We Do?"

Sponsor is the East-West Gateway Council in cooperation with the Coalition and the Urban Environment Conference. A grant was provided by the U. S. Environmental Protection Agency. Coffee and doughnuts will be provided during the registration period.

APPLICATIONS SOUGHT

The Madison Police Department has an opening with the job title of dispatcher under the CETA-funded program. Persons interested in applying must go to an Illinois State Job Service office and fill out a Manpower application. There are certain income and employment requirements under CETA programs.

Musical Sunday at Niedringhaus

The choral music drama entitled "Acts" will be presented at Niedringhaus United Methodist Church at 7:30 p.m. Sunday, April 27, it is announced by the Rev. Louis Frick, pastor. The choral music was written by Beryl Red and the book and lyrics by Rangan Courtney and will be presented by the youth from the Main Street United Methodist Church of Alton.

Rev. William Pester is the pastor of the group called "Encounter," which is made up of 52 youth from several churches of the Alton area. This is their eighth annual Christian Musical, Rev. Frick added.

Hospital Notes

Patients admitted to St. Elizabeth Medical Center, include:

Thursday, April 27—Helen Ward, Richard Dale Kendall, Debra Polach, Samuel T. Nickell, Shirley M. Brewen, Anne M. Frick, Rev. Louis Frick, Philip Weaver, Verlyn Vollmer, Bonnie Sullivan, Rose Patrick, Kelly Cleveland, David Noel Alton, Hale, George Wilkerson, Stacy Sullivan, Eva Jacobs, all of Granite City; Mary Beth Collinsville.

Tuesday, April 22—Alex John McKenzie, John Weller Jr., Vivian Allen, all of Granite City; a couple of order taking Dymas off the ballot.

Novich alleged that a second list totaling 14 signatures filed prior to the end of the filing period was illegal, and tried unsuccessfully to get a court order taking Dymas off the ballot.

Public tour of area homes May 4

Homes in downtown Granite City to be featured in the annual House Tour and Fair, sponsored by the Downtown Neighborhood Restoration Society Sunday, May 4, include:

Top left—2250 Cleveland features turn of the century furniture, original woodwork and an oak staircase in the entry hall. Guests will hear pipe organ music and chimes of collector clocks in each room during the tour.

Top center—2139 Cleveland. A 12 room dwelling with ceiling lights, it dates back to the 1890s. Much of the woodwork has been preserved as the Favier family continues the renovation project.

Top right—2230 Cleveland is a nine room home built in the early 1900s and designed with an open staircase and woodburning fireplace in the living room. It has two bathrooms.

Center left—2029 Cleveland. Unique archways, decorative glass, and wood piece flooring in the bedrooms are the focal points of this house built in 1910.

Center right—2226 Benton combines Old World charm and modern conveniences to preserve a bygone era of comfortable living in a house constructed in 1916.

Lower left—2019 Delmar is a California Spanish style house with the original chandeliers in the entry and dining room, brass scones throughout and a Portuguese marble window seat.

Lower right—2122 Edison is an eight room structure. Built in 1934, it houses the Irvin C. Slate Jr. law offices. Decorative molding, wood bookcases on each side of a fireplace and stained glass windows are the main points of interest of the two story building.

Advance tickets are selling for \$2.50 and the cost will be \$3 on the day of the event. The tour is to be held from 1 to 6 p.m.

The annual fair held in conjunction with the tour will be in the Granite City Township Center, 2066 Delmar Ave.

Refreshments, entertainment and craftsmen demonstrating their skills will be among the highlights of the fair.

Ladies Sodality plan events

A float trip and parish picnic were the main topics of discussion of the Ladies Sodality of St. Elizabeth Church, Tuesday evening.

Members met in the school cafeteria with President Pam Ame presiding.

Preceding the business session to school speech team gave a speech presentation for the evening program.

Mrs. Barbara Forsy gave a summary of plans for a float trip planned for June 28 at Reelville, Mo.

Arrangements for a parish picnic at for June 1 was also discussed.

The president noted a women's communion breakfast will be on May 4 and the wives appreciation dinner on May 17.

Mrs. Anne Pare reminded the group of the annual May Fellowship Day luncheon, sponsored by the Church Women United, to be held May 2, at Central Christian Church, 2020 Johnson Road.

The parents attendance prize was awarded to the second grade class of Sister Resella and the madonna prize went to Mrs. Irene Davis. Mrs. Rose Allman received the evening award and Ed Yates the quilt of the month.

Refreshments were served after the meeting and Mary Groboski noted an uniform exchange will be held the last week of school.

Mrs. Epstein is hospitalized

Mrs. Fanny Epstein of Granite City was admitted to Wohl Center of Barnes Hospital, St. Louis, this week to undergo extensive tests.

She cannot have visitors at the present time, according to a family spokesman.

CARRIE LYNN COOK fiancée of George E. Lyons. Their engagement is announced by her parents, George T. Cook Jr., 3111 Colgate Place, and Mrs. Doris M. Hayes, Spring Garden, Mo. An Aug. 23 wedding is planned.

(Courtesy Photo)

Carrie Cook bride-to-be

Plans for an August wedding were revealed with the engagement announcement of Miss Carrie Lynn Cook and George E. Lyons.

The bride-elect is a daughter of George T. Cook Jr., 3111 Colgate Place and Mrs. Doris M. Hayes, Spring Garden, Mo.

Parents of the prospective groom are Mr. and Mrs. Lee R. Lyons, 3283 Westchester Drive.

Miss Cook graduated from Granite City High School South in 1976 and is employed at St. Elizabeth Medical Center as a laboratory technician and computer operator.

Her fiancé works as a mechanic at National Marine in Hartford, Ill. He was graduated from South High School in 1976.

The engaged couple and their families are planning an Aug. 23 wedding to be solemnized at City Temple Assembly of God Church with the Rev. Eugene Cope to officiate.

Shower honors Barbara Sasyk

A surprise personal bridal shower was given for Miss Barbara Sasyk by her bridesmaids, Sunday afternoon, in the home of Mrs. Betty Caple.

Pink and white streamers and bells decorated the Caple residence and an arrangement of pink and white roses centered the table.

After the honoree opened her gifts a luncheon was served and games played.

Guests and hostesses attending were Mesdames Betty Caple, Winnie Sasyk, Barbara Singlar, Barbara Carney, Pat Bielicki, Loretta Rakowski, Debbie Sabo, Debbie Hemmen, Linda Sasyk, Cindy DeHart, Pam Dymas, Alice Huskamp,

Jackie Bosworth, Judy Modrusic.

Also Mesdames Carolyn Warchol, Kathy Rakowski, Yvette Manogian, Holly Dymas, and Loretta Pace.

The bride to be is a daughter of Madison Mayor and Mrs. Mike Sasyk and the prospective groom is a son of Mr. and Mrs. Gene Caple of Fairmont City. They plan to be married on May 9 at St. Mary's Roman Catholic Church in Madison.

New student BAC board member

Incumbents were re-elected but there will be one new face on the Belleville Area College Board of Trustees in 1980.

Curt Eckert, Avery Schermer and Elizabeth Jenner took the oath of office for continued board service last week along with student board representative Martha "Marty" Potter.

Miss Potter is a native of Belleville. Her father, William, is an architect, and her mother, Kathryn, is secretary of the Community Concerts.

The 24-year-old agronomy major plans to transfer to the University of Illinois after graduation. She is a graduate of Belleville East High School and is presently an officer in Phi Theta Kappa.

Eckert, Schermer and Mrs. Jenner won in balloting April 12. The board members are elected at large from the 2,000-square-mile district.

Robert Dintelmann will continue to chair the Belleville Area College board meetings. Dintelmann was re-elected chairman and Jack Becker of Sparta was re-elected vice-chairman at the organizational meeting.

Board meetings have been changed to the third Wednesday of each month at 7 p.m. Prior to this time, the meetings had been scheduled for the third Tuesday at 8 p.m.

The meetings will continue to be held, except when otherwise announced, at the main campus of the college, 2500 Carlyle Road, just outside of Belleville.

Schermer, of Granite City, who made the motion to change the meeting date and time, explained that he and Becker are required to spend considerable time, approximately 45 minutes, driving to the campus. He suggested the earlier time so that he and Becker could get home at a more suitable hour.

Ruth E. Koblinski, Norman Nold and Myra Bohn were re-elected secretary, attorney and treasurer, respectively.

In subsequent action new contracts for eight administrators, apparently awaiting the results of a managerial study contracted recently with the firm of Ernst and Whinney.

Administrators who had been recommended for new contracts were James J. Hines, vice president for administrative services; Robert Eskridge, registrar and director of admissions; Doris Slocum, public information officer; Robert Morris, manager of data processing; Jay Harrington, placement officer and basketball coach; Patricia Talley, assistant director of financial aids; and Lloyd Peterson and Randy Bastian, both systems analysts.

Schermer made a motion for approval of the administrative contracts, but the motion died for lack of a second.

Federal funds have been used up, local funds have been mostly expended, and Belleville Area College is ready to use state funds to complete the final 20 percent of Phase III of the permanent campus, the last stage of the college's building program.

Dr. William R. Keel, BAC president, reported that the architects have projected a July 15-August 1 move-in date for the new facilities, which house a gym and vocational-technical classrooms, laboratories and offices.

The board gave tentative approval to the graduation of 412 students.

Unless they fail some requirement between now and graduation day May 18, 67 Dutchmen will receive associate of arts degrees, 88 will receive associate of science degrees, and 257 will receive associate of applied science degrees.

Schermer, Mrs. Jenner of Mascoutah and Patricia Bartsokas of New Athens will comprise the curriculum and student services committee at BAC.

Budget committee members will be Edward O'Malley of Belleville, Becker, and Eckert of Belleville, Patricia Bart-Curt of Belleville, and Dintelmann will make up the steering committee.

Mrs. Jenner was appointed as delegate to the Illinois Community College Trustees Association and Schermer was appointed alternate delegate.

Some alterations were made in plans for access roads to Highway 161 from the college. The altered plans have allowed the state to manage with less property from BAC than had originally been requested.

A request for 2,149 acres of land at a price of \$30,800 was changed to 1,105 acres for which the college will be paid \$14,630.

The college will also give a temporary easement to the state for entrances and exits to the college off Green Mount Road.

Doctoral degree for earthquake specialist

Richard Kenneth Cardwell, son of Mr. and Mrs. Kenneth B. Cardwell, 3283 Edgewood, Granite City, has completed the requirements for the degree of doctor of philosophy in seismology at the Department of Geological Sciences of Cornell University in Ithaca, New York.

As a graduate research assistant at Cornell, he traveled extensively in Southeast Asia and the Southwest Pacific working on research projects in seismology, marine geophysics, theoretical geophysics, and analysis of satellite imagery.

His dissertation contains the results of several seismological investigations and is entitled "Geometry of the Lithosphere Subducted Beneath the Eastern Indonesian and Philippine Islands, as Determined from the Spatial Distribution of Earthquakes and Focal Mechanism Solutions."

He presently holds the

position of research associate in the same department and is investigating problems of earth structure and earthquake prediction.

He is responsible for maintaining Cornell's program of geophysical instrumentation in the New Hebrides Islands.

He is a member of the American Association for the Advancement of Science, the American Geophysical Union, the Geological Society of America, Sigma X Scientific Research Society, the Seismological Society of America, and the Society of Exploration Geophysicists.

Cardwell was valedictorian of the 1970 class of Granite City High School and received his bachelor of science degree from Northwestern University, Evanston, Ill.

He is married to the former Susan Louise Chamberlain of Evanston. They presently make their home in Ithaca.

Moose initiates 27

Twenty-seven new members were enrolled in Granite City Moose Lodge 272 during a weekend dinner dance, attended by about 200 persons.

District 10 President Fred Mays of the Edwardsville Moose Lodge was the speaker for the evening and brought the ritual team from his home lodge to initiate the new members.

Ritual team members were Batesta Boccalone, orator; Harry Noud, prolate; Henry Lienemann, junior governor; Leo Schlemmer, sergeant-at-arms; Earl Arnold, governor; Bill Hanks, prompter; and John Sabol, floor judge.

New members enrolled into the Granite City lodge

were, William Tester, class representative, Thomas Kiely, Alvia Cape, Danny Tucker, Thomas Skirle, Donald Chandler and Rickiey Betts.

Also, George Reeves, Edmond Earon, David Waynick, Brad Harris, Roger Matyas, Sedric Phillips, Garth Lawson, William Ringhardt, William Bollinger and Donald Smith.

Wade Campbell, Richard Peach, Richard Shelton, Clarence Bringer, Harry Manka, Harold Coy, William Earlin, Clayton Cagle, Robert Cagle and Harry Evans.

Music was provided by the Sun Sets for dancing after the installation.

Mom's morning out classes

A new series of Mom's Morning Out is scheduled to begin Friday at the Tri-City Area YMCA. The program is for pre-schoolers, ages 3 through 5, and meets on Friday mornings from 9:30 to noon.

Christine Slack teaches the class which includes tumbling and exercise, crafts, music, games and a special trip to the library for story hour and a movie. The Y also provides a snack each week.

The cost for the four-week session is \$7.50 for YMCA members and \$12 for non-Y members. To register a child, or for more information, Quad-Cityans may call Lucy Tusth at 876-7200.

Mother's club makes donation

The monthly meeting of the Lincoln Place Mother's Club was held at the Lincoln Place Community Center with sixteen members present. President Irene Goode opened the meeting with a pledge to the flag. Vice-president Josephine

Vangel led the Lord's Prayer. Reports were read by Lennie Lore and Virginia Kittle.

The club approved a \$20 donation to the Special Education fund. Three birthdays were celebrated and gifts were received by honorees Mary Driscoll, Linda Garcia and Rose Schmitt. Refreshments were served by hostesses Marie Boyd and Carmen Breckner. Games were played and prizes were won by Bertha Kichler, Lennie Lore, Marie Driscoll, Josephine Vangel, Rose Schmitt, Rose Merchoff, Carmen Breckner and Rayon Matosian.

The next meeting is scheduled for May 7, it was announced.

Saturday Sr. Club hosts potluck

The Saturday Night Senior pinocle club held an annual spring potluck dinner during the weekend attended by 64 members.

President Mrs. Juanita Crawley opened the gathering with The Lord's Prayer. Table decorations were carried out in a pink and white motif by Mrs. Pauline Canham.

New members welcomed by the president included Helen Free, Evelyn Leu, Emma Steinberg, Bernice Crimmins and Lillian Baumeier. The next meeting will be on May 3 at Anchorage Recreation Center, it was announced.

Walkenbachs name son Jason Curt

Mr. and Mrs. Robert Curt Walkenbach of Granite City, are announcing the birth of their first child, a boy, on Saturday, April 19, at Missouri Baptist Hospital, St. Louis.

The new arrival weighed seven pounds, 10½ ounces and has been named Jason Curt.

Mrs. Walkenbach is the former Christine Antoff, a daughter of Mr. and Mrs. Carl Antoff. Paternal grandparents are Mr. and Mrs. Robert Walkenbach, all of Granite City.

Great-grandparents, all residing in Granite City, include Mrs. Loretta Wyszokil, Mrs. Dorothy Heth, Mrs. Theresa Walkenbach and Mrs. Bertha Bayer.

PAROCHIAL SPELLING BEE top three spellers are, from left: Kathy Juhasz of St. Elizabeth school who earned third place; Dr. J. R. Vasiloff, chairman of the event and State of Illinois District Deputy 69; Michelle Bezan of St. Margaret Mary school holding her first-place trophy, and Christine DeRuntz of St. Elizabeth who earned second place. The top two spellers were presented with a new dictionary by the Granite City Press-Record.

Brother, sister earn fares for Hawaiian trip

Two Granite City youngsters plan a vacation trip in which they will fly to Hawaii on their earnings from delivering the Press-Record newspaper, their mother reported today.

The youngsters are Tammy Hyatt, 12, and her brother, Carl Anderson, 9, both of whom have saved their earnings from delivering the paper.

They already have made their flight reservations and paid for their tickets, Mrs. Peggy Anderson, their mother, said.

The family lives at 2025 Bryan Ave. and the boy and his sister serve the newspaper route in their neighborhood. They plan to fly to Hawaii on Aug. 23.

Troop 12 holds court of honor

Boy Scout Troop 12 sponsored by Nidringhaus School PTA held a spring court of honor last week at the school.

Order of the Arrow members Frank Woods and Jack Taylor presented slides of Camp Sunnen in Polaris, Mo., followed by a question and answer session.

Scoutmaster Don Hagen presented the following patches and awards: Richard Hagen, Billy Sabo, Philip Hagen and Frankie Harrison, Madison County nature trail patches; Ken Boley, Billy Sabo, Richard Hagen and Mike Voss, scout progress awards. Richard Hagen also received a hiking skill award.

Elinda Burrios served refreshments following the award ceremony.

CHILD PROTECTION IN AUTO MISHAPS

A newly-established Child Passenger Protection Program, sponsored by the Illinois Department of Transportation, informs parents through "Child Safety" filmstrips and brochures why children should be restrained and how to properly restrain them in federally-approved car seats.

Susan K. Wilson, R.N., coordinator, said auto accidents are the leading killer of young children. More than 90 percent of fatalities and 60 percent of injuries sustained by children aged 0-5 in motor vehicle crashes could be avoided if the children were restrained at the time of the accident, she said. Funds for the project were made available under the Highway Safety Act of 1966. First-year cost of the statewide project is \$125,000.

UNDERCOATING—RALPH'S TEXACO 22nd & MADISON AVE.

Traveling trophy goes to St. Margaret Mary

The traveling Parochial Spelling Bee trophy has moved from St. Elizabeth school to St. Margaret Mary school as the annual Parochial Spelling Bee sponsored by the Knights of Columbus Tri-City Council No. 1098 had a new overall winner for 1980.

Michelle Bezan from St. Margaret Mary school won first place honors. Christine DeRuntz earned second place and third went to Kathy Juhasz, both girls are from St. Elizabeth school.

Miss Helen Kuensler, chairman of the English department at Granite City High School South, was the announcer. Judges were Edward Gonwa, principal at Lake school, Arthur Mendez,

principal at Mitchell school, and Fred North, principal at Logan school.

Dr. J. R. Vasiloff, chairman of the event, presented first and second place finishers with a new Webster Dictionary, compliments of the Granite City Press-Record.

All students participating received a new silver dollar from the First National Bank in Madison and a Susan B. Anthony dollar from the Granite City Trust and Savings Bank.

After the event refreshments were served by Anne Vasiloff and Barbara Hadley.

Other participants were: Laura DeRuntz, Cheryl LaRue, Mark Gerber, Sharon Brinker, Carol Zarr and Marie Meyer.

Nursing Honor Society charter

The Nursing Honor Society at SIUE has been designated an official chapter of Sigma Theta Tau, national honor society of nursing, with charter ceremonies scheduled May 4 at the university.

Nell Watts, executive officer of Sigma Theta Tau, will conduct the installation ceremony in Meridian Ballroom of the University Center at 6 p.m. Approval for the chapter was granted at the national organization's biennial meeting in November at Seattle, Wash.

Approximately 100 leaders in nursing will be inducted as charter members in the SIUE chapter. Officers to be installed include: Julie Beerup, a senior nursing student Continuing Education Program, president; Betty Walker, SIUE Nursing School continuing education program, vice-president.

Joan Roelichen, senior nursing student from Edwardsville, recording secretary; Barbara McDonnell, associate professor of nursing, corresponding secretary; Lynn Ward, nursing instructor, treasurer; and Martha Welch, assistant professor of nursing, faculty counselor.

Membership in the honor society is by invitation and is extended to undergraduate and graduate students, faculty, and professional nurses who have demonstrated superior scholastic, leadership and nursing achievements. Sigma Theta Tau has over 45,000 members in 128 chapters at colleges and universities throughout the nation.

A reception will be held in Goshen Lounge of the University Center following the installation ceremony.

16 marriages dissolved

Sixteen Quad City area couples have had their marriages dissolved in Madison County Circuit Court. Dissolution of marriage judgments, with the husbands named first, were granted to:

Vernon Leroy Patrick and Rebecca Davis Patrick (Painter), both of Granite City. They were married Nov. 6, 1976.

William Gary Shemonia of Madison and Cathy Lynn Shemonia (Munoz) of Granite City. They were married Jan. 12, 1979.

Glenn Lee Kohler and Angela Marie Kohler (Thaxton), both of Granite City. They were married Dec. 12, 1969.

Louis Washington Cobb Jr. of Granite City and Billie Ruth Cobb (Carter) of Albuquerque, N.M. They were married Aug. 4, 1950.

Charles Wesley Hardin and Margaret Louise Hardin (White), both of Granite City. They were married Nov. 30, 1979.

Danny Joe Dawson and Wynona Jean Dawson (Flaughner), both of Granite City. They were married Feb. 26, 1971.

Harold Ray Chandler and Norma Jean Chandler (Young), both of Granite City. They were married Oct. 28, 1978.

Rector L. Bolin and Denise Bolin (McClelland), both of Granite City. They were married Sept. 25, 1976.

William Henry Clark of Venice and Debra Ann Clark (Hawthorne) of Madison. They were married Oct. 30, 1972.

Dale F. Stogsdill and Maria C. Stogsdill (Castillo), both of Granite City. They were married Aug. 31, 1975.

Wayne G. Clark of Granite City and Doris J. Clark (Harned) of Alton. They were married Aug. 28, 1973.

Larry Cecil Tankley and Flavil Katherine Tankley (Huddleston), both of Granite City. They were married Dec. 6, 1969.

Mack Granger Jr. of East St. Louis and Linda E. Granger (Anderson) of Madison. They were married Dec. 20, 1977.

Charles Walter Reynolds of Maryville and Alma Imogene Reynolds (Simmons) of Ponton Beach. They were married June 29, 1958.

Aaron Phillip Graham of Mitchell and Cynthia Maria Graham (Cagle) of Granite City. They were married Jan. 20, 1978.

HEADY WORK. Granite City North's Mike Robertson (left) found the way from second

Robertson, however, stole the base successfully and later scored one of seven runs the Steelers got

in the third inning of their 8-3 win.

(Photo Record Photos by Pete Hayes)

Steeler pitchers combine for one-hitter

By KEVIN ALLEN
of the Press-Record
EAST ST. LOUIS — Granite City North's relief pitcher Bob Ford had a big smile on his face as he returned to the bench from the mound and looked for the Steeler pitcher he had replaced.

"Rich, Rich buddy," he called as he spotted North's starter Rich Takmajian sitting near the end of the

bench. "Hey, I'm sorry," Ford said.

"Don't worry, Rich," North coach Bob Stegemeier said. "We'll be sure and put an asterisk in the scorebook saying that an outfielder pitched the last two innings."

The topic in discussion was North's 11-0 romp over Assumption High yesterday at East St. Louis. The conversation centered around

Takmajian because the junior righthander had left the game in favor of Ford after pitching three perfect innings. In the Assumption fourth

inning, leftfielder Kevin Jones led off with the "Pioneers' first hit of the game, a grounder that rolled up the middle off of reliever Ford.

Still, the no-hitter was gone. But Takmajian seemed unbothered. "Don't worry about it," he said with a shrug. "It's no big deal. Takmajian really threw well." Stegemeier said. "But we still haven't quite got our pitching straightened out. Bob (Ford) hadn't thrown for quite a while so we decided to give him some work."

"They got the hit off him, but it was a legitimate hit and then he came on and did well. Nobody was hurt."

(Continued on Page 25)

Press-Record Sports

GRANITE CITY (ILL.) PRESS-RECORD, Thursday, April 24, 1980—23

HEAD-TO-HEAD. Granite City South's Scott Abbott (left) and Granite North's Tim Rozycki go at it Tuesday in the finals of the 110

meter high hurdles in the Madison County Meet held at SIU-Edwardsville's Cougar Field.

(Photo Record Photos by Pete Hayes)

Alton, Wood River MadCo' meet champs

By PETE HAYES
Sports Editor
of the Press-Record
EDWARDSVILLE — It was the same old story here Tuesday at the running of the annual Madison County Track Meet for large schools (1200 enrollment or over).

In a word, Alton. Alton High's depth in the sprinting events was simply too much for the rest of the field and the Redbirds won their 10th consecutive MadCo Meet handily. Alton finished with 122 points, followed by Granite City South's 76, Granite City North's 42, Edwardsville 32 and Collinsville 18.

In the large school girls meet, Edwardsville was the easy winner. The Tigers finished with 84 points, followed by Collinsville 68, Alton 41, Granite City South 36 and New Athens 23. Alton won 12 events in the boys meet, including a clean

sweep in the relays. Granite City South had the talent to win, but in as large a number as Alton. "There's no doubt we had the quality," said South coach Mel Bunting. "But Alton just ran exceptionally well all day. They just had more depth in the sprints and that's what killed us."

South won five events, meaning that no other school besides it and Alton had any firsts. Four of the five wins by South's Warriors were taken by two people. Distance runner Dave Houston won both the 3200 and 1000 meter runs and teammate Steve Adams was any easy winner in the pole vault and a surprise winner in the 300 meter low hurdles.

"Steve (Adams) did a tremendous job," said Bunting. "I don't think there's anybody in the county who can touch him in the pole vault. But he worked

hard at the hurdles, too." Houston's win in the mile (1600 meters) run wasn't easy. He and the rest of the pack trailed front-runner Ermy of Collinsville all but the last five yards of the race, by as much as 100 yards. But Houston put on a tremendous kick and caught the Collinsville runner just before the finish line.

The North 800 meter relay team finished second to Alton, as did the Steelers' 400 meter relay squad. Kevin Buchanan of North was a close second to Dennis of Alton in the finals of the 200 meter run and finished fourth in the 100.

North had two placers in the pole vault. Behind South's Fizer, who was second, were Steelers Meyer and Mike Robinson. North's Mike York was a strong second in both the high jump and triple jump. In the high jump, York,

South's Kevin Greene and Alton's Miller each jumped 6'3".

SMALL SCHOOLS BETHALTO — In the Madison County Meet for boys teams from small schools, a new champion was crowned. Wood River finished with 77 points, followed by Bethalto and Highland with 55 each. Madison with 47, Roxana 42 and Triad 17.

In the girls meet, Highland finished with 85 points, Madison 63, Wood River 42, Triad 45, Roxana 16. In the boys meet, Madison had two double winners in Charles Dixon and Troy Butler. Dixon won the 100 meter dash (11.4) and the long jump (20-3/4). Butler, one of the premier track athletes in the area, was the winner of the triple jump and the 200 meter dash. Dixon was second in the 200.

New Athens over GC

NEW ATHENS — A problem that has bothered Granite City South's youthful Warrior baseball team once again cropped up in South's 7-5 loss to New Athens Tuesday.

New Athens scored four of its seven runs in the first inning without hitting the ball past the infield.

Seven walks in the first two innings by Warrior starting pitcher Randy Cann and costly errors by the South defense allowed New Athens to make the most of the situation and the Warriors found themselves down early and unable to successfully come back.

"We've been able to score runs all year," South coach Babe Champion said. "And our defense has been pretty steady. It's just that when the other team hits a lot of balls with a young team you're bound to make some errors."

"Nobody on the New Athens squad had more than one hit in the game. Instead, New Athens took advantage of seven widely distributed hits and two Warrior errors to score two more runs in the second and another in the sixth.

One of those errors cost the Warriors a run in the sixth as Tom McGowan dropped the

ball on while attempting to tag a New Athens runner at the plate.

But South can't complain too loudly about errors. The Warriors were the recipients of five by New Athens.

Added to South's 10 hits and one New Athens' walk, that made a total of only five runs produced from 18 batters.

"We haven't been real strong with runners on

base," Champion said. "We left 13 on, but then again we should have had enough runs to win."

Timely hitting did come from some of the Warriors. Kevin Sykes had two hits and drove in a run as did Hondo Ambuhl.

Cougars sweep two from UMSL

ST. LOUIS — The SIU-Edwardsville Cougars swept a baseball doubleheader here Wednesday from arch-rival Missouri-St. Louis, winning the first game 9-7 and taking the nightcap 7-6. It marked the first time in five years that SIU-E had swept a twinnish from the Rivermen and also the first time in five years that the Cougars have had the edge in a season series with UMSL. Saturday, the Cougars will host Missouri Baptist at 1 p.m. (following a prep game between Granite North and Collinsville). Sunday, they travel to Carbondale for a doubleheader with the powerful SIU-C Salukis.

with two men on base, in the sixth inning. He was 2-4 on the day. Tom Burg from Collinsville went 3-3 at the plate.

In the second game, SIU-E's Greg Vogel had a triple and two RBI. It was his ninth triple of the season, a school record.

Today, SIU-E was to play at St. Louis University. Saturday, the Cougars will host Missouri Baptist at 1 p.m. (following a prep game between Granite North and Collinsville). Sunday, they travel to Carbondale for a doubleheader with the powerful SIU-C Salukis.

North rips Mater Dei

By TOM SCHOCKER
for the Press-Record
GRANITE CITY — If the Granite City North Steelers were given just one inning to score, runs they would probably make good use of it. If you would like to know how to produce a big outburst of rallies, just ask them.

These two statements most always interlock in some way or another with the Steelers. For example, it took the crew of head coach Bob Stegemeier just one inning to score enough runs to win its contest against Breese Mater Dei Tuesday. Burning the Knights pitching staff for seven earned runs in the third inning of play, North went on to win its seventh game in a row, 8-3, bringing its season mark up to 10-4.

Coming off an identical 8-3 victory over Cahokia the day before, North took the field

But as in the Cahokia game, the run production was not readily found in the opening few innings. Facing a smoke screen, the Steelers were forced to take goose eggs through two frames.

But as it did against Cahokia, North put together an inning that took care of itself for the remainder of the game. Consecutive base hits up the middle which produced RBI's from Bob Batey, Bob Ford and Dan Patterson along with good base running proved to be the ticket in the third. Sending 11 men to the plate, North banged out five hits, scoring seven times. "We've got something going now," said Stegemeier. "I'm glad to see that they can punch out seven runs in one inning. We're getting timely hits up and down the lineup. I just

hope we can keep it up."

The Steelers added an insurance run in the sixth inning on a sacrifice fly RBI from Dennis Page. Even though the ball was caught by the second baseman, Mike Robertson tagged from third base and was determined to score. The fielder bobbled the ball and the play at home was not as close as it should have been.

Robertson's aggressiveness was also noted on the field where his expertise with a glove was at its best. For example, in the third inning a fly ball was hit in his area but falling foul and out of play. Staying with the ball, he caught it over his head, while sliding into the foul fence and ended up with one foot under the fence.

If that didn't prove gutsy enough, on the very next play a sharp grounder was hit to the bag at third.

Snatching it, Robertson gunned the ball over the infield, throwing a strike to first baseman Page, nailing the runner by two steps.

Paired with Batey at short, the Steelers left side of the infield looked solid. Batey's efforts with the glove have been valuable and his performance at the plate has been torture on the opposing pitchers. Against Mater Dei, Batey went two-for-two with an RBI. "Aren't they two heck of a ball players?" asked Stegemeier. "They do some kind of job."

The North defense was an asset in the game. Starting pitcher Keith Burton, after a slow beginning, gave the knights nothing whatsoever to hit. Leading the bases in the first inning, Burton helped his own cause, throwing a runner out at home and striking out the final batter.

South, Tigers split

By TOM SCHOCKER
for the Press-Record
GRANITE CITY — When Granite City South and Edwardsville locked horns in a two-night doubleheader at South field Monday, who would have thought a combined effort would produce 32 runs and 33 hits? A regular slugfest, right? Almost.

Although the two clubs banged the ball around enough times to put the Wilson company out of business, errors upstaged the entire night's activities. The Warriors did all they

could in both games to win, scoring more runs 17-16, and knocking out more hits 19-15. But, unfortunately, they committed more errors — 13-9 to be exact — which gained them a split in the twin bill.

Edwardsville made good use of three Warrior errors in game one to slip past South 8-7 in a Gateway Conference clash. But an error-filled nightcap saw South pull even with a 10-8 triumph despite 18 bobbles plaguing the contest.

Facing the conference leading (3-0) Tigers, South

needed a strong performance on the mound and at the plate in order to put itself into a somewhat respectable range from the league title. The chances were there for the Warriors but Lady Luck just didn't smile kindly on them.

Through two frames it didn't look like either club wanted to score. But it only took the Tigers two innings to put a stop to that.

Breaking open the no-hit, no-run game, Edwardsville got back-to-back singles to open the third inning enroute to a three-run outburst.

South, not to be outdone, came back with a hat trick of its own, but the first of its unfortunate casualties hit like a ton of bricks. The momentum still riding, South loaded the bases and threatened for a big inning and the lead with just one out. But a smash liner off the bat of designated hitter John Vrenick was shagged by the Edwardsville second baseman and was turned

into a 4-6-3 double play to end the frame.

Dropping its conference mark to 0-3 South and Edwardsville battled the second contest under the lights for overall records and if there is a record for most errors in one game, the vote has been cast. "It was a comedy of errors," said Tiger head coach Bill Funkhouser. "If you call it a circus, put a tent on it. There were too many errors by both clubs."

Shutting down the Tigers through the final four innings, allowing one run and one hit, pitcher Rick Daily's accomplishments were most significant at the plate. "He had the opportunity," said Warrior head coach Babe Champion, "and he did the job. I'll tell you one thing, he really came to play."

Daily's first opportunity came in the fifth inning. Down 8-7 with a runner on first he connected for an RBI single to tie the score.

Comentary

Cripps is a stopper

By KEVIN ALLEN
of the Press-Record
GRANITE CITY — In the game of journalism I made the error that lost the game.

In a story that appeared in Monday's Press-Record, I wrote that Greg Faulkner of Granite City North had pitched a three-hit, 11-strike-out, complete game in North's 2-0 victory over Granite City South Saturday night.

That was wrong. Kevin Cripps actually turned in that sparkling pitching performance for the Steelers. I made a mistake, committed an oversight. I stand corrected.

Now, about Kevin Cripps. Occasionally, there are times when an athlete performs and all the things that make up his particular sport fall into place.

If that athlete happens to be a baseball pitcher his fastball will be its fastest. His curve will break off just so. His change-up will keep hitters swinging at air. And through it all, the pitcher won't even have to think about much other than getting the ball and throwing.

That's what happened to Kevin Cripps against Granite City South Saturday night. "Everyone kept telling me how good velocity I had on my pitches," Cripps said. "I don't know what it was. I just felt good."

Whatever it was, the 6-foot, 175-lbs. senior had the Warriors mystified through most of the final game of the South Tournament.

Cripps pitched seven innings of three-hit, 11-strike-out baseball, and led his team to a 2-0 win. South threatened late in the game, when Cripps tired and put Warrior runners on base with walks, but even then Cripps was able to reach back and preserve the shutout.

"I felt really good after

KEVIN CRIPPS

the game," Cripps said. "It was probably the best thing I've ever done in sports."

For Cripps that would mean outdoing his performances on the North basketball team and his past years on the baseball squad.

But this is his senior year and those were the rivals of all rivals — South. "I just couldn't

wait until I got to pitch again."

Cripps might not have to wait long at all before he's in position to repeat the whole thing. Tonight, the Steelers take on South in a double header at South, and one of the starting pitchers for North will probably be Cripps.

"They told me that last year someone did the same thing — had a great

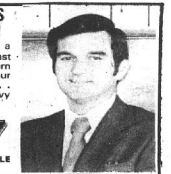

game against them (South) in the tournament and then came back a few days later and got bombed. I hope that doesn't happen this time."

Judging from the statistics, Cripps has completed this season, that seems unlikely. In 20 and a third innings he has allowed only two earned runs, and struck out 22 batters for a 0.68 earned run average.

GC kickers vying for title

CHICAGO — Two Granite City soccer clubs will be vying for the state championship here Saturday and Sunday in the playoffs for the prestigious MacGuire Cup.

The Granite City Soccer Club, made up mostly of players from Granite City South High, and the Granite City Football Club, made up of many GCHS North

players, will travel to Chicago to face two northern Illinois teams in the semifinals Saturday. If both Granite City teams win, it would mean they would face each other for the state championship Sunday afternoon.

The Granite City Soccer Club will play the Chicago Kickers Saturday at 1 p.m.

At 3 p.m., the Granite City Football Club will face the Green-White Team from Chicago.

The losers will play Sunday at 11 a.m. for third place, with the winners facing each other at 1 p.m. for the state championship.

The eventual state champion will advance to the Regional Tournament. If

either one of the Granite City teams should win the title, the first regional game would be played in Alton, with the date and times to be set later.

There will be four regional tournaments, each involving 14 state champions. The four regional winners will meet at the National Tournament June 21 and 22 in Omaha.

In addition to the players from Granite City on the two teams, there are also players from Collinsville, East St. Louis, Assumption, Alton and Belleville West.

Venice outlasts Lovejoy

VENICE — The Venice High baseball team won its second straight game here Monday, but it didn't come easy. But it looked as if it might be a breather for the Red Devils early.

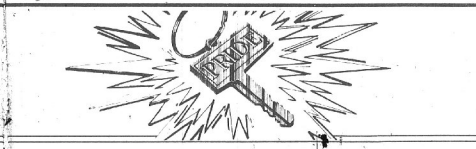

Venice outlasted Lovejoy (Brooklyn) High 19-13 in a game that was anything but picture-perfect.

Venice jumped on Lovejoy pitcher Don Riley for 13 runs in the first inning and appeared to be sailing for an easy five-inning, ten-run rule victory.

Venice scored five more times in the third inning and led 18-3 going into the top of the fifth. All the Red Devils had to do was hold the Wildcatters to five runs or less and the game would be over. But Lovejoy came up with ten runs in the inning, forcing the game into the regular seven innings.

Venice scored a run in the fifth and Lovejoy followed with one in the seventh. James Cox was the winning pitcher for Venice. He and catcher Keith Marchbanks went all the way.

Archie Gardner was the hitting star for the Devils. He was 2-for-2 at the plate and scored twice. Cox was 2-for-3 and scored four times. Watts was 1-for-2 and scored three runs.

South netters win

GRANITE CITY — The Granite City South boys tennis team defeated Edwardsville 4-3 here Monday in a Gateway East Conference dual meet.

The South duo of Don Cogut and Pat Theris beat Edwardsville's John Hatfield and Dave Shaw 6-2, 6-2 in the final doubles match of the day, clinching the Warriors' victory.

In other doubles action, Edwardsville's Jeff Dadeck and Kent Shaw beat Ed Schmulbach and Terry Malench 6-3, 6-2 and South's team of George Sykes and John Menendez beat Tim Mackie and Ken Weber 6-2, 7-6.

In singles action, Dadeck beat defeated Schmulbach 6-3, 6-1; Tom Longos of South dominated Mackie 6-2, 6-2; Kent Shaw beat George Sykes of Gibson, 9-5, 6-3, and Menendez defeated Dale Oberlo 6-2, 4-6, 6-2.

NEW DUTCHMEN. Venice basketball standouts Donald Gardner (top) and Kevin Wigfall sign Junior College Letters of Intent Monday at Venice High. Watching on are Belleville Area College coach Jay Harrington (in suit), Venice coach Ken Perkins and (in top photo) Gardner's mother, Mrs. Venus Gardner. In the bottom photo, Mrs. Beatrice Wigfall.

BAC signs 2 Devils

VENICE — Belleville Area College basketball coach Jay Harrington was in Venice Monday to sign his first two recruits for next season. And he feels he got two of the best small school players in the area.

Harrington and Venice head coach Ken Perkins watched as Donald Gardner and Kevin Wigfall inked junior college letters of intent to play for BAC's

Dutchmen next winter. The two players' mothers, Mrs. Venus Gardner and Mrs. Beatrice Wigfall, also signed the letters.

"I think Don is one of the best players we'll sign," said Harrington. "And Wigfall has a lot of potential. I think they'll both fit in well with our program at BAC. They've come from a fine school with a great tradition and have had good coaching

at Venice." Gardner was a four-year starter at Venice High and led his team in scoring his sophomore and senior years. Wigfall came into his own this season as a regular after being a sixth man substitute last season. Gardner averaged 20 points per game this season and scored over 1400 career points at Venice. Wigfall averaged 15 points per game this season.

Gardner, Wigfall Page are WIBV stars

BELLEVILLE — Three Quad City prep basketball players were named here Monday evening to the WIBV Southwestern Illinois All-Star teams at a meeting of the Belleville-based radio station's selection committee.

Donald Gardner and Kevin Wigfall of Venice were named to the Class A squad and Dennis Page of Granite City North was named as a Class AA alternate.

The fourth annual WIBV All-Star game pitting the best Class A stars from this area against the Class AA stars will be held Friday, May 16 at 7:30 p.m. in the Belleville Althoff gymnasium.

From the Southwestern Illinois game, a team will be selected to face the Missouri All-Stars in the annual Illinois-Missouri Game, to be played May 21 at 8:30 p.m. in the Collinsville High School Gymnasium. An Illinois-Missouri girls all-star game will be played at 7 p.m.

PONDEROSA'S PLAYER OF THE WEEK

What a kick!

The Scene: The annual Madison County Track Meet. The Place: St. Edwardsville's Cougar Field.

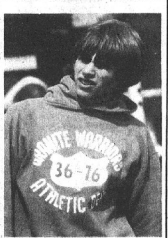

The Event: The finals of the 1600 meter (mile) run.

The race started out as if to be a runaway. Collinsville's Dave Eaddy got out to a quick lead. He added to it. And added to it.

Eaddy's lead seemed insurmountable. The young Kabok runner had a lead of over 100 yards with just a lap and a half to go in the race. Way back in the pack were two other standout distance runners, Chappel of Alton and Houston of Granite City South.

Houston had earlier won the finals of the 3200 meter run. But his chances at being a double winner looked dim at best late in the 1600 event.

But with his familiar steady, long strides, Houston didn't give up. He kept coming.

DAVE HOUSTON

But even going into the third lap on the last lap, it looked as if Eaddy might have enough left to keep the lead. But Houston kept coming.

With a tremendous kick, Houston caught and passed Eaddy with about five yards left in the race for the victory. It was one of the most exciting finishes to a race in the history of the Madison County Meet.

For his double win, Houston has been selected as this week's Ponderosa — Press-Record Player of the Week.

GC boxers to state tourney

GRANITE CITY — Two members of the Mexican Honorary Commission Boxing Club of Granite City will take part in the Junior

Olympics State Tournament this weekend in Springfield. Richard Mendoza, a 75-pounder, will box in the 12-13 year old Intermediate Class. His teammate, Greg Gibson, will box in the 14-15 year old group. He is a 95-pounder.

The competition will take place Saturday at the Springfield Boys' Boxing Club. Winners of each age group will advance to the National Tournament in May.

Next Monday, five members of the MHC Boxing Club will participate in regular monthly card sponsored by the Belleville Boxing Club at the St. Clair Fairground Exposition Hall south of Belleville. The five Granite City boxers will be Gibson, 95 pounds; Timmerman, 64; forward-guard, Wesclin. ALTERNATES: Scott Bridges, 61; forward-guard, Jerry Henrichs, 62; forward, Breese Mater Dei; Acie Fields, 65; forward, Assumption.

CLASS AA
 Dan Allaria, 62; guard, Edwardsville; Bill Mosler, 68; center, Collinsville; Mark Campbell, 61; guard, Collinsville; Tom Chlarelli, 64; forward, Cahokia; Jerry Smith, 61; guard, Alton; Troy Washpun, 510; guard, Alton; Chuck Williams, 62; forward, Alton; Bruce Higgins, 62; guard-forward; Wood River; Victor Scott, 61; guard, East St. Louis; Kent Knebelkamp, 64; forward-center, Belleville East; Kris Jenner, 66; forward, Mascoutah; James Douglas, 68; center, East St. Louis. ALTERNATES: Dennis Page, 61; forward-guard, Granite City North; Steve Frey, Jerseyville; LaMont Robinson, 62; guard, East St. Louis.

CLASS A
 The rest of the Class A squad includes: Mansel Carter, 68; center, East St. Louis.

CLASS A
 Stacy Adair, Alton; Dee Dee Plab, Mascoutah; Debra Thurston, East St. Louis; Lincoln; Jackie Joyner, Lincoln; Barbara Gilmore, Lincoln; Kim Whalen, East St. Louis; Leanne Peoples, East St. Louis; Kim Brombolich, Collinsville; Missy Jones, Collinsville; Theresa Davidson, O'Fallon; Ruth Gareen, Belleville West. ALTERNATES: Veronica Williams, Madison; Debra Hall; Mary Nuber.

 ON LABOR TIME ON ANY REPAIRS DONE IN OUR SERVICE DEPARTMENT BETWEEN MAY 1 AND MAY 31, 1980.
 COUPON MUST ACCOMPANY SERVICE ORDER

Grading, cofferdam proceeding; dam contract in July 1981

Facts on the Lock and Dam replacement project here follow.

1. Basic Need for the Project.

Locks and Dam No. 26 were placed in operation in 1938. The existing facility consists of a dam and two locks 600x110 feet and 360x110 feet. The facility provides for the year-round movement of barge traffic in the Mississippi River and Illinois Waterway.

A new 1,200-foot lock is needed to accommodate navigation. In addition, the structure has experienced physical deterioration.

2. Inadequate Locking Capacity.

The old structure also has a lack of capacity to accommodate the growing traffic on the river.

Since the opening of the nine-foot waterway in the 1880s, tonnage has increased dramatically in the middle Mississippi River.

Traffic projections indicate that traffic demand will exceed the maximum annual locking capacity of the existing locks, which is estimated to be 73 million tons.

This maximum locking capacity is considered very liberal because it assumes commercial vessels arriving waiting in queue for lockage and locked through as rapidly as existing facilities and operational efficiencies permit.

At maximum capacity, it is estimated that on the average, lockage waiting time at the old locks will be in excess of 12 hours.

Approximately 62 million tons of bulk commodities, principally grain, petroleum, chemicals and coal, moved through the locks in 1978.

The locks cause a costly bottleneck for the tonnage

passing through, which had an approximate value of over eight billion dollars.

3. Physical Deterioration.

The structure has a history of excessive deflections, settlements, underseepage, and loss of foundation material.

Investigations have indicated the structure is in poor condition and that, in addition to immediate major repairs, additional expensive maintenance could be expected on a continuing and growing basis.

Major repairs approaching \$10 million have either been made or have been planned for the structure. This repair work is intended to provide a high probability of maintaining navigation for the next eight to 10 years.

In effect, these actions are "patch-work" repairs to provide at least an acceptable risk by lowering the probability of a major failure.

These repair programs will not remedy the fundamental weakness of the dam and lock foundations, evidenced by excessive deflection and settlement.

Only major rehabilitation or replacement will correct these serious problems. All studies to date have shown that replacement is more economical than rehabilitating the old structure.

4. Authorization.

Public Law 95-502 (an amendment to the Federal Revenue Code of 1954) Title 1, Oct. 21, 1978, authorized the replacement of Locks and Dam No. 26 in the Upper Mississippi River System Comprehensive Master Management Plan.

A Replacement Project. The following is an excerpt

from Title I of the law in dictating the requirements of authorization.

(1) The lock and dam authorized pursuant to Section 102 shall be designed and constructed to provide for possible future expansion.

"All other construction activities initiated by the secretary of the Army on the Upper Mississippi River north of Cairo, Ill., and on the Illinois River north of Grafton, Ill., shall be initiated only in accordance with the guidelines set forth in the master plan.

Section 102.

"(a) The secretary of the Army, acting through the chief of Engineers, is authorized to replace Locks and Dam No. 26, Mississippi River, Alton, Ill., and Missouri, by constructing a new dam and a single, one-hundred-and-ten-foot by one-thousand-and-two-hundred-foot lock at a location approximately two miles downstream from the existing dam, substantially in accordance with the recommendations of the chief of Engineers in his report on such project dated July 31, 1976, at an estimated cost of \$421,000,000.

"(b) The secretary of the Army, acting through the chief of Engineers, is authorized to replace, at federal expense as a part of project costs authorized in subsection (a), the existing wildlife habitat inundated as a result of the construction of the project on an acre-for-acre basis in the respective states of Missouri and Illinois and to manage such lands as are thus acquired by the secretary for wildlife protection purposes.

"The secretary is further authorized to provide authorized recreation development on or in the vicinity of Ellis Island, Mo., that requires no separate project lands and includes facilities such as roads, parking lots, walks, picnic areas, a boat launching ramp and a beach, at an estimated cost of \$4,000,000 to be cost-shared with the state of Missouri and administered in accordance with the provisions of the Federal Water Project Recreation Act and under the independent authority of the navigation feature of the project.

"The project depth of the channel above Cairo, Ill., on the Mississippi River shall not exceed nine feet, and neither the secretary of the Army nor any other

federal official shall study the feasibility of deepening the navigation channels in the Minnesota River, Minnesota; Black River, Wisconsin; Saint Croix River, Minnesota and Wisconsin; the Mississippi River north of Cairo, Ill., the Kaskaskia River in Illinois; and the Illinois River and Waterway, Illinois, unless specifically authorized by an act of Congress enacted after the date of enactment of the act."

b. Master Plan.

The Upper Mississippi River Basin Commission was authorized also by Title I of the law to prepare a "comprehensive master plan for the Upper Mississippi River System in cooperation with the appropriate federal, state, and local officials."

(1) Environmental Studies.

The master plan shall determine the ecological impacts of:

—Expansion of navigation capacity.

—Present O & M procedures.

—Measures to minimize damage.

—A second lock at Alton, Ill.

(2) Economic Studies.

The master plan shall also study the expansion of navigation to determine:

—The relationship to national transportation policy.

—The effects on railroads and shippers.

—Transportation costs and benefits.

The economic need for a second lock at Alton, Ill.

3. Replacement Structure.

Dam — The dam will have a total of nine gates, seven on the Missouri side of the lock and two on the Illinois side.

The gates will be 110 feet wide by 42 feet high, making them the largest in the U.S. The structure will be located two miles downstream of the existing facility.

Lock — The lock will be 110 feet wide by 1,200 feet long. The top of the lock walls will be elevation 434.5 (m.s.l.) and the maximum regulated

pool and minimum tailwater will remain elevations 419 and 395, respectively.

The lock floor will be 21 feet below minimum tailwater to provide a satisfactory water cushion for floating and emptying the lock with nine-foot draft navigation.

4. Litigation.

Lawsuits were filed in the U.S. District Court for the District of Columbia on Aug. 6, 1974, by the Isaac Walton League of America, the Sierra Club and 21 railroads, to halt the construction of the replacement project by the Corps of Engineers.

Following a hearing, the court issued a preliminary injunction on Sept. 5, 1974, preventing any action in furtherance of the project; pending a trial on the merits.

At issue was the question of appropriate authority and sufficiency of the environmental statement.

On Oct. 21, 1978, the president signed Public Law 95-502 authorizing a replacement project two miles downstream with one

1,200-foot lock.

The trial on the adequacy of the environmental statement began on Sept. 10, 1979, and lasted five days.

The court's opinion was issued on Oct. 23, 1979, ruling that the environmental statement was adequate, thus clearing the way for construction.

The ruling, however, has been appealed in the U.S. Court of Appeals for the District of Columbia Circuit.

The project will take about 10 years to construct, but the lock could be put into operation after eight years.

Two construction contracts were initiated in 1979, the Illinois bank grading and the first-stage cofferdam.

The Illinois bank grading contract will consist of cutting back the Illinois bank and placing stone protection on it.

This work is necessary to provide more flow area for the river during construction and to protect the bank from scour.

This contract was awarded

on Oct. 25, 1978, to Bernard McMenamy Contractor, Inc., of St. Charles, Mo., for \$7,275,000 and is expected to be completed in 11 months.

The first-stage cofferdam will be constructed to allow the dam to be constructed in the dry. The cofferdam is a temporary structure consisting of sand-filled, steel sheet pile walls placed in a blanket placed on the Missouri bank.

This contract was awarded on Dec. 14, 1979, to J. S. Alberici Construction Company, Inc., and Lahr Brothers, Inc. for \$41,718,641.

The cofferdam is scheduled for completion in 10 months.

As of March 25, 1980, the work on the Illinois bank grading was 23 percent complete and the work on the cofferdam was 12 percent complete.

The next major contract was the first stage of the dam, scheduled for award in July 1981.

Fuller will outline path to survival

"Survival" will be the theme of a talk by R. Buckminster Fuller on Saturday at 3 p.m. at the Mary Brown Community Center, 1500 Piggott East St. Louis.

His talk and a discussion of design science at Southern Illinois University, he will be honored during the meeting and presentation of a proclamation signed by Governor Thompson, declaring Saturday to be Buckminster Fuller Day in Illinois.

Dr. Fuller, inventor of the geodesic dome and consultant to government, industry and citizens, has been recognized for the use of alternate fuels.

He believes that "we must provide our needs by natural renewable resources: sun, wind, rain. To do this, man must live in environmental conditions that conserve and properly use energy."

An example is the domed "city within a city" which he envisions for the East St. Louis riverfront, known as the "Old Man River Project."

In his presentation he will highlight recent progress and report on a city in New Hampshire which is preparing to move all of its residences under a domed structure as their permanent environment.

Dr. Fuller 40 years ago forecast commercial use of long-distance aircraft flying over-the-Pole routes, and conversion to alcohol to power motor vehicles.

Today he contends that in order "for the species to survive" 25 percent of the total world's population must live in domed structures by the year 2030.

A former professor of design science at Southern Illinois University, he will be honored during the meeting and presentation of a proclamation signed by Governor Thompson, declaring Saturday to be Buckminster Fuller Day in Illinois.

The proclamation recognizes his "lifelong crusade for conservation of natural resources and, in particular, his unselfish efforts to develop the Old Man River Project."

Auto union says 1983 truck plant planning too slow

Uncertainty continued this week on a new Datsun truck assembly plant. The Nissan Motor Company announced April 17 that it will start producing Datsun pickup trucks in the U.S. in 1983.

The Auto Workers union believes an earlier completion date should be planned for the new plant. Nissan, second largest automaker in Japan, said the \$300 million plant will be located either in the Great Lakes region or in the Southeast. There had been speculation that the firm would pick one of two local sites of more than 400 acres in the vicinity of Interstate 270 and Highway Three.

The new plant will employ 2,500 auto workers and produce trucks at a rate of 10,000 a month, the number Datsun currently exports to the U.S.

Its operations will range from stamping to frame welding, body assembly, painting and final assembly. State government officials voiced optimism April 18 that the truck plant will be built in Illinois.

Little Hustler Datsun pickup trucks will be produced, Nissan President Takashi Ishihara said at a news conference. The site is to be chosen within several months.

About 500 acres will be acquired, a larger area than needed for the truck plant, and the site could be used in the future for cars or other purposes, he said.

Nissan and Toyota Motor Co., Japan's largest auto firm, have been under pressure to start producing cars in the U.S., where there have been poor domestic auto sales, plant closings and massive

layoffs, blamed partly on imports.

Honda Motor Co. has announced plans to make 10,000 autos a month near Columbus, Ohio.

A United Auto Workers union spokesman in Detroit said the Nissan announcement is "a step in the right direction" but that a 1983 opening would not be soon enough.

Pres. Ishihara of Nissan said his decision to proceed follows study that started in 1974. He added, "I haven't made up my mind about production of passenger cars."

"Whether or not we will go ahead depends on how successful we will be in this (truck production)," he said. Trucks require fewer parts to assemble, and the company will not have to change models as often as with autos.

He commented that Nissan will try to buy parts in the U.S. as much as possible, but initially it will ship engines and other major parts from Japan.

The plant is likely to purchase parts and materials worth about \$100 million a month, he said. Last year, Nissan bought \$33 million worth of parts and materials from the U.S., and this figure is projected at \$43 million for 1980.

Prices of the trucks have not been set, but Nissan expects U.S. production costs will be higher than in Japan.

Ishihara again voiced concern about the quality of labor in the U.S., and said he hopes the new plant will be able to achieve the productivity level of plants in Japan.

NEW PRINT SHOP OPENS as Mayor Paul Schulz, front row center, cuts a ribbon. Super-Print, 2111 State St., featuring "while you wait" printing services, offers letterheads, business cards, resumes, contracts, church bulletins, programs and most other printing needs, the owners told open house visitors. From the left, at the ribbon cutting, are: Eugene Alassi, chairman of the publicity committee of the Tri-Cities Area Chamber of Commerce; Barbara Wyatt, a Chamber Ambassador; Al Barnes III

and Mayor Schulz, co-owners of the new business; Shirley Adams, a Chamber Ambassador, and Harley Davis, executive vice-president of the First Granite City National Bank. In the back row, left to right, are: Melvin Wilmsmeyer, president of the First Granite City National Bank; Granite City Postmaster Jack Wilkins; Jim Livingston, executive vice-president of the Chamber, and Mrs. Margo Evans, manager of the new print shop.

Archeological Explorer post

Learning how to make stone tools, discovering prehistoric sites, and discussing recent discoveries with professional archeologists are just a few of the activities awaiting young men and women, 14 to 21 years of age, interested in Explorer Post 519, sponsored by the Cahokia Mounds Museum Society.

CMMS, a not-for-profit society sanctioned by the Illinois Department of Conservation, works to promote interest in the prehistory of the American Bottoms area, with major focus on the prehistoric "city" known as Cahokia Mounds.

Explorer Post 519, of the Cahokia Mounds Council, Boy Scouts of America, is the first post in Illinois to offer this unique field of study.

With local archeologists as advisors, Post 519 has a wide variety of activities tentatively planned for the next year. They include:

- Seminars by visiting archeologists.
- Participation in an archeological field school; and

—Guided tours of some of the many archeological and historical sites in Missouri and Illinois.

Interested youths and their parents are being asked to attend the "First-Nighter," which will be held on Tuesday, April 29, at 7 p.m. at the Cahokia Mounds Museum, Annex I, on Old Highway 40 near Collinsville.

Ken Williams, an archeologist from the Illinois Archeological Survey's Cahokia Mounds Committee, will serve as site adviser. The registration fee for Explorers is \$3.50 per year, which includes a subscription to Exploring magazine. The registration fee for interested adults is \$5 per year.

For more information or to make reservations to attend, Quad-Cities may call Ken Williams at 451-9183 after 5 p.m.

OOK'S DRIVE-IN LIQUOR IT'S QUICKER!

Man exposing self from car sought

Granite City police are seeking a young man about 20 years old who exposed himself from the front seat of his car a few minutes after 9 p.m. Monday to a 16-year-old Marshall School student who said that the man stopped her as she was going to school.

The girl told officers that she was late for school and was hurrying toward the entrance when a car pulled up near her and the driver called to her.

She said he asked her where Lee Avenue is and she told him she didn't know. He then asked her where Namecki Road is. At that point, the girl related, he opened the car door and exposed himself. He was wearing no trousers, according to police reports.

The girl said she then ran from the car into the school

and reported the incident to school officials who called police.

Officers said they talked with a woman who lives near the scene of the incident and were told that the woman saw the girl talking with the driver of a car, but did not know what was happening. She described the car as a small, green auto and said the man appeared to be about 30 years old.

He was described as having short blonde hair and wearing a dark vest over a white shirt and dark tennis shoes.

The woman witness said that after the girl ran into the school the man pulled up several houses, turned around in a driveway and drove away.

Bullets fired into home

About a dozen bullets were fired at the home of John Mayfield, 2619 E. 23rd St., at 7:45 p.m. Tuesday, some of the bullets coming close to three persons in the house.

Mayfield said a car stopped in front of his house with its headlights on and when Mayfield approached the front window to investigate, a bullet came through the window and lodged in the back wall. A volley of shots followed and the three persons in the home hid in the back of the house until

the shots stopped.

Officers said about seven bullets lodged in the house and garage door, two or three entered the house and one broke the rear window of the auto of John Mayfield in the driveway. There were no injuries.

The vehicle from which the shots were fired was described as a late-model red Ford. Police said the bullets appeared to have been of small caliber, possibly from a .22 caliber weapon.

FIND STOLEN TRUCK
Security officers at St. Elizabeth Medical Center told Granite City police at 7:15 a.m. Tuesday that a pickup truck had been parked in the parking lot across from the emergency room for more than a week. Officers checked and found the truck was stolen April 8 from Hazelwood, Mo. The ignition lock had been damaged. The owner, Gerald Willie, Olivette, Mo., claimed the truck.

WARNING: THEN TICKETS
Madison Chief of Police Donald L. Bridick announced today that the police would issue warning tickets to motorists without a current city vehicle license posted properly on the windshield of the vehicle. He stated that beginning Monday, April 28, police have been instructed to issue traffic citations, which will call for a fine, if the local vehicle licenses are not displayed.

Watts trains in Caribbean

Navy Fireman Apprentice Mack A. Watts, son of Jessie and Annie L. Watts of 201 Weaver St., Venice, has returned from training operations in the South Atlantic and Caribbean Sea. He is a crewmember aboard the amphibious assault ship U.S.S. Nassau, homeported in Norfolk, Va. The naval maneuvers lasted more than a month and demonstrated the United States' commitment to, and interest in, the South Atlantic and Caribbean Sea areas. He and his fellow shipmates had the opportunity to visit the namesake city of the ship, Nassau, in the Bahamas, and the Dominican Republic.

While it was in Nassau, more than 40,000 people toured the ship. Static and operational displays of equipment were presented. The Atlantic Fleet Band conducted a concert for 4,000 people, and several Marines visited Fort Montague, the site of the first amphibious assault by the U.S. Marine Corps in 1776.

The Nassau is 820 feet long and carries a crew of 800. Primarily designed for amphibious operations, it has the capability to embark, deploy and land a fully-equipped Marine battalion landing team by helicopter, landing craft or a combination of both.

A 1978 graduate of Madison High School, Watts joined the Navy in December 1978.

APA PLANS WHITE ELEPHANT SALE

The Association for the Protection of Animals will conduct a white elephant sale Saturday at the VFW Hall, 2044 Washington Ave.

The sale will be held from 9 a.m. to 4 p.m. and there will be no early admissions. No clothing or household furniture is to be sold. Items on sale will include appliances, knick-knacks and jewelry.

The association during its April meeting elected two co-presidents to serve the next year instead of one. The two new presidents are JoAnn Hommert and Carol Wideman. Re-elected were Marge Pemberton as secretary and Thelma Mitchell as treasurer.

Feder Huber FURNITURE

YOUR SMART LIVING STORE

TELEPHONE 452-7147

THIS IS SOMETHING SPECIAL! This is really a chance to save a good sum of money and get a worthwhile investment with it. If you need furniture for any part of your home . . . and want to really save, now is the time and FEDER HUBER FURNITURE is the place! This special event is going to be for a limited time . . . for only four days, this Friday, Saturday, Monday and Tuesday.

ITS SPRING CLEANING TIME . . . AND WE HAVE DISCOVERED SOME BUYS FOR YOU!! We've gone through our inventory and found all our cats and dogs, white elephants, and "DISCOS" (A disco is a discontinued item. It may have been a good selling number and some designer at the factory decides to put more buttons on the back, they change the number on the item and its discontinued). We're willing to take any reasonable offer on any of these items!!

So here's the deal . . . you can take advantage of us this weekend for 4 days only! Our people have been busy all week, reducing prices, checking inventory, unpacking and moving furniture for this event. Every item in the store has been given a triple take (that is, our warehousemen, office and management people have looked for items that are no longer current, a little slow in selling, or perhaps an off beat color). Anything not passing the test gets a special sale tag.

Of course the floor samples and slightly "as is" merchandise will be marked way down too. Everything is not half or more off but many things are. The bargains are plentiful throughout the store as we CLEAN HOUSE the prices will be hard to resist (so please don't!!) Most of it is first line, top quality merchandise lots of bargains throughout the store but for **FOUR DAYS ONLY**, and some quantities are limited, so read on and we'll **STARTLE** you (we hope) with our prices and great selection.

Well, enough of this jabber. Let's get down to the nitty-gritty . . . **OUR CRAZY, UNBELIEVABLE SALE PRICES.** Yes, they are crazy, but we've got to move these items now!

To start with we've got a "disco" on a contemporary sofa and loveseat in a tough Herculon fabric; the suggested retail price is \$499.00 but we've marked it down to \$349.00 for both pieces.

How about Recliners and Chairs . . . some chairs which are regular values of up to \$200.00 now a low \$99.00. Berkline Wallaway Recliners are our specialty. We got a special buy on a vinyl wallaway, regular \$229.00, now only \$189.00, all the rest are 15% OFF.

SOFAS . . . LOVESEATS . . . All sorts of designs, styles, fabrics, and colors. Many are one of a kind and discontinued . . . like this Contemporary Nylon sofa that retails for \$700.00 . . . now only \$449.00. And a Country Colonial sofa and loveseat that was regular \$899.00 now only \$659.00 . . . And a Traditional sofa for \$249.00, it was \$329.00! We've got a real steal on a Traditional sofa and loveseat with a regular \$999.00, spring cleaning priced at \$699.00 for both. We promise that our prices are really crazy this weekend. **THIS IS SPRING CLEANING.** Continue on and you'll find at least a dozen sofas worth \$600.00 to \$700.00 now only \$499.00.

SPRING CLEANING 4 DAYS ONLY

FRIDAY, APRIL 25th 9:00 a.m. to 8:00 p.m.
SATURDAY, APRIL 26th 9:00 a.m. to 5:30 p.m.
MONDAY, APRIL 28th 9:00 a.m. to 8:00 p.m.
TUESDAY, APRIL 29th 9:00 a.m. to 5:30 p.m.

. . . If you've read this far and haven't found what you want **DON'T GIVE UP.** We have planned a crazy 4 Days of ridiculous prices. **WE'VE GOT THOUSANDS OF DOLLARS WORTH OF FURNISHINGS THAT MUST GO NOW . . .** Our display floors and warehouse are jammed packed and now is your chance to save on hundreds of items at give away prices . . . Some haven't sold . . . Some have been lost in the warehouse . . . Some are discontinued . . . Some left odd . . . We have to move them . . .

What do you do with odd **CHESTS?** Some stores leave them on the floor and try to get full price for them . . . but we're moving **THEM OUT FOR \$59.00.**

Of course, not everything is half off . . . but in no way will you pay the regular price for any item in the store . . . For four days you'll find the best bargains of the year . . . We must sell hundreds of items that tie up our space and money . . . For four days prices are not just reduced . . . **PRICES ARE DROPPED . . . SMASHED . . . SLASHED.** Oh yes . . . everything is reduced. Our **LAMPS** are going for two for one . . . all **DESKS** are 15% down from yesterday's price, we've even got some for as low as \$99.95.

How about **BEDROOM SETS . . .** Oh boy, do we have them! Three, four, and five piece sets at crazy low prices. We've got Burlington House, Dixie, Thomasville, Singer and many more reliable brands . . . a broad selection of styles and finishes to choose from . . . Let's start with our open stock sets. There is a wide variety of pieces and several styles, **SAVE a good 15% NOW!** If tight budget is your concern we've got a **complete bedroom set for \$399.00.** Or if **THE PINE LOOK** is your thing, take a look at our bedroom sets, we'll really "deal" on them!

DINING ROOM and DINETTE SETS . . . get ready for your summer company! Our dining room area is jammed pack with beautiful sets . . . **ALL WOOD SET REDUCED 20% . . .** We can give you a complete dining set—china, table and six chairs for a crazy low price of \$999.00 . . . Our selection of **DINETTES** simply amazes most of our customers . . . a real variety of sizes, styles, shapes and colors . . . We're knocking at least **15% OFF** all of them.

We've got a bunch of **Sleeper sofas**, some twin size we are giving away for \$269.00. A lot of queen size beds too. Some are factory closeouts, some discos, some just plain dogs. They are quite a buy, not too often you've seen queen size sleepers for only \$399.00.

THREE FLOORS OF FINE FURNITURE with, at last count, 8,000 pieces of furniture wall to wall . . . So, of course, we can't possibly list all items, but we can assure you that our prices are right.

A SUPER BEDDING BUY at a real low price. Mattresses by Serta . . . twin size \$79.95, full size \$89.95 each piece, queen size sets \$229.00 . . . Or a bunk bed complete with bedding for \$199.00.

We hope that it's clear that this is only a very small sample of the buys in store for you . . . So come on in and spend some time with us . . . The savings available are well worth it . . . a give away party like this doesn't happen very often.

AT FEDER HUBER YOU ALWAYS GET YOUR MONEY'S WORTH . . . BUT THESE SPECIAL PRICES END TUESDAY AT 5:30 P.M.!

'Less is more'—effective energy use

By DENIS HAYES
(This is the fourteenth in a series of 15 articles exploring "Energy and the Way We Live." In this article, Denis Hayes of the Solar Energy Research Institute explains the urgent need for energy conservation.)
(This series, written for COURSE 5 BY NEWSPAPER, a program of University Extension, University of California, San Diego, was funded by a grant from the National Endowment for the Humanities, with supplemental funding from the National Science Foundation.)

+++
The oil we Americans now devour at the rate of one million barrels every ninety minutes was formed over millions of years and is composed of the leftover food of that prime example of immoderate growth—the dinosaur.

Rather than learning from history's mistakes, we have been burning the evidence. In 1975, Americans wasted more fossil fuel than was used by two-thirds of the world's population. We annually consume twice as much fuel as we need to maintain our standard of living.

We could lead lives as rich, healthy and fulfilling—with as much comfort, and with more employment—using half the energy now used. Continuation of our current wasteful course is spherically senseless: it doesn't make sense no matter how you look at it. Resources are frequently estimated in terms of years left until world production will "peak" and begin to decline. Despite recent oil discoveries in Mexico, many authorities believe that worldwide oil production will peak within the next decade.

Since 1973, growth in world oil output has not kept pace with growth in world population. Per capita oil production fell from 5.34 barrels per person in 1973 to 5.20 barrels per person in 1978.

If the government of Saudi Arabia were to decide it would rather have oil in the ground than paper money in the bank, per capita world oil production might never again reach the 1973 level.

BARRIERS TO GROWTH. Growth in energy usage is constrained by factors other than the scarcity of certain principal fuels.

Long before all the earth's coal has been burned, for example, the burning of coal to climate change caused by rising carbon dioxide levels in the atmosphere.

In several states, nuclear power has already been effectively stopped by mounting public concern over safety, waste disposal, weapons proliferation, and construction costs of nuclear plants.

The dramatic reactor accident in March 1979 at Three Mile Island in Pennsylvania strengthened the anti-nuclear tide. Such barriers to endless energy growth cause great consternation among those who believe that economic well-being requires continual growth in energy usage.

Political exhortations for energy conservation have thus often taken the form of calls for sacrifice, as though thrifty energy use were oppressive. Nothing could be farther from the truth.

BENEFITS FROM CONSERVATION. A comprehensive program on energy conservation initiated today will yield vast benefits.

It will enable our descendants to share in the earth's finite stock of fossil fuels. It will allow a portion

of the world's petroleum to be used for drugs, lubricants, synthetic materials, and other non-energy purposes.

An enlightened program of energy conservation will substantially bolster employment levels.

Capital diverted from nuclear, coal gasification plants, and new petroleum refineries to investments in conservation will save more energy per dollar than the production facilities could produce, and create more jobs.

A strong energy conservation program will allow us to minimize the environmental degradation associated with all current energy conversion technologies.

And the security of a modest energy budget is more easily assured than that of an enormous one that depends upon a far-flung network of sources.

But what will energy conservation mean for that touchstone of public policy: the economy?

Is it true, as is apparently believed by some economists and many members of the public at large, that a reining-in of our energy growth—however attractive it might be from an environmental, consumer or labor perspective—would damage the economy?

ENERGY AND THE ECONOMY.

Comparisons between countries and between different facilities in the same country demonstrate that reducing fuel consumption need not reduce economic output. Consumption can be cut back by using more fuel-efficient industrial machinery.

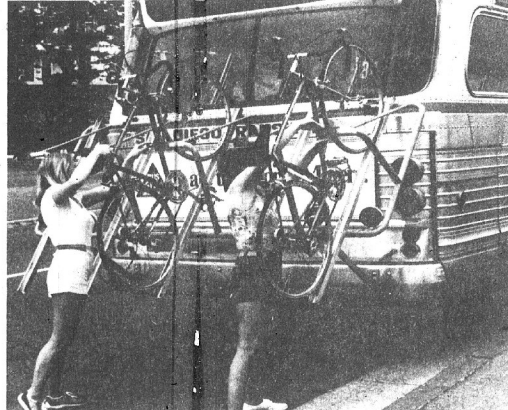

A recent study by the Mellon Energy Institute concluded that an investment of more than \$200 billion in increasing the energy efficiency of U.S. buildings, industries, and transportation would save more energy than the same expenditure on new energy facilities would produce.

For the past several decades, the amount of fuel consumed per dollar's worth of goods and services produced has fallen.

With rising energy prices a near-certainty in the future, this trend could accelerate dramatically.

A recent exhaustive study, "A Low Energy Strategy for the United Kingdom," concluded that Great Britain could triple her Gross National Product during the next 50 years and still require less energy in 2025 than that country uses today.

Per capita energy consumption in the United Kingdom is only 45 percent as high as in America, and only 75 percent as much energy is used there per dollar of Gross National

CONSERVING GASOLINE. Racks on San Diego buses permit bicyclists to take advantage of mass transit.

Product. If the British are wasteful, we Americans are downright gluttonous.

INDUSTRIAL SAVINGS. Industry currently consumes about 40 percent of U.S. energy, and the opportunities for increased efficiency abound.

Many companies have accomplished major energy savings simply by eliminating waste—for example, by repairing broken windows and closing factory doors during the winter.

The largest future opportunities for fuel savings, however, will require more sophistication. Devices such as recuperators, regenerators, and heat pipes, for example, help conserve the heat that would otherwise be used once and discharged, or removed directly—with the flue gases without having been used at all.

At present, electricity purchased mainly from large, centralized power plants fulfills much of industry's energy demand.

The average efficiency of American power plants is about 30 percent; 70 percent of the energy originally contained in the fuel they use is discharged into the environment as low-grade heat.

But factories have many needs for low-grade heat, needs they now meet by burning high-grade fuels.

If electrical generation took place inside factories instead of at remote power plants, the waste heat could be efficiently cascaded through multiple uses.

Investments for such "industrial co-generation" require far less capital and fuel per unit of electricity produced than do investments in new centralized power plants.

TRANSPORTATION POLICY.

Transportation ranks second, after industry, in energy consumption. It accounts for about 25 percent of U.S. energy end-use.

Shifting goods wherever possible from trucks and airplanes to trains, ships, and pipelines could significantly increase the energy efficiency of transport.

At the center of any sensible transportation policy must be a new approach to personal mobility. Current legislation requires a fleet average of 27.5 miles per gallon for new automobiles by 1985. This is a step in the right direction.

The next steps include much greater mileage increases, the design of post-petroleum vehicles, and the establishment of land use patterns that diminish the

conditioning and water heating by 50 percent or more.

No new building permits should be issued for structures that don't incorporate at least passive solar design features, such as windows properly placed for heating and cooling efficiency.

The President's Council on Environmental Quality noted in 1979 that "achieving low energy growth will not be easy or cheap, but it will be easier and less costly than achieving high energy growth."

It is not too late to retrace our steps before we collide with inevitable boundaries on energy growth and consumption.

But the longer we wait to begin a true national commitment to energy conservation, the more tumultuous the eventual turnaround is likely to be.

Still on the hill strictly legal

By MARY BRASE
The lone van followed the ribbon of dust past the Brussels, Ill., cemetery on the hill down to the white brick farmhouse before it turned left. The thin coat of grade eight stone gradually disappeared into potholes as the trail wound through the hickory and oak along the ridge to the house beyond the apple orchard.

The truck stopped beside the metal pole barn. It was a perfect place for a still. But unlike the prohibition models of the '20s, the Webster Industries corn-still is legal. And it is for sale.

The prospective buyers, in plaid shirts and peaked caps advertising Lasso and Co-op, moved quickly inside the sliding metal door. They stopped to look at the first of three metal tanks, half filled with a pea green liquid beginning to bubble.

"You smell that good mash," Hugh Webster said, breathing in an extra share of air and grinning. "That's

made from whole grains of corn."

The three men nodded. The Golden Eagle farmer who drives 50,000 miles a year to earn his living as state manager for Buckeye Plant Food knows his mash, they agree, but he is not interested in making alcohol for the bottle. He wants to fill his vehicle fuel tank and make the rounds to every Buckeye dealer no matter what happens to the oil and gasoline market.

With the backyard still and the alcohol it produces, Webster says he can do it—and for 90 cents a gallon. "Anyone can," he tells the three, as they move closer to the vat for the inside story. The project started last May when Webster was driving the back roads and thinking about the growing cost and growing shortage of gasoline.

"I began to think about Hitler and how he powered his war machine with alcohol. And I remembered

the depression tractors." Webster went home, called Southern Illinois University at Edwardsville, and found Harlan Bengston, an Iowa-bred chemical engineer who agreed to design and build the still.

Bengston said he knew corn and he knew stills, but he and Webster both had to learn all they could about welding and pipefitting before the tanks and the lines were ready for the first test run last fall.

"We also learned how not to do a lot of things," he said. The idea was to build a simple, efficient system, recycling water and heat, with as few parts as possible so nothing could go wrong.

"We wanted a still that even I could operate," Webster said, patting the tank.

"You can't go away on vacation and leave it, but a farmer can turn this on in the morning, work in the fields all day, and come back for a fillup of alcohol before supper." The process is not new, but Bengston's system has perfected it.

It starts in a 1,500-gallon tank used to mix the cracked corn and water with an enzyme. Heat converts the starch in corn to sugar, which reacts with added yeast to give alcohol.

But the first solution is only 10 percent alcohol, Bengston said. The liquid is distilled by heating it until it evaporates up the 10-foot pipe and the collecting only the alcohol as it cools.

When the concentration reaches 80 to 95 percent, it can be used for fuel.

At 80 percent alcohol and 20 percent water, it can be poured right into the tractor.

Unlike gasoline, water actually increases the combustion of alcohol, Bengston said.

The 95 percent solution can be added to gasoline to make gasohol.

Bengston said he tinkered and adjusted until November, when the still produced its first good gallon. The men celebrated, but not with the product.

Technically, the still operates as an experiment under a permit from the federal Bureau of Alcohol, Tobacco and Firearms. The alcohol must be denatured by adding a poison to make it unfit for consumption.

A different license to legally produce drinking alcohol for sale is not only expensive, but carefully regulated and controlled, Bengston said.

By the first of this year, Bengston and Webster were satisfied they had a working model of the simplest, most fuel efficient still around.

For an initial cost of \$6,500, it will take 40 bushels of ground corn a day and make 100 gallons of 80 percent alcohol for 90 cents a gallon, storing up to 1,000 gallons.

From start-up to alcohol requires two days, and the leftovers go to the pigs.

Bengston said the by-product is the same 40 bushels of corn with the same protein and nutrients the still started with.

Only the starch has been removed, so it makes excellent feed for livestock and is the traditional outlet brewers and distillers have always used.

"It is no accident Anheuser Busch and Ralston Purina are both giant St. Louis firms," he said.

As the visitors watched, Webster picked up a five-gallon can of the brew and poured it into his tractor parked on the other side of the barn. He has used the machine for the usual farm chores and found no problems.

Despite less buta's per gallon, Bengston said, alcohol gets about the same miles per gallon as gasoline because it has more miles per bu.

Both men still use gasoline in their own cars, but both agree the alcohol burns cleaner.

Webster poured a small portion of both fuels, side by side on the fine chaff floor of the barn. He lit both spots and stood back as the

gasoline burned with a bright, yellow flame rolling into a thick, black smoke. The alcohol flame was barely visible against the white rock.

"Now tell me," Webster said, "which one would you rather burn in your car?"

Before Bengston could start the tractor engine for a demonstration, a second car with three people followed the same ribbon of dust through the orchard to the barn. Despite its location, the word is out about the corn still, and the farm gets a steady stream of visitors who come to see before they consider buying, Webster said.

A group of seven drove straight through from Georgia and got here at 5:30 one morning," he said. It is the only large-scale working still around, and farmers are as interested as anyone in finding a substitute fuel, he said.

Webster said he has had so many inquiries—farmers from Red Bud and Green-

field last week—he has decided to finance the stills himself, "at a reasonable interest rate."

Bengston will go along to check the setup until he is satisfied it is operating properly.

Both men agree the next step is improving the process. "We may use the same alcohol to fuel the still," Bengston said, or perfect a model that would use coal.

The coal would cost even less to operate and the process would have one distinct advantage, he said: "You can't put coal in a car and make it go."

FUEL SUPPLIES IN STATE PLentiful.

Frank Beal, director of the Illinois Institute of Natural Resources (INR), anticipates plenty of motor fuel to be available to Illinois farmers for spring plowing and planting. Diesel fuel supplies for the first quarter of this year were 18 percent higher than for the same period last year, and gasoline supplies remain adequate.

Unexpected spot shortages will be minimized by the use of the state Fuel Set-Aside Program to allocate fuel to those having hardships or emergencies, he said.

Business seminar for area women

Women who are interested in improving management skills, developing effective marketing techniques and business plans, and learning about low-cost financing opportunities are being encouraged to attend a one-day seminar co-sponsored by the Office of the Governor and Belleville Area College May 16.

"Starting and Operating Your Own Business," supported by funds from the Illinois Department of Commerce and Community Affairs, is open to residents of both Illinois and Missouri. The program will be from 9 a.m. until 4 p.m. at Fischer's Restaurant, 2100 W. Main St., Belleville. A \$20 registration fee will include a buffet luncheon.

Registration may be completed by sending a check for \$20 to Carol Hudack, BAC, 2500 Carlyle Road, Belleville 62221.

In-person registration will be accepted in Suite 1268 of the main BAC campus at 2500 Carlyle.

Included in the program will be Debbie Kean, executive director and founder of "Lunch and Learn." Michael Hill, research associate of the Illinois Institute of Technology Research Institute, and a representative from the Chicago-based accounting firm of Peat, Marwick, Mitchell, and Co.

Personnel from the Illinois Small Business Office and the Illinois Office of Minority Business Enterprise will provide information about technical assistance programs administered through the two offices and how those programs operate.

Psalm 27:1... "The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid?"

When there is a presence of God there is no fear. God takes our fears and gives us peace that passes understanding. There is nothing, nor any being, that we have to fear. God is for us and none shall be against us.

You too can have the peace of God in your life. Read this Scripture text over and over. Believe what it says. Say out loud, to yourself or to anyone else who will listen, the Lord is the strength of my life. Speaking the Word is equal to confessing the Word. If you confess that God is for you, He will be.

Try it, you'll like the results.
Try it, today.

(Continued on Page 29)

FIRST PLACE WINNER is Tammy LeValt, completing her feat to win the long jump at the first Girl Scout Olympic event held in Granite City. The competition took place on the grounds of Frohardt School and involved 17 local troops of the River Bluffs Girl Scout Council. Co-chairmen directing the

project were Joyce Nunley and Mary Modica, with Pauline Schank and Bobbi Ponder award co-chairmen. Second place went to Karen Garin, right, and third to Suzanne Houston, partially hidden behind Tammy LeValt. To the left are unidentified Girl Scouts who participated in various events.

(Press-Record Photo)

READY, SET, GO. commands a line of youthful track participants at the Girl Scout Olympics on the grounds of Frohardt School. The program drew scouts representing 17 troops in the Quad-City area under the auspices of the River

Bluffs Girl Scout Council. Directing the initial event for this area were Joyce Nunley and Mary Modica as co-chairmen. An awards ceremony was conducted by Pauline Schank and Bobbi Ponder at the conclusion of the morning competition.

(Press-Record Photo)

Girl Scout Olympics attracts 17 troops

The first Girl Scout Olympics to take place in this area was held at Frohardt School on Saturday, April 12, from 9 a.m. to 1 p.m. The event was hosted by Neighborhood IV, District IV of the River Bluffs Girl Scout Council with 17 troops participating.

Opening ceremonies included all troops parading with troop banners, American flag and Girl Scout flag around Frohardt field to the music of Stars and Stripes, the flag ceremony and lighting of the Olympic torch to signify the beginning of the games.

Opening remarks and introductions were made by Dee Lovet, Neighborhood Chairman. Guests: Mary Ellen Fischer, president of the River Bluff Girl Scout Council, Nan Henderson, field vice-president, Pauline Schank, council board member, Gail Wolfski, District IV adviser, Myra Charter, district chairman. Ribbons were awarded to first, second and third place winners respectively: 30-Yard Dash — First grade: Julie Boneau, Brandi Myers and Judy Bergbrader. Second grade: Kim Pawlak, Michelle Bridges and Lisa Miller.

40-Yard Dash — Third grade: Lisa Scaturro, Lynn Dew and Chris Kasproovich. Jump Rope — First grade: Jennifer Winfield, Susan McConnell and Dawn Kuehnel. Second grade: Laura Dew, Jennifer Cavness and Michelle Bridges. Third grade: Kathy Charter, Shannon Murray and Michelle Miller.

Long Jump — First grade: Leigh Humphrey, Amy Russell and Brandi Myers. Second grade: Yvonne Bridick, Amy Briggs and

Lara Zikovich. Third grade: Lyn Dew, Chris Kasproovich and Krista Morgan.

Hurdles — First grade: Leigh Humphrey, Susan McConnell and Becky Grayson. Second grade: Janet Radien, Monica Evans and Christina Lindsey. Third grade: Carolyn James, Krista Morgan and Lisbeth Lyons.

Soccer Ball Kick — First grade: Chris Wasyla, Julie Boneau and Denise Drago. Second grade: Jennifer Cavness, Michelle Wachter and Monica Evans. Third grade: Michelle Miller, Lisa Scaturro and Alice Dawn.

100-Yard-Dash — First grade: Amy Russell, Brandi Myers and Becky Grayson. Second grade: Kim Pawlak, Kelly Kessler and Lisa Miller.

200-Yard-Dash — Third grade: Carolyn James, Lisa Scaturro and Chris Kasproovich.

Fourth grade events: Softball Throw — Jamie Bucatch, Tammy LeValt and Dawn Lengyel.

Jump Rope — Traci Rodgers, Tracy Perkins and Nina Beyers. 30-Yard-Dash — Renee Roderick, Jennifer Radien and Melissa Pucker.

Long Jump — Tammy LeValt, Karin Garin and Suzanne Houston.

Shuttle Run — Suzanne Houston, Marianne Finn and Traci Rodgers. 300-Yard-Dash — Jennifer Radien, Mary Finn and Andrea Jones.

Shuttle Run — Fifth grade: Nancy Modica, Jennie Johnson and Beth Brinkhoff. Sixth grade: Serena Futrell, Michelle Smith and Patty Donjan.

Softball Throw — Fifth grade: Jackie Ennis, Caroleann Fowler and Julie

Baker. Sixth grade: Colleen Ryan, Linda Briner and Alice Oliver.

50-Yard-Dash — Fifth grade: Leigh Wolf, Nicki Bausch and Julie Radien. Sixth grade: Tracie Rose, Linda Briner and Dawn Finn.

Perils of high blood pressure

By DR. STUART FRANK

SU School of Medicine

From time to time the press and the public's attention focuses on a particular disease—something popular or dramatic or, more often, something which affects or kills some prominent person.

This "disease-a-month" problem increases the public's awareness but often creates a surge of new symptoms in otherwise healthy people. And it generates a lot of unnecessary worry.

It is often accompanied by a dramatic appeal, and everyone opens his heart and his checkbook to find a cure for you-name-it.

Often a cure is not at hand, control is not available, and unrealistic hopes dwindle as the disease wages war.

A brief period of hectic activity, the disease fades from the public's attention and returns to the medical textbooks.

Somewhere there must be a way of getting across the message that some diseases are special: High blood pressure is a good example.

In its simplest, boldest terms, high blood pressure is very common.

It can kill and almost surely will significantly shorten life expectancy.

It affects all ages, not just old people.

It often has no symptoms at all.

Most importantly, high blood pressure can be controlled effectively and easily, and control seems to prevent all of the inevitable complications of the disease.

It is important to have your blood pressure checked and, if it is abnormal, to get the necessary treatment. If your doctor won't take your blood pressure or won't treat you if it is high, get another doctor.

The measurement of blood pressure is accurate, cheap, painless and simple.

The treatment of high blood pressure is one of the few things you can do to prevent serious illness. It takes no great sacrifice on your part, like giving up smoking or losing weight, and it is precise and effective.

What is "high blood pressure"? Technically, it is called hypertension.

Your heart pumps blood around your body through the arteries. The pressure in the arteries is the blood pressure.

When the heart contracts, the pressure is maximum

and a higher, or systolic, pressure is obtained. When the heart relaxes between contractions, the pressure falls and the lower, or diastolic, pressure is recorded.

The systolic pressure increases with age but is normally less than 140 in young adults. The diastolic pressure is normally less than 90, almost regardless of age.

A blood pressure of 140-90 or less is normal and reassuring. The lower the blood pressure, the better. Low blood pressure does not produce any symptoms and is one sign of good health.

Who gets "high blood pressure"? Anyone can. Although the "disease" increases in frequency as you get older, young people are not immune.

Two groups of young people, pregnant women and black men, are relatively high risk because of the potential for complications or a statistically higher incidence of more serious disease.

High blood pressure must be controlled during pregnancy for the safety of the mother and the baby.

If the disease is not treated, high blood pressure ultimately places a gross strain on the heart and the arteries in the brain and kidneys. This can lead to strokes, heart attacks or kidney failure.

The destructive process usually takes years but is reasonably predictable. If the high blood pressure is not lowered.

With treatment, hypertension can usually be controlled. Generally, the medications are simple and the side effects are non-existent or tolerable.

In an unusual patient, stronger medications are required and these may produce mild or sometimes unpleasant side effects. This is a small price to pay, considering the alternatives.

The physician should have emphasized the importance of taking advantage of opportunities for receiving good medical care.

Getting your blood pressure checked is painless, simple, quick, inexpensive and good health advice for everyone.

The Illinois Department of Commerce and Community Affairs (DCCA) will sponsor a seminar Friday, April 25, at the Civic Memorial Airport, East Alton.

DCCA Director John W. Castle said the purpose of the seminar is to provide practical information on such subjects as how to start and operate a business, how to use state and federal funding sources, and what financing tools and low interest loans are available.

The seminar, scheduled from 1 p.m. to 4:30 p.m., is designed for business people, local government officials, and other persons interested in business.

The seminar is being held in conjunction with the 1980 Business-Industry Exposition sponsored by the Wood River Township Chamber of Commerce in cooperation with the Greater Alton Chamber of Commerce, Southwest Illinois Industrial Association and DCCA.

Area communities will be reacquainted with the commercial and industrial economic base responsible for this region's prosperity.

The exposition will provide an opportunity for the public to get a look at business and industry—who they are, what they do, what they provide, what taxes they pay, the number of people they employ, what capital investments they make, the history of their growth, and the outlook for their future.

The exposition is open to the public and to seminar participants from 12 noon to 8 p.m. on Friday, April 25, and Saturday, April 26. There is no admission charge.

Your Horoscope Guide

For The Week Of April 27 to May 3

By GINA, Copley News Service

For more complete forecast, read indications for your Ascendant sign plus Birth sign. To find your Ascendant sign, count ahead from Birth sign the number of signs indicated.

Time of Birth	Probable Ascendant is:
1 to 6 a.m.	Same as birth sign
6 to 8 a.m.	First sign following
8 to 10 a.m.	Second sign following
10 to Noon	Third sign following
Noon to 2 p.m.	Fourth sign following
2 to 4 p.m.	Fifth sign following
4 to 6 p.m.	Sixth sign following
6 to 8 p.m.	Seventh sign following
8 to 10 p.m.	Eighth sign following
10 to Midnight	Ninth sign following
Midnight to 2 a.m.	Tenth sign following
2 to 4 a.m.	Eleventh sign following

ARIES: (March 21 to April 19) — Also Aries Ascendant) — Use caution in financial matters — not the time to loan money to a friend or buy on impulse. Other people's motives may not be clear to you; so sit tight for now. Work along at an easy pace and don't bite off more than you can chew.

TAURUS: (April 20 to May 20) — Also Taurus Ascendant) — If selling property now is a good time. Whatever financial increase comes your way should be saved, not squandered extravagantly. Divide your time equitably between family obligations and outside concerns.

GEMINI: (May 21 to June 20) — Also Gemini Ascendant) — Go over your finances to determine where extravagance spending has made inroads to your security. Set your personal affairs in order and stick to a plan. Chaotic changes at work can cause pressure so don't ask favors.

CANCER: (June 21 to July 22) — Also Cancer Ascendant) — There may be conflict between duties at work and domestic problems. Make compromises, but put work first. Stay in control and don't risk money on gambling and speculation. Get all the routine tasks out of the way.

LEO: (July 23 to Aug. 22) — Also Leo Ascendant) — Review tax matters and personal accounts to make sure you are current. Catch up on needed chores around the house and seek to cut household expenses. Don't let pressures and interruptions irritate you to the point of losing your temper.

VIRGO: (Aug. 23 to Sept. 22) — Also Virgo Ascendant) — Your personal magnetism can get you help you need from others. Not the time to gamble or take risks with money. Placate romantic partners who are being temperamental. Be gentle in your criticism of loved ones.

LIBRA: (Sept. 23 to Oct. 22) — Also Libra Ascendant) — Rest acting on impulse regarding money and investments — stick with the tried and true. Accept advice from older, wiser relatives about career matters. If health problems arise spend a little money for a specialist's opinion.

SCORPIO: (Oct. 23 to Nov. 21) — Also Scorpio Ascendant) — Not the time to impulsively quit your job. The problem is likely to arise from within rather than from others. Be willing to meet others halfway. Catch up on detail of projects already in progress rather than starting anything new.

SAGITTARIUS: (Nov. 22 to Dec. 21) — Also Sagittarius Ascendant) — Don't look to friends for advice on money matters — seek the advice of a professional. Use a detail of project already in progress rather than starting anything new.

CAPRICORN: (Dec. 22 to Jan. 19) — Also Capricorn Ascendant) — Family members can get neglected and complain you're spending too much time on the job. Try to set aside time for them. A promotion could be in the offing, so see that things run smoothly by sticking with routine.

AQUARIUS: (Jan. 20 to Feb. 18) — Also Aquarius Ascendant) — Organize your work efforts and don't let work interfere with your free time. Trust your judgment and be optimistic about the future — it's justified! Others are supportive but you work best in the areas where you have total control.

PISCES: (Feb. 19 to March 20) — Also Pisces Ascendant) — "Sure thing" tips regarding money are unreliable — don't gamble. Stick with routine tasks and don't rely too much on the help of others. A new romance could prove disillusioning also. Concentrate on your creative activity.

Business expo and seminar

The Illinois Department of Commerce and Community Affairs (DCCA) will sponsor a seminar Friday, April 25, at the Civic Memorial Airport, East Alton.

DCCA Director John W. Castle said the purpose of the seminar is to provide practical information on such subjects as how to start and operate a business, how to use state and federal funding sources, and what financing tools and low interest loans are available.

The seminar, scheduled from 1 p.m. to 4:30 p.m., is designed for business people, local government officials, and other persons interested in business.

NEW ZOO REVIEW

All the big guys are putting out coupons and 2 for 1 sales. Soooo—I guess we will have to do something to hold our share of the business.

We will have a sale on the things we are best know for.

Our Own Pork Tenderloins Reg. 89¢
NOW 2 for \$1.49 Until May 4
Also Kiddy Burgers Reg. 5 for \$1.30
5 for \$1.19

Sodas still 30¢-40¢-50¢ and our really good coffee 25¢ here — 30¢-45¢ to go.

Nobody beats our prices and we serve only the best I can buy.

Exhaust repairs could be costly, mayor says

Governmental auto exhaust control plans could prove costly to individuals and families, Paul Schuler, mayor of Granite City, said in a statement at Monday's motor vehicle emission hearing held in East St. Louis.

"I want to thank the committee for giving the time to hear my views on the motor vehicle emission inspection and maintenance program," Schuler said.

"Since this legislation will be affecting the residents of the City of Granite City, I feel I must express what I feel their viewpoints are.

"In general, the auto emission inspection and maintenance program has a great deal of merit. This program, as I am told, will provide the adherence by this metropolitan area to the clean air standards set down by the 1977 Federal Clean Air Act Amendments.

"If these federal requirements are not met, then certain federal sanctions will be imposed on the area.

"These facts are all quite real and good, but it is my viewpoint that more attention should be given to the common citizen who will be paying for this program.

"During these inflationary times and the onset of a possible recession, as expressed by our federal representatives, the city cannot support another burden on its residents.

"The actual inspection cost, from my understanding, being six to eight dollars, is small. However, the cost of having a vehicle repaired or maintained to meet the inspection standards is quite high.

"These costs might be from seventy to three hundred dollars, depending

on the actual work done. This work could involve possibly a new carburetor or exhaust system.

"It is my contention that parameters concerning such possible costs should be set out in any legislation concerning vehicle emission inspection and maintenance. It is also my contention that our senior citizens and low to middle-income citizens should not be taken advantage of.

"With the price of gasoline expected to increase, any additional cost of operating and maintaining a vehicle will place a burden on our citizens and only allow the individual with a high income to own one," the mayor commented.

"The City of Granite City will be, later this year, beginning a project on gasoline use.

"The city—with the cooperation of its police department and the air pollution control department—will be studying both the energy savings and the effects on the environment which the use of gasoline may have.

"Possibly if all the local government agencies would switch over to gasoline and local officials and citizens demand that this renewable type of fuel source be offered at major service stations, then they could be met.

"Hopefully, the study in Granite City will spread some light on the matter. "Before I close I would like to express one major point—that the Joint Senate-House Committee on the Mandatory Motor Emission Inspection Program take a hard look as to the economic impact that the citizens will face with this program."

Compensation called top problem for small firms

A large majority of the state's small-business owners say the cost of workers' compensation is high in relationship to other state-mandated costs, according to a survey by the National Federation of Independent Business.

In a poll of NFIB's 18,820 Illinois members, 63 percent labeled their present compensation costs as "extremely high" and 19 percent as "moderately high." Seven percent said the cost is about the same as other state-mandated costs.

"Workers' compensation costs are a burden on the small-business person," contended Don Robinson, an NFIB representative in Illinois. "The cost is particularly unfair when compared with neighboring states."

Using the example of small firms involved in concrete products, Robinson said the Illinois rate for workers' compensation is \$7.90 for every \$100 paid in wages. The rate in Wisconsin is \$5.06, and in Indiana it is \$2.43. The rate for an Iowa small-business person for the concrete business is \$1.06 for every \$100 of wages paid.

"The cost of workers' compensation is the number one problem for Illinois small-business people," said Robinson.

"Further results of the survey show that of those responding, nearly one-third pay out six percent or more of their payroll expenses in workers' compensation costs.

"In other results of the

survey, 67 percent said they oppose H. 2703, a litter reduction act that would tax manufacturers and sellers of items contributing to the litter problem. Twenty-three percent favored the measure, and 10 percent were undecided.

"This legislation is just another small-business tax," Robinson said. "It places the responsibility of the litter problem on the business person, rather than on the public."

"Under H. 2703, a great percentage of our members would be required to finance a litter reduction program that the state should enforce at the consumer level."

The small-business people respond in favor of legislation that would establish the initiative process in Illinois. Seventy-four percent said they support the process which grants citizens the right to place initiatives on the ballot through petition drives. Fifteen percent were against the initiative process, and 11 percent were undecided.

\$602 in camping equipment stolen

An outboard motor, a chain saw, fishing tackle and an assortment of camping equipment valued at a total of \$602 was stolen in a burglary Monday at the home of Harry Whitman, 2825 Edgewood Ave.

The victim said the items were taken from a shed which possibly was entered through a rear window.

NORTH CAROUSEL ESCORTS are, kneeling, John Kefalas, left, and Kenny Myracle, right. Standing from left are: Bob Batey, Dennis Page, Scott Humphreys, Mike Robertson and Randy Schrenk. The Granite City High School

North Spring Carousel is the traditional farewell to graduating senior girls. The event will be held at the Memorial Gymnasium on the South campus at 8 p.m. Friday, May 2. (Press-Record Photo)

Public forum on port development

First National Bank in St. Louis will sponsor an economic development forum focusing on the Port of Metropolitan St. Louis May 21.

Chairman Clarence Barksdale said the bank examined a number of issues before selecting port development as the first topic of discussion in the forum series.

"The port has not assumed its full potential as a part of our transportation network," he said. "We know that it is the largest on the inland waterway system; we hope that as a result of the May 21 meeting, it will soon be distinguished as the busiest."

Discussing the Port of Metropolitan St. Louis will

be Lawrence K. Roos, president of the Federal Reserve Bank of St. Louis; Richard Mantia, executive secretary-treasurer, Building and Construction Trades Council; Robert C. West, chairman, Sverdrup Corp.; Charles G. Houghton, executive director, Bi-State Development Agency; James M. O'Flynn, president, Regional Commerce and Growth Association, and Carl A. Randt, general manager, Tri-City Regional Port District.

Special guest speaker will be Luther Hodges, deputy secretary of Commerce. Hodges was invited to speak to forum guests as part of his activities during World Trade Week.

Purpose of the forum is to bring together the public and private sectors of the metropolitan area in an effort to "encourage interest, controversy or debate; to serve as a catalyst for further development."

"The river, an asset since our city's founding, has received less than our best attention in recent years," Barksdale said. "To move the port out of the planning

stages and into implementation requires the cooperation and participation of everyone involved."

The forum is scheduled for Wednesday, May 21, from 8:30 a.m. to 2 p.m. at the Sheraton St. Louis Hotel. Area businessmen have been invited to attend.

Varied Reserve options for high school seniors

"The Army Reserve offers high school seniors more options than ever before," Lieutenant Colonel Joseph M. Kukitich, U.S. Army St. Louis district recruiting commander, said this week. "Whether a student plans on continuing his or her education or going to work after graduation, Army Reserve training can often be tailored to the individual's needs."

"The Army Reserve offers training in hundreds of occupational skills, many of which relate directly to civilian occupations. A high school senior can enlist before graduation, with initial military training deferred until after graduation and receive pay for attending college after graduation can benefit from the Army Reserve's split training program. This option lets an enlistee undertake basic training during the summer following graduation from high school, and defer advanced individual training until the following summer."

"The program provides

the student with two full summers of employment and offers part-time work as an Army Reservist during the school year.

"A new program, the Simultaneous Membership Program (SMP), is of special benefit to the college-bound student.

"It lets Army ROTC Advanced Course cadets participate in a Reserve troop unit as an officer-trainee drawing at least sergeant's pay.

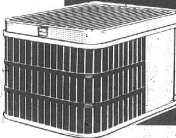

"By enlisting in the Army Reserve and undertaking basic training immediately after high school graduation, the college-bound student can be eligible for the Advanced Course if he or she qualifies. By participating in the SMP, the cadet receives not only the \$70 pay for attending drills as an officer-trainee, but also a monthly subsistence allowance of \$100.

"These new programs are designed to make it easier for high school seniors to join the Army Reserve," said Col. Kukitich. "We're looking for qualified, well-motivated people and feel that we now have better incentives to offer."

Press-Record photo fest '80

All photographers have a favorite picture. Whether it be the horseshoe game at the family reunion in July or a group of children taking advantage of an ice and snow covered hillside in January. Whatever your picture, it may be worth a prize! Find out by entering the **PRESS-RECORD'S PHOTO-FEST '80**. It's the Press-Record's Second Annual Photography Contest exclusively for amateur photographers.

We're interested in your picture! Subject matter is unlimited and this year there are two categories: **black and white** and **color**! If you don't have a "favorite" you still have time to try to get one. Pictures will be accepted beginning Monday, April 28.

Last year's pictures were real prize winners — from a photographic and personal perspective. So dig through your photo albums and send us your favorite shots. You may win a prize. Prizes will be awarded as follows:

- ONE AWARD IN EACH CATEGORY
- FIRST PLACE \$75 GIFT CERTIFICATE
- SECOND PLACE \$50 GIFT CERTIFICATE
- THIRD PLACE \$25 GIFT CERTIFICATE
- PLUS...
- \$10 CASH PRIZE WEEKLY IN EACH CATEGORY

DETAILS AND RULES!

- All residents within the Press-Record circulation area may enter.
- Employees of the Press-Record and their immediate families are ineligible.
- ONLY PRINTS MAY BE ENTERED. The maximum print size is 8-by-10 inches.
- Each photograph may submit up to five entries in each category. However, each entry envelope may contain only one photograph. Photographs will be considered separately. Contestants may enter only their own work. Photographs are to be acknowledged by the photographer as his/her work and property.
- The photographers name, full address and telephone number must be attached to each photograph entry.
- Entries may be mailed to the Press-Record, 1815 Delmar Avenue or may be dropped off at the Press-Record or at Dicor Photo.
- By Submitting entries a photographer grants reproduction rights to the Press-Record. Should his/her photograph win an award, the Press-Record holds unlimited, non-exclusive reproduction rights for non-advertising purposes.
- We will return your photographs if they are accompanied by a stamped, self-addressed envelope large enough to hold them. Entries without a stamped, self-addressed envelope will not be returned. They may be picked up at the Press-Record office until July 3, 1980. Care will be taken to return entries, but the Press-Record cannot accept responsibility for loss or damage.

Houses for Sale

Houses for Sale

Your house is worth more today than it was 6 months ago. Do you know how much?

The real estate market is changing so rapidly it's hard for most people to keep track of property values.

Your CENTURY 21[®] Neighborhood Professional[®] is trained to price your house properly. With us it's not a guessing game. We factor in current selling prices in your area, your property's condition, the local tax structure, plus a list of items that can add value to the house you're about to sell. The resulting figure is often a pleasant surprise.

Call us for a complimentary Market Value Analysis[®]. Then ask us about the Action Warranty[®]—a written document that details exactly what we'll do to help you sell your house.

At CENTURY 21, We'll Give Our Word To You[®].

WHEREAS, pursuant to the provisions of the 1970 Constitution of the State of Illinois, and particularly Article VII, Section 6(a), the City of Granite City, Madison County, Illinois (the "City"), has a population in excess of 25,000 and is a home rule unit and as such may exercise any power or perform any function relating to its government and affairs, including, but not limited to, the power to tax and to incur debt; and

WHEREAS, Section 6(d) of Article VII of said 1970 Constitution of the State of Illinois grants constitutional authority for the City to incur debt payable from ad valorem property tax receipts maturing within forty (40) years from the time it is incurred and without prior referendum approval; and

WHEREAS, it is deemed to be necessary, essential and for the best interests of the inhabitants of the City and necessary for the welfare of the government and affairs of the City to construct the 19th Street grade separation and overpass in and for the City; and

WHEREAS, the estimated cost of such construction to the City is not less than \$2,500,000 and the City expects to pay such cost by borrowing such money and issuing its general obligation bonds;

WHEREAS, the City is authorized by the Constitution of the State of Illinois, and particularly by the provisions of Article VII, Section 6(d) thereof, to incur indebtedness payable from ad valorem property tax receipts maturing within forty (40) years from the time of incurring the same without prior referendum approval; and

WHEREAS, it is hereby found and determined that such borrowing of money is necessary for the welfare of the government and affairs of the City, is a proper public purpose and is in the public interest, that full faith and credit bonds in the principal amount of \$800,000 be issued and that such indebtedness be incurred without submitting the question of incurring such indebtedness to the voters of the City for their approval;

NOW, THEREFORE, Be It Ordained, by the City Council of the City of Granite City, Madison County, Illinois, as follows:

SECTION 1. That in order to raise the sum of \$800,000 for the purpose set forth in the preambles hereof, there be borrowed by, for and on behalf of the City the sum of \$800,000 and to evidence said loan negotiable coupon bonds of said City be issued. Each of said bonds shall be designated "Grade Separation Bond, Series B," be dated April 1, 1980, be numbered consecutively from 1 to 178, inclusive, be of the denomination of \$5,000 each, and become due serially on December 1 in each of the years in the amounts and bear interest as follows:

Year	Rate of Interest	Amount	Percent
1981	20.00	9.00	
1982	20.00	9.00	
1983	15.00	9.00	
1984	20.00	9.00	
1985	25.00	9.00	
1986	25.00	9.00	
1987	25.00	9.10	
1988	30.00	9.10	
1989	35.00	9.15	
1990	40.00	9.15	
1991	45.00	9.20	
1992	40.00	9.30	
1993	50.00	9.40	
1994	55.00	9.50	
1995	60.00	9.55	
1996	60.00	9.60	
1997	70.00	9.70	
1998	75.00	9.80	
1999	85.00	9.90	
2000	95.00	10.00	

which such interest becoming due on said bonds in accordance with the foregoing schedule shall be payable on December 1, 1981, and semiannually thereafter on the first days of June and December in each year until paid. Interest payments on the bonds shall be evidenced by proper interest coupons attached to each bond and maturing on the dates herein provided, and both principal and interest shall be payable in lawful money of the United States of America as follows:

The seal of the city shall be affixed to each of said bonds and said bonds shall be signed by the Mayor and be attested by the City Clerk of the City and Madison County, Illinois, and attested by said officials respectively, by their respective facsimile signatures, and said officials, by the execution of said bonds, shall adopt and for the their own proper signatures their respective facsimile signatures appearing on said coupons.

SECTION 2. That the bonds hereby authorized shall be payable to bearer, provided, however, that such bonds may be subject to registration as to principal in the name of the holder on the books of the City Treasurer of the City, such registration to be evidenced by notation of said City Treasurer on the back of such bonds so registered. No bond so registered shall be subject to transfer except upon such bonds and similarly noted on the back thereof unless the last registration shall have been to bearer. Such registration of any of said

(III). PRESS-RECORD

SECTION 1. That in order to raise the sum of \$800,000 for the purpose set forth in the preambles hereof, there be borrowed by, for and on behalf of the City the sum of \$800,000 and to evidence said loan negotiable coupon bonds of said City be issued. Each of said bonds shall be designated "Grade Separation Bond, Series B," be dated April 1, 1980, be numbered consecutively from 1 to 178, inclusive, be of the denomination of \$5,000 each, and become due serially on December 1 in each of the years in the amounts and bear interest as follows:

Year	Rate of Interest	Amount	Percent
1981	20.00	9.00	
1982	20.00	9.00	
1983	15.00	9.00	
1984	20.00	9.00	
1985	25.00	9.00	
1986	25.00	9.00	
1987	25.00	9.10	
1988	30.00	9.10	
1989	35.00	9.15	
1990	40.00	9.15	
1991	45.00	9.20	
1992	40.00	9.30	
1993	50.00	9.40	
1994	55.00	9.50	
1995	60.00	9.55	
1996	60.00	9.60	
1997	70.00	9.70	
1998	75.00	9.80	
1999	85.00	9.90	
2000	95.00	10.00	

which such interest becoming due on said bonds in accordance with the foregoing schedule shall be payable on December 1, 1981, and semiannually thereafter on the first days of June and December in each year until paid. Interest payments on the bonds shall be evidenced by proper interest coupons attached to each bond and maturing on the dates herein provided, and both principal and interest shall be payable in lawful money of the United States of America as follows:

The seal of the city shall be affixed to each of said bonds and said bonds shall be signed by the Mayor and be attested by the City Clerk of the City and Madison County, Illinois, and attested by said officials respectively, by their respective facsimile signatures, and said officials, by the execution of said bonds, shall adopt and for the their own proper signatures their respective facsimile signatures appearing on said coupons.

SECTION 2. That the bonds hereby authorized shall be payable to bearer, provided, however, that such bonds may be subject to registration as to principal in the name of the holder on the books of the City Treasurer of the City, such registration to be evidenced by notation of said City Treasurer on the back of such bonds so registered. No bond so registered shall be subject to transfer except upon such bonds and similarly noted on the back thereof unless the last registration shall have been to bearer. Such registration of any of said

incurd does not exceed any constitutional or statutory limitation, and that provision has been made for the collection of a direct annual tax, in addition to all other taxes, on all of the taxable property in said City, sufficient to pay the interest hereon as the same falls due and also to pay and discharge the principal hereof at maturity.

This bond is subject to registration as to principal in the name of the holder on the books of the City Treasurer, such registration to be evidenced by notation of such City Treasurer on the back hereof, and after such registration no transfer hereof, except upon such books and similarly noted hereby, shall be valid unless the last registration shall have been to bearer. Registration hereof shall not affect the negotiability of the coupons hereto attached which shall continue negotiable by delivery merely, notwithstanding registration hereof.

IN WITNESS WHEREOF, said City of Granite City, Madison County, Illinois, by its City Council, has caused its corporate seal to be hereunto affixed and this bond to be signed by its Mayor of the City and attested by the City Clerk and the coupons hereto attached to be signed and attested by said officials, respectively, by their facsimile signatures, and said officials, do by the execution hereof, adopt and for their own proper signatures their respective facsimile signatures appearing on said coupons, all as of the first day of April, 1980.

1990	104,260.00
1991	130,000.00
1992	101,120.00
1993	101,157.50
1994	100,680.00
1995	94,935.00
1996	96,690.00
1997	96,590.00
1998	96,707.50
1999	99,750.00

SECTION 6. That the funds derived from the levy be and the same are hereby appropriated and set aside for the sole and only purpose of paying principal of and interest on said bonds when and as same become due. That the funds derived from the sale of said bonds be and they are hereby appropriated and set aside for the purpose hereinbefore set out.

SECTION 7. That after the effective date hereof, the bonds herein authorized shall be executed and delivered to the Treasurer of the City and be by him delivered to Clayton Brown & Associates, the purchaser thereof, upon receipt of the purchase price therefore, same to be not less than \$800,000 plus accrued interest to the date of delivery, that the contract for the sale of said bonds to said purchaser, heretofore entered into, be and the same is hereby in all respects ratified, approved and confirmed, that it is hereby found and determined that said contract is in the best interest of the City, either by election or by appointment, is in the manner interested, either directly or indirectly, in his own name or in the name of any other person, association, trust or corporation, in said contract for the purchase of said bonds.

SECTION 8. That the principal proceeds of the sale of said bonds shall be devoted to and used with due diligence for the completion of the project for which said bonds are hereby authorized to be issued. The City Council represents and certifies:

(1) That said City has incurred, or within six (6) months after the delivery of said bonds expects to incur, substantial binding obligations with respect to said project, said binding obligations comprising contracts for the construction of said project in the amount of not less than \$100,000, said amount being not less than 2 1/2 percent of that portion of the cost of said project to be financed with the proceeds of said bonds;

(2) That the City expects that all of the money derived from the sale of said bonds and deposited in the 19th Street Grade Separation Construction Fund Account, which is the account from which the cost of said project is to be paid, shall be expended on or before February 1, 1983, for the purpose of paying the cost of said project, said date being within three (3) years following

the date of issue of said bonds;

(3) That the foregoing is based upon consultation with those persons who are employed by the City to supervise the construction of said project;

(4) That work on the said project is expected to proceed with due diligence to completion;

(5) That said project has not been and is not expected to be sold or otherwise disposed of in whole or in part prior to the last maturity of said bonds;

(6) That all of the proceeds of sale of said bonds are needed for the purpose for which said bonds are issued, including sums of money incidental to such purpose and to the issuance of said bonds;

(7) That accrues interest received upon the sale of said bonds will be applied to the first interest due thereon and that the balance of the proceeds of the sale of said bonds will be deposited in said 19th Street Grade Separation Construction Fund Account and applied to the costs of said project and of issuing said bonds;

(8) That the City has not accumulated and does not expect to accumulate amounts of money in a fund to pay or to be held as security for the payment of principal and interest on said bonds, other than (a) amounts expected to be spent within thirteen (13) months from the date of deposit thereof in such fund and (b) interest earned by such fund which is to be spent within twelve (12) months from date of receipt; and

(9) That to the best of the knowledge and belief of the City Council of the City, there are no facts, estimates or circumstances that would materially change the conclusions and representations set out in this Section and the expectations set out in this Section are reasonable.

Said City Council also certifies and further covenants with the purchasers and holders of said bonds from time to time outstanding that, so long as any of said bonds remain outstanding moneys on deposit in any fund or account in connection with said bonds, whether or not such moneys were derived from the proceeds of the sale of said bonds or from any other sources, will not be used in a manner which will cause such bonds to be "arbitrage bonds" within the meaning of Section 108(c) of the Internal Revenue Code of

1954, as amended, and any law or regulations promulgated or proposed thereunder, including Treasury Regulations Section 1.103-13, 1.103-14 and 1.103-15, as the same presently exist, or may from time to time hereafter be amended, supplemented or revised. The City Council reserves the right, however, to make any investment of such moneys permitted by Illinois law if, when and to the extent that said Section 103(c) or regulations promulgated thereunder shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction, but only as if any investment made by virtue of such repeal, relaxation or decision would not, in the opinion of counsel or recognized competence in such matters, result in a conflict herewith, and in making the interest on said bonds subject to federal income taxation.

SECTION 9. That "promptly" after the adoption of this ordinance it shall be published one time in the Granite City Press-Record, a newspaper published in and of general circulation in the City and shall become effective five (5) days after the date of such publication.

SECTION 10. That all ordinances, resolutions and orders, or parts thereof, in conflict herewith, be and the same are hereby repealed and this ordinance shall be in full force and effect upon its adoption, approval and the publication thereof as provided by law.

PASSED by the City Council of the City of Granite City, Illinois, this 23rd day of March, A.D., 1980.

APPROVED by the Mayor of the City of Granite City, Illinois, this 23rd day of March, A.D., 1980.
